THE FORGED TELEGRAM.

Mr. Borden's famous telegram was he thought he had made ket gardens conducted on scientific that the mesbeen faisified; but Mr. Temgives a different version, and

Victoria, Mr. Barnard, in an equivocal public some glimpses into the recesses the bogus message, which he read, apparently in good faith, at a married couple, who preferred charges on the eve of the election. against each other: The Colonist thus reported the meeting the next day:

"The building was crowded to the doors with happy, confident voters, representative of all sections of the community, and all imbued with a single aim. The audience was very much in earnest, and when Mr. Barnard read Mr. Borden's telegram stating that the Conservative party stood for the absolute exclusion of Asiatics the roar of applause that went up could be heard on Government street. The whole of that vast audience rose to its feet and shouted and cheered, and it was several minutes before the

was given to the incident by influence electors in several constitu-

AN IDEAL ENGLAND.

The land question, now the all-important one in England, is discussed from a somewhat novel standpoint by of the Nation. The article is in the lowing "harmless" lunatics to be at form of comments on Kropotkin's large. "Fields, Factories and Workshops," in which the claim is made that the Bott. ish neonle could be fed from the prodthat of their own land, if thoroughly scientific agriculture were followed; that with scientific methods they

Dealing with the common complaints or opportunities for more modern methods of culture than those of the city intends to break a Canadian remain undeveloped, Mr. Villiers says night. Here's hoping it will not only such complaints are justified if the establish a record, but a precedent how if scientifically worked, all that is needed could be raised on the land already under tillage? He instances the case of a market gardener who employs so much labor on twenty acres of land that his pay bill amounts to £30 a week. As he is prosperous, he must, one would think, raise £2,000 worth of produce annually from his twenty day night. Hon. R. F. Sutherland, of of the enjoining order issued against tle food raised by scientific agriculturists in various places already, the instructive. writer does not regard it as impossible that the staple foodstuffs-corn and wheat-might be raised to the same

In Mr. Villier's opinion the small holdings act is the first really valuable step in the direction of land rebeginning of a new time of transition during which the soil will be transferred from private landlords to the people and the old conservatism of agriculture may give way under better land laws to a thoroughly scientific method of culture, in which event he says, "we shall be able to feed our people on a small portion of the soil of England, leaving millions of acres free, if we choose to use it so, for other purposes." He has no doubt science could make of England's wastes and heaths gardens as fertile

as those of Essex or Kent, Mr Villers emphasizes the need of space for recreation, and says the great mountain ranges are the natural that is diminishing. Nevada has now exparks of the British people. He con-

up the greater commons of England, stand stiff against these parasites of the and mentions many ranges and heath mind the secretary of the sec has not found it profitable to break tion. It has shouted to California to lands which need never be used for pot, Roosevelt. agricultural purposes if scientific culture is introduced into the lowlands. ludicrous. These heaths and mountains he would preserve in their wild state as nation-107 al parks, "in order that our future citizens may grow up not Philistines,

but complete and humanized men and women." Moreover, the lower slopes fulness of the husbands. of the hills could be made practically useful as public forests, while the grounds of the people's water supply, he was trying to preach about. could be taken under Government be organized from the centre and the water needed for every town and vil- the other day and patted me on the cheek lage distributed evenly as it is re- and said: 'I believe I have seen you bequired." Finally Mr. Villiers' ideal is more scattered and varied towns, than twelve to the acre, almost insensibly passing into suburbs, and Toronto News that he was lands, connected everywhere by

CONVICT BARES MURDER

Mystery Over Killing of Girl in 1896

Benton, Ill., Feb. 9 .- A letter from convict 37,835, Ohio Penitentiary, received vesterday by State's Attorney Hickman of this (Franklin) county has cleared the mystery over the murder of Miss Anna Wilmore, who disappeared from her home in West Frankfort. Ill., on Aug. 1, 1896, and whose body was found ten days later floating in a well by boys who were throwing rocks into it. Her throat was cut and her body bruised.

No proof as to the slaver had ever been secured, and one man under suspicion had suffered much annovance at the time of the crime.

Convict 37,835 is C. Clayton on the Wortley road, by A. M. Hunt, deputy Ohio Penitentiary books, but he confessed to the warden there that he is Riley Price, native of this county, and that he committed the crime. He is crippled for life and conscience-stricken and willing to return and pay the penalty. His confession to the warden ing office pressed itself, with the whole weight of and state's attorney coincides with the

tures for the purpose of providing a Hospital for Consumptives:

WHEREAS, it is expedient to provide for the purchase of lands and buildings in or near the City of London for a Hospital for Consumptives, or for the pur chase of the necessary land and the erection thereon of the necessary buildlngs for a Hospital for Consumptives, the cost whereof will not exceed \$5,000; And whereas, by an act passed by the Legislature of the Province of Ontario,

22 thereof provided that the limit of the borrowing power of the said corporation shall, notwithstanding the provisions of any act or law to the contrary, be four teen per centum of the assessed value of the whole rateable property of the said City of London, as shown by the last rerised assessment roll for the time being the said city:
