EXPECT TROUBLE FROM THE "DIE HARD" LORDS

Members of Upper House May Deal With the Army Bill.

[Canadian Press.]
Montreal, March 16.—A London cable to the Daily Mail says: The talk of drastic treatment of the army bill by the House of Lords continues, and it would not be surprising if the "die hards" were to make some spectacular demonstration either with that or some other money bill.

It is stated that a majority of the cabinet desired a dissolution before the end of the year, but that Lloyd George desires to first pass the bill to abolish plural voting, and that will be impossible before next year.

HON. FRANK COCHRANE BETTER FOR HIS TRIP
His Stay in London Was Very Quiet—Going to France.

[Canadian Press.]
Montreal, March 16.—A London cable to the Gazette says: Hon. Frank Cochrane, minister of railways and canals for Canada, whose health necessitated a trip abroad, says that he is feeling much better since his arrival here, and that he only needed a thorough rest. He is taking things so quietly that his presence here has escaped the notice of the London press, and also the attention of many Canadian officials. Mr. Cochrane is leaving today for Nice, in the south of France, where he will probably stay until the end of the month, returning to Canada early in April.

BULLET WHIZZED BY PASSENGERS' HEADS
Women Showered by Broken Glass Near Cove Bridge.

Special Grand Trunk men are investigating a mysterious shooting affair which happened about 5 o'clock on Saturday afternoon just west of the Cove bridge. The supposition is that some coach with rifles down along the river bank took a pot shot at train No. 167 as it was going out.

The first thing anyone knew of the affair was when the glass in one of the coaches suddenly smashed, the pieces flying over two ladies in one of the seats and Brakeman Rogers who was passing. It was not known at the time whether the coach was about to break but had caused the window to break by the train, one of which smashed the window and the other struck the side of the car.

Word was at once sent to the city but all efforts to find any boys around the bridge with rifles were unsuccessful.

LAYING THE KEEL OF A NEW SUPERDREADNOUGHT
U. S. Battleship No. 39 To Be Peer of Any Afloat.

[Canadian Press.]
New York, March 16.—The laying of the keel of battleship No. 39, which may eventually be named either the "Arizona" or "Colorado," marks the beginning of the greatest fighting machine in the world. The keel of this ship, the first of a new class of battleships, is being laid at the New York Navy Yard.

With a displacement of 31,500 tons, she will be slightly larger than her sister, the Pennsylvania, and will be the largest of the super-dreadnought class. She will carry 16-inch main batteries, and will be the second vessel to be so equipped.

Although the keel-laying occurs only two weeks before the keel is to be laid, the work on the gigantic ribs and plates has been going on for several months, and they are ready to be riveted in place.

PAGE'S EXPLANATION QUITE SATISFACTORY

President Wilson Says Trouble Over London Speech Was Due to Misunderstanding.

[Canadian Press.]
Washington, March 16.—Ambassador Page's explanation of his London speech touching upon the Monroe Doctrine and the Panama Canal is satisfactory to President Wilson, who regards the incident closed so far as the administration is concerned. When a report of the speech is received it will be for the President to make his own judgment.

President Wilson told callers today that any agitation over Mr. Page's remarks is a misunderstanding of what the ambassador said, and that a fuller report of the speech showed that the ambassador had correctly stated the situation. The President is satisfied that Mr. Page referred to the Panama Canal as "not to please England," instead of "not merely to please England."
