A Size For Every Home On Convenient Terms

Nearly ten thousand Londoners are eating meals cooked electrically every day.

Some have had their ranges in continuous service for more than five years.

Others have come in recently with the swelling ranks of those who turn to electricity as the best and cheapest kitchen fuel. Electric stoves are being installed in London homes at the rate of nearly 200 a month.

YOUR TURN IS NEXT

If you would rather have quick, easily-controlled,

clean and fumeless heat at the turn of a switch. If you would like to be rid of matches, the wood-

box, coal scuttle or oil can, ashes, fumes and dirty pipes If you would like to lift your kitchen out of the days of the tallow candle and make your cook stove as convenient, handy and reliable as your electric light

BIG DANCE HALL AT

ST. THOMAS, Aug. 19.—The erection of a big modern dancing pavilion by the London and Port Stanley Rallway is again revived locally, and an assurance comes from a London source that the additional amusement feature of the London commission will be ready for its patrons in the holiday season of next year. With the erection of the new hotel on Invererie Heights and the increasing population on the west side of the summer resort, the investment appears in its promotion as certain of success. According to the plan under consideration, the pavilion would be built at the water's edge and near the cafeeria and bathhouse.

OWNERS NOT BLAMED FOR EXPORTER WRECK Brockville, Ont.

TORONTO, Aug. 19.—That "no possible biame for the disaster can, in the opinion of the court, be imputed to the owners, agent or equipment of the vessel," is the considered verdict of the wreck commissioners, who have been investigating the loss of the steamship Canadian Exporter of the Canadian Government Merchant Marine, Limited, fleet, which went ashore July 31 in a fog off Shoal Water Bay while en route to Portland, Ore, to complete cargo for the Orient. Word to this effect was received at headquarters of the company here today.

A question has been raised as to the number of compasses on the ship, whether they were in good order, were sufficient for the safe navigation of the vessel, and when and by whom they were last adjusted. The answer to this question was that the vessel had three compasses, all of which were in good order and were last adjusted at Sydney, in 1920 by Captain Hayes.

Another question concerned the supply of charts and sailing directions, and inquired if these were proper and sufficient. The answer was in the officmative to both questions. TORONTO, Aug. 19.—That "no pos-

and inquired if these were pro sufficient. The answer was affirmative to both questions.

NO JUSTIFICATION FOR HIGHER RENTALS NOW

WINNIPEG, Aug. 19.—Winnipeg andlords who increase their rents this fall have no justification for so doing, was the effect of a statement issued today by Dr. W. C. Gordon, chairman or. W. C. Gordon, thanhaint council of industry, which in a rental investigation last a lengthy statement dealing rent question, Dr. Gordon the fact that the slightly inreased taxes this year are offset by educed wages, lower fuel and repairing

THERE ARE TIRES

and tires. Some wear out after a comparatively short mileage. Others run along for thousands of miles without the necessity of renewing. That's the kind we sell. We handle only guaranteed tires—those that the manufacturers stand behind. Any experienced autoist knows that such tires are the cheapest. We are ready to fit your car with new tires when needed.
