A Cave-in at Brantford.

Brantford, Ont., November 20.—A sewer caved in this morning, burying Neil McNeil and J. Prouse up to their shoulders. Their comrades working on the sewer set to work immediately and dug the unfortunate men out. McNeil was pretty badly hurt, but Prouse was able to walk home. The stay boards at the bottom of the sewer gave way and let the earth in on them before they could escape.

THE VOTERS' LIST.

The objections made by the Liberal party to the names of Conservatives on the list will come up for hearing at the City Hall on Friday, the 27th inst.

Every man whose name is objected to should make arrangements to appear personally on that date and defend his right to vote.

Full particulars can be had at the Conservative Rooms, where the committees will meet every evening until the revision is closed to arrange for the attendance at the proper hour of Conservative voters at the court.

It is absolutely necessary that all who are objected to should appear personally at the City Hall when their names are called, and every Conservative should lend his assistance to effect their attendance.

The Sun Observer seems to be in doubt about the "what" of particular in the London contested election, and refers to them as "said to have been entered." It will take the trouble to enquire in the Chancery Division at Osgoode Hall, if it can disabuse his mind of the word "said."

No. 3 Committee of the City Council held a special meeting yesterday afternoon to consider an account of \$317 from Mr. Wm. Heaman, of East London, alleged to be due for repairs to city water carts.

Clinton New Era.—During October D. Canteon, of Clinton, shipped from Watford 3,284 barrels of apples, (Ilderton, 1,968; Konoka, 541; Kippes, 435; Hensall, 509; Goderich, 3,147; Bruce, 2,213; Clinton, 3,123; Blyth, 1,162; a total of 16,382 barrels. Albert Flynn, an employee of the G. T. R. Shops, Stratford, was a few weeks ago mysteriously attacked by a severe pain in one of his legs. The pain was so great as to incapacitate him for work, and the other day his physicians decided that amputation of the limb was necessary to save his life. It was found that an affection of the marrow of the bone was the cause of the trouble. The young man's condition is still serious.

Quite recently somebody in Ireland posted a letter for Sheland, Ont., and to make it doubly secure some sealing wax was placed on the back of the envelope in the usual way. The letter came all right, but when it reached Sheland the postmaster found a second letter stuck snugly to its back. The second letter was addressed to Newry, Ireland, and although it passed many hands, nobody seemed to notice that it was being carried so many thousand miles out of its way. The postmaster promptly returned it to the dead letter office at Ottawa, and quite likely it will soon return to old Ireland, from whence it came.

Mitchell Advocate:—"What has gone wrong with the London Advertiser? The issue is making over the revision of the voters' lists leads to the belief that Cameron has lost his head, or that he sees in the distance the unseating of Mr. Flynn, and the city going back to its first love." Both, probably.

The watch that was stolen from the residence of Mrs. Smith, Tilsburg, recently was left on the doorstep of the house between the hours of twelve and five o'clock the other morning. The thief had evidently come to the conclusion that having the watch in his possession, or trying to dispose of it, would eventually get him into trouble, and that the timer was of more service to the owner than to anyone else.

There was an uneasiness in Grit circles in London last night. Something seemed to have gone wrong with the "pushers," and, in several instances, the uneasiness gave vent to itself in loud and unmistakable manifestations of discontent amongst those who were not "inside the circle," as they termed the five or six "head centres" who are supposed to have been running affairs in the Grit Association. It was all about the "knock-out" on the revision notices, which had been declared "invalid," and consequently worthless. One old gentleman, who has been a supporter of the Grit party since the Carling-McBride election, was heard to say that it "served them right," and that "nothing better could be expected when they (the "Head Centres") took advice from two turn-out Tories, instead of going to men who had been life-long workers in the party." There may be something in the old gentleman's statement worthy of consideration, but surely the two individuals alluded to would not be guilty of such meanness as he insinuated. However, the gentlemen who made the assertion appeared to voice, to a very large extent, the feelings of his discomfited compatriots.

East Bruce Election Case. Walkerton, November 20.—The East Bruce election trial opened here to-day before Judges Osler and McLennan. Mr. Arlesworth, Q. C., and Mr. Klein, Q. C., appeared for the petitioners, and Mr. Coulter, Mr. O'Connor, Q. C., and Mr. Dixon for defendant, Mr. Truax. There are between eight and ninety charges on the writ of *certiorari*, but only two were named. The whole day, from 11 a. m. to 7 p. m. was occupied with the trial of one charge. Judgment was reserved on this, and the court adjourned to nine to-morrow morning.

THE FIRE RECORD.

St. John, N. B., November 20.—About 11.30 to-night fire broke out in one of the wooden buildings of the Nut & Bolt Co., in which much of the heavy machinery of the company is kept. In this building there was oil and other inflammable matter, and in an instant the building was in a mass of flames. When the firemen arrived the flames had reached the main building, which is of brick. A second alarm was sent in, and additional engines and men responded, and in about an hour the fire was under control. The building was completely gutted and the machinery destroyed. There was an insurance of \$30,000 on buildings, etc., with a mortgage of \$15,000. The works were started in 1881. The loss is a heavy one, and will throw many mechanics out of employment.

Woodstock, Ont., Nov. 20.—About ten o'clock this evening fire broke out in the Central Hotel stables, in the rear of the hotel. Before the firemen reached the scene the stables were all in a blaze, and before the flames were extinguished the stables were completely destroyed. A cow and a valuable horse were also consumed in the flames. The origin of the fire is unknown. Mr. Davis, proprietor of the hotel, estimates the loss at about \$1,500; partly covered by insurance.

Syracuse, N. Y., Nov. 20.—Fire broke out in a dime museum in the Beasable block, on East Genesee street, at half-past eleven. An number of business houses were gutted. The loss is \$100,000.

BIGGEST KIND OF GOOD NEWS

Enormous quantities of Staple and Fine Black and Colored Henriettas, Mantles and Millinery at

POWELL'S

To be offered from Half Price to the Closest Cut Prices on Saturday and Saturday Night.

We can't enumerate the hundreds and hundreds of desperate bargains we will give you on Saturday and Saturday night. Wholesale men and corner judges of dry goods values, to whom we have shown some of these goods we are to offer you on Saturday and Saturday night, are amazed how we can buy such goods to sell them at the prices we offer them at. We have no excuse to offer for selling goods so cheap. Our aim is to please the people of London and the people within trading distance of London, and give them the greatest value they ever saw in any dry goods store in London. Buyers of dry goods and millinery, don't forget you can buy hundreds and hundreds of dollars' worth of dry goods from us at half price. We could not give you such value if it were not for the fact we are always looking out for goods at half regular wholesale prices, and buying bankrupt stocks, which puts us in a position to give you piles and piles of dry goods at about half price. The goods we buy in the regular way we sell at desperate close prices, because we buy for cash, getting the biggest discounts we can off them, and sell them for cash, turning them into money as quick as possible. Thus we keep the prices for you away down, and do a red hot business on the smallest possible profits. We want our store crowded with customers. This gives us the cash to keep business moving at the highest possible pressure. Bring your friends with you every week, and roll up the number of our customers. If you buy one parcel from us you will come back to get your next parcel from us. Remember this Saturday and Saturday night's sale. Remember what we offer you—hundreds and hundreds of lines of goods at half price in some of the following lines of goods, viz.:—Millinery, Mantles, Dress Goods, Colored Henriettas, Black Henriettas, Wool Blankets, Lace Curtains, Men's Underwear, Ladies' and Children's Hosiery, Kid Gloves.

N. B.—Everybody please note our prices range in hundreds and hundreds of cases at about half the usual prices. Come and see.

BARK - WELL'S.

The distinguishing trait about this store is: Improvement, extension. It isn't merely the immense size of the store, nor of the business, nor of the improved facilities, because we had often all we could do when the store was a third present size and as nearly as comfortable or attractive to shop in. It is the effective progressiveness of the management which distinguishes this establishment from all competitors. The fact is, a permanent success must have merit. That is true of anything and everything. It applies here, inasmuch as progress marks every transaction. If we don't improve with each year something would happen. Most likely somebody else would or we ahead of us in your estimation and that will never do. The tendency is decidedly the other way. We buy strictly for cash and import from European manufacturers direct. Our customers reap the benefit.
