ADELAIDE, July 29, 1865. The mail leaves Adelaide two days later than the appointed time, in consequence of the P. and O. steamer Salsette being disabled on the passage from Sydney to Melbourne.

We have had some fine rains during the month which were very much needed for the crops. Advices from the Far North show that the rain has been rather partial It is hoped, however, that the showers which have fallen later on in the month may have been more generally distributed. The settlers have been in a most deplorable condition from the drought, thousands of sheep and lambs having been sacrificed.

The aborigines in the North have been suffering great privations owing to the scarcity of kangaroos and wallabies, which constitute their ordinary food, and under the pressure of stativation they have committed serious depredations on the flocks and herds of the settlers. The Government are recommended by the Press to take measures to grant the natives immediate relief.

It is expected that the Parliament will close in a few days. The business recently before it has been of great importance. The Estimates have passed the House of Assembly.

There has been considerable excitement owing to Judges Boothby and Gwynne have tion Bill. The Speaker retused to put the ing ruled in the Supreme Court that the Local Courts Act is invalid on the ground that the Constitution Act gives no power to the Legislature to appoint Courts of Law. The Chief Justice holds a contrary opinion ; but the majority of the Court has decided the point. The Attorney General has given his opinion that the invalidity of the Third Judge and the District Courts Act would follow as a necessary consequence of the invalidity of the Local Courts Act,

There has been quite a scene in the Supreme. Court arising out of the unsettled state of the law. The Chief Justice declared that the assumption by the Supreme Court of the united bills be rejected by the Council power to set aside a superior Court is unprecedented. Mr. Justice Gwynne could propriation bill in any other form, and the state of the law. These measures are avowedly in bition. tended to be temporary, and to meet the

present serious emergency.

A validating act from the Imperial Parliament is anxiously looked for to give authority to local legislation, which the Court has ruled to be invalid.

Notwithstanding the Judges' decision the Adelaide Court still continues to sit, though favor of floating detences for the bay. some of the lawyers have entered protests against its legality, and have refused to plead before it.

Attempts have been made in both branches of the Legislature to carry no-confidence mo tions against the Government, but they have not succeeded in turning them out. Their natural dread of a crisis in the present state pears to be no organized Opposition. - Ministers, therefore, will be allowed to go into recess. They promise to call Parliament together again in about two months from the prorogation.

There have been some exciting debates in the Assembly on the Tariff-cum-Appropria-Appropriation bill on the ground that it was not the same bill which was read a first time. It relieves pain of any kind, soothes the restlessness of fever, and imparts the mostre freshing sleep, without producing or leaving any o he unpleasant effects of opium.

Earl Russalt has graciously favored J. T. Daven-port with the following extract of a despatch from Mr. Webb, H. B. M.'s Consul at Manilla, dated Sept. 17, 1864:—"The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be effects (in Epidemic Cholera) has been found to be CHLORODYNE, and with a small quantity given to me by Dr. Burke I have saved several lives." Earl Russell communicated to the College of Physicians, that he had received a despatch from Her Majesty's Consul at Manilla, to the effect that cholera had been raging tearfully, and that the ONLY remedy of any service was CHLORODYNE.—See "Lancet," December 31, 1864.

From W. Vesalius Pettigrew, M.D., Hon. F.R.C.S, England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhea and other diseases, and am most perfectly satisfied with the results."

Pr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhea."

Extract from the General Board of Health London, as to its efficacy in Cholera.

"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery." Holloway's Ointment.

Contracted or Stiff Joints.

All the medicines in the London dispensaries All the medicines in the London dispensaries would barely benefit, much less cure, any chronic cases of contracted or stiff joints; whereas if this invaluable ointment be effectually rubbed into such parts twice a day, the effects will be immense. Paralytic patients even can derive advantages from this fine remedy when other means fail. Scorbutic Humours.-Scald Head and Skin

Diseases.

Scorbutic humors arise from an impure state o Scorbutic humors arise from an impure state of the blood, and in most cases the liver and stomach are the organs at fault. The Pills will speedily restore these to a healthy action; while the Ointment, if well rutbed in at least twice a day, will soon cure any case of skin disease. Soldiers, sailors, and miners, use this famous Ointment in all parts of the world.

Disorders of the Kidneys, Stone and Grave In any of the above complaints more benefit may be derived in twenty-four hours by adopting the following simple means than is frequently brough; about in six months by any other treatment. In bad cases if the Cintment be rubbed into the small of the back over the region of the kidneys, it will quickly penetrate, and, in most instances, give immediate relief. Six or eight of the Pills should be taken nightly according to circumstances. be taken nightly according to circumstances. Diptheria, Sore Throats, &c.

Diptheria, Sore Throats, &c.

These maladies are of so serious and dangerous a nature that the Ointment would not be recommended unless the Proprietor was sure of its effect. It will cure when every other means have failed, if applied immediately, and not delayed until the patient is beyond recovery. It is a sovereign remedy for sore throat. Settled Coughs or wheering will be promptly removed by rubbing in this unguent. Mothers should rub it into the chest of heir infants whenever there is any hoarseness, ightness, or other affection of breathing. Bad Legs, Bad Breasts.-Old Wounds, Sores

and Ulcers. It is surprising hew quickly a sore, ulcer, or wound, deprives the body of strength, and unfits it for the duties of life; but it is no less wonderful to watch the effect of Holloway's Healing Ointment, when it is used according to the printed directions, and assisted by appropriate doses of the Pills. The pain, inflammation, and other morbid manifestations, seon disappear from the affected part and health and strength return.—This treatment creates sound flesh, and therefore This treatment creates sound flesh, and therefore makes its cures complete.

The essence of these diseases lies in the blood, which has floating through each vessel the paingiving poison which vitiates and inflames every tissue t comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty and rheumatic maladies.
