A MARVELOUS STORY TOLD IN TWO LETTERS.

FROM THE SON: "23 Cedar St., New York, Oct. 28, 1882. "Gentlemen: My father resides at Glover, Vt. He has been a great sufferer from Scrot-nla, and the inclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about fire years ago. From a few spats which speared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty porsons who would testify to the facts in his case.

Your struly, W. M. PHILLIPS.*

FROM THE FATHER: "It is both a duty for me to state to you the benefit I have derived from the use of Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and scrofnlous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever it moved. My sufferings were great, and my hite a barden. I commenced the use of the Sarsaparallla in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Many inquire what has wrought such a cute in my case, and I tell them, as I have here tried to tell you, Ayer's Sarsaparilla. Glover, Vt., Oct. 21, 1882.

Yours gratefully.

AFER'S SARSAPARILLA CUTES SCTOFULS ayer's Sarsaparilla cures Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Bolls, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and abus restores vitality and strengthens the whole system. PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Magg. Sold by all Druggists; \$1, six bottles for \$5.

The Draft Horse.

of the Iowa Stock Breeders Association had this to say of draft horses:-There is a steadily increasing demand for geese, and to meet that demand our market men are obliged to to send out of the State. The grow-ing of geese for the market is of considerable importance, and one to which more attention should be given. They can be raised at a good profit if preper stock is at first secured. The Hong Kong, White Brama, Embden and Toulouse are the largest varieties, most emphatically that of prosperity.

The drait norse is the average farmer's best chance for an invest ment. It is for the reason that he is grain. If sown early and well cultivated into the seed bed it will make do the soil so rich in contact with it that of his life, from the hour of his birth of his life, from the hour of his birth of his life, from the hour of his birth of his birth of his birth seed on the seed bed it will make the soil so rich in contact with it that to soil so rich in contact with it that of his birth o "The draft horse is the average Hong Kong, White Brama, Embden and Toulouse are the largest varieties, and all others are inferior both in size quality. Geese are always saleable in the markets during the cold weather, and fine fat goslings, from nine to ten months old, are eagerly sought after. For breeders we should eing old. These lay the largest eggs, and when hatching day comes will throw out the strongest goslings.

while business is done. This record is not of minutes and seconds, out it is most emphatically that of prosperity. He will thrive and grow on coarse, the will thrive and grow on coarse, the head removed at aleas expense than he had broken several plough points on a sunken rock, which he had removed at aleas expense than it had been to him in plough repairs. Farmers who grow only a few to-national greatness. He may be possand when hatching day comes will less his brother of the road or track, without lossening his value a dollar, fort.

they cannot be allowed to roam over field or garden wherever crops are growing. They will get fat on what remains in the close fed pastures, beind the horses, cattle and sheep. While water is their element, they will do well in rough patures. One gander should be allowed to four geese, and if he abuses either he reading public fast grow to be susholud be taken from the rest at once. From a mature goose about one pound of feathers can be taken, worth fifty cents a pound. The goslings should be hatched as early in the season as possible, in order that at christ and, if trained, could now show 250,"
