'S Cathartic If the Liver becomes torpid, if the powels are constipated, or if the stomach

Ayer's Pills. They are invaluable For some years I was a victim to Live Complaint, in consequence of which I suffered from General Debility and Indigestion. A few boxes of Ayer's Pills restored me to perfect health.—W. T. Brightney, Henderson, W. Va. For years I have relied more upon Ayer's Pills than anything else, to

Regulate my bowels. These Pills are mild in action, and do their work thoroughly. I have used them with good effect, in cases of Rheamatism, Kidney Trouble, and Dyspepsia.

— G. F. Miller, Attleborough, Mass. Ayer's Pills cured me of Stomach and Liver troubles, from which I had suffered for years. I consider them the best pills made, and would not be without them.— Morris Gates, Downsville, N. Y.

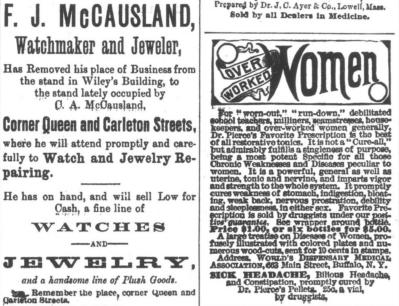

I was attacked with Bilious Fever, which was followed by Jaundice, and was so dangerously ill that my friends despaired of my recovery. I commenced taking Ayer's Pilis, and soon regained my customary strength and vigor. — John C. Pattison, Lowell, Nebraska.

Last spring I suffered greatly from a roublesome humor on my side. In spite of every effort to cure this cruption, it increased until the flesh became entirely raw. I was troubled, at the same time, with Indigestion, and distressing pains in The Bowels.

By the advice of a friend I began taking Ayer's Pills. In a short time I was free from pain, my food digested properly, the sores on my body commenced healing, and, in less than one month, I was cured.

— Samuel D. White, Atlanta, Ga. I have long used Ayer's Pills, in my family, and believe them to be the best pills made.—S. C. Darden, Darden, Miss. My wife and little girl were taken with Dysentery a few days ago, and I at once began giving them small doses of Ayer's Pills, thinking I would call a doctor if the disease became any worse. In a short time the bloody discharges stopped, all pain went away, and health was restored. — Theodore Esling, Richmond, Va.

WM, JENNINGS,

SIR CHARLES, 2745.

Is the fastest Standard bred Trotting Stallion in New Brunswick. He can show a 2:16 gait in stud condition. He is a trotter by right f inheritance, as his sire Mambrino Charta had a record of 2:304, and was the sire of Helena 2:35. His grand sire had a record of 2:294, and is the sire of Mambrino Sparkle 2:17. His great grand sire, Mambrino Chief, was the sire of Lady Thorn, 2:184. His dam, Lady desenger, was the dam of Crown Princess, trial 2:18; Crown Prince 2:25, and Gray Chester, trial 2:39. It seems almost impossible for horse so powerfully bred in speed lines to avoid siring trotters.

Terms: to insure, \$20; by the season, \$15. For particulars, address JOHN McCOY, St. Marys, N. B

Agriculture

The number of cattle on the island island amounted to about \$1,000.

Professor Arnold went to the homes of the best breeders and was shown some very fine stock and some that was not so fine. The cow averaged was not so fine. The cow averaged legs from a long day's journey or a legs from a long day is journey or a legs from a long day is journey or a legs from a long day is journey or a legs from a long day is journey or a legs from a long day is journey or a legs from a long day is journey or a legs from a long day is journey or a legs from a long day is journey or a legs from a long day is journey or a legs from a long day is journey or a legs from a long day is journey or a legs from a legs from a long day is journey or a legs from a long day is journey or a legs from a legs from a long day is journey or a legs from smaller that Jerseys bred in the hard day's pulling may be greatly states and smaller than those he saw benefitted by rubbing them well with

island was not so large.

The Jersey butter was neither so high flavored nor as high colored as seen in America, and Professor Arnold thought the butter was not equal to that which he saw made from the

The farmer's aim should be the production of the best foal possible, because it costs no more to raise a good colt than a poor colt, and there is no economy in using a cheap or convenient stallion, when a first-class one, of fit blood-lines and high quality can be had for a little extra trouble and a little extra trouble and a little more money. Let our readers estimate the value of care in breeding by considering the prices which good stock brings, even when young, and the condition of the markets in cities and large native consumption of wheat.

It is noteworthy that Algierian surplus described with an excellent yield on an enlarged acreage. All the Algerian surplus goes to France, England is likely to be a heavy purchaser, for the yield there is poer and the India crop is û per cent. below last year, with the available surplus for exportation and the colfic chew it all to pleces before as month.

Salt for Cabbage Worms,

The cabbage worm is a pest that valuable stock, if the sire is selected at haphagard; breeding is a science, and there can be no sure outcome from either its study or application, unless the progenitor of the stock shall have been thoroughly bred. It is well to use a well-bred mare, whonever this is possible; but a strongly bred sire will unfailingly improve upon the most ordinarily bred dam, will more than make good her deficiencies, and compensate for the investment.

Three Years on Skimmed Milk.

The Lordon Telegraph were selected at haphagard; breeding is a science, and consequently shad to see and consequently shad the first study or application, unless the progenitor of the stock shall have been thoroughly bred. It is well to use a well-bred mare, whonever this is possible; but a strongly bred sire will unfailingly improve upon the most ordinarily bred dam, will not cabbage heads. Upon being asked how it happened that they had such nice cabbages, while other folks were all destroyed by the worms, the lady replied that she noticed the worms were cating theirs and took common table self and extraction will prove not only interesting of the stock shall have been thoroughly bred. It is self that is destructive cargo when lesst expected. All this sounds awfully terrific and smart in theory, but the question is, can it be done with the tact and certainty which were repaired to work till the set count and not go to work till the set around and not go to work till the set around and not go to work till the set around and not go to work till the set fall is destructive cargo when lesst expendence of further works and the virtues of gratitude and natural kindness than the heighborhood by getting up two hours before day, then set around and not go to work till the set all the set around and to get the virtues of gratitude and natural kindness than the heighborhood by the works. He will as an easient vertices and the further works worms were eating theirs and took Louis Herbst, who keeps a saloon common table salt and sprinkled them The London Telegraph warns Eng. the man who loves and cares for his dozen bottles were sold last year, and no one

Beans as a Food

What is more palatable than a pot Where Jerseys come from, and kidney troubles and was advised by his physician to try a diet of skimProfessor L. B. Arnold made a visit med milk exclusively. He tried the to the home of the Jestry cattle last remedy for a couple of months and the following a brief European town and was so heardled by the diet of months and down on the table by the side of a position of the form of the f ago he was afflicted with dyspepsia of good, brown baked beans, turned land. Guernsey and the other adjacent islands appeared to be the same. The soil everywhere was thin and derived chiefly from the decomposition of the underlying rock, but it was rich and in a high state of cultivation. Much of the arable land on the island was valued at \$1,500 an acre fifteen years ago. The strigency of the times since the valuation has greatly lowered its value, but much of it still rents at \$35

is estimated at 10,000 head, of which 6,300 were cows valued at an average of \$200 apiece. The exportation of dairy stock is the second most important source of revenue on the island, the first being the exportation of early potatoes, to London chiefly. The potato crop is planted in Fobruary and harvested in May. The exports of potatoes and cows from this little being subject to ills and pains the Being subject to ills and pains the same as men, there is no question but what they suffer intensely often with-
