The receipts of grain in Chicago to-day by the car lot were: Winter wheat, 27; corn, 200, and oats, 156.

The estimated receipts of hogs at the Union Stock Yards, Chicago, to-day are 22,000; official yesterday, 25,660; shipments, 9711; cattle receipts to-day, 8000; market fairly active.

THE NEW PLAID Window Shadings for Store and Office Fronts are manufactured by Macfarlane, McKinlay & Co.

The American Rural Home says that during the past two weeks there has been a still further falling off in the condition of winter wheat. The decline is most marked in those States from which are drawn the fargett simplies. In Illinois the condition of the cross states from which are drawn the fargett simplies. In Illinois the condition of the cross serious and now chinch bugs are at work to an alarming extent. The conditions in Indiana are quite similar, and Ohio does not promise a cropexoeeding 15,000,000 bushels, against 37,000,000 last year. In Michigan, the fourth great winter wheat state, the crop will run 30 per cent below last year. Kansas and Missouri report the presence of chinch bugs in large number, only kept in check by the cold, backward weather. A conservative estimate makes the shortage of the winter wheat crop from 60,000,000 to 70,000,000 bushels. Cold weather and excessive rains have clayed spring wheat seeding, but no increase in acreage is indicated. The outlook of the oat crop has materially changed for the better. Corn is not yet all planted, rains having case for the order of the Ohio River and west of the Mississippi.
