Corn and operators will now pause to critically look into the situation. The market will be nervous and wild for a time, but wheat ought to be a sale on rallies until December again sells near 95 cents. We do not believe that the bulk of American wheat harvest is going to be marketed at over 90 cents. Sensational story news from abroad will bulge prices here from time to time as it has past week. The market closes at a reaction of 10 cents lower; may get a downward tendency.

Corn and oars borrowed their strength from wheat, speculation was less active in them and fluctuations not so wide. It is believed that lower prices are expected, as weather is excellent for corn and threshing returns indicate a very large grop of oats.

A REVOLUTION IN THE MILK SUPPLY

It is an acknowledged fact that certain Infectious Diseases, such as Typhoid Fever, Scarlet Fever, Diphtheria, Cholera Infantum and other diseases have been traced to the Milk Supply as the Medium of their Distribution.

It is also a fact that Physiciaus in all great centres Recommend that Milk should be sterilized so as to destroy the Poisonous bacteria it may contain and render it more wholesome. The Sterilized Milk Co. of Toronto is composed of responsible business men who have secured the Right under a Registered Trade Mark from the Dominion Government to prepare and supply Sterilized Milk, Sterilized Milk is Absolutely Pure, rich in milk solids and always the same.

To keep up the standard of purity the services of Dr. A. R. Pyne have been secured as Chemist to Analyse the Milk from day to day. It has the recommendation of all the Physiciaus whose attention has been called to it. It will Keep Twice as Long as common milk and is much preferred in flavor after a few days use. It is put up only in sealed quart bottles, each one bearing our Trade Mark, and costs but a fraction more than common milk. We shall be ready to deliver in a few days. Apply to
