The House was informed that the question of a bonus to civil servants was still under consideration. A vote of \$349,200 for public build-

An item of \$5,000 to cover the cost of flags on Dominion buildings met with strong opposition from William Duff, Liberal member for Lunenburg, N. S., who declared that flying of flags on public buildings was a waste of money. Hon. W. S. Fielding and H. C. Hoelen, Conservative member for West To-ronto, expressed the view that flying flags promoted loyalty and preserved national unity. An item of \$225,000, covering

general expenditures throughout the country, in which the vote for flags was included, carried. Objections by the Opposition that information in regard to expenditures for the past year were not available led to the postponement

of consideration of public works department estimates. Estimates of the department of justice were taken up. Among other items a vote of \$1,670,900 for penitentiaries carried.

A vote of \$15 148,500 for the de-

Mr. MacBride said he was quite agreeable to Mr. Harris answering the

Supposing the royal commission held that there was an increase in power costs and that there must therefore be an increase in the hydro rates, would not, he asked, this affect a company in ompetition with hydro? H. H. Dewart took a similar view

Wellington Hay, on the other hand, said that Mr. Harris was a man of arge vision and large interests and would serve to the best of his ability the interests of the province. He was convinced Mr. Harris was too big a man to do otherwise. He did not be-lieve Mr. Harris would in any way be biased. Big men were wanted and then give them a free hand.
