

FEDERAL GENERAL ELECTIONS

Nominations Held Tuesday in All Ridings.

Candidates for Canada's fourteenth parliament were nominated on Friday, in the 235 Federal seats. There are three-cornered contests in a great majority of the Ridings. The Progressives nominated 144, Labor and Independent candidates number 73. There were four women candidates nominated. In Ontario, where there are 82 constituencies there were 79 Conservatives nominated, 64 Liberals and 70 Progressives.

In Lambton East the nominations were held at Alvinston. The proceedings were somewhat of a formality. The Conservatives and Progressives only nominated a candidate as follows:

Joseph E. Armstrong, farmer and oil producer; official agent Major McKittick.

Burt Wendell Fansher, farmer; H. A. Gilroy, financial agent.

The payment of the \$200 deposit by representatives of the candidates to W. R. Dawson, returning officer, and the filing of the nomination papers was the feature of the proceedings. All papers relating to the nomination of the candidates were properly signed by more than the number required by the statutes and were accompanied by a signed declaration of acceptance by the candidates. Both candidates addressed the electors.

WATFORD COUNCIL

Watford, Nov. 21st, 1921. Special meeting of Council at call of Reeve. Present Messrs. Harper, Hollingsworth, Fuller, Connolly and McCormick.

Connolly—McCormick, that we instruct our solicitor to prepare necessary by-laws to raise \$11,000.00 to pay for paving part of Main street under the Local Improvement Act debentures to run 20 years at 6½ per cent.—Carried.

McCormick—Fuller, that we instruct our solicitor to prepare necessary by-laws to raise \$14,000.00 at 6½ per cent to spread over 30 years to pay completion of the Waterworks.—Carried.

Hollingsworth—Fuller, that the Reeve and Clerk sign and execute the agreement between Minister of Highways and the Corporation re Main street pavement.—Carried.

Harper—Hollingsworth, that we adjourn.—Carried.

W. S. FULLER, Clerk.

FORMER WARWICK RESIDENT

Many will learn with regret of the death on Nov. 8th, of Mrs. Jas. Robertson near Yale, Mich. Mrs. Robertson with her husband and family formerly lived on the 12th line of Plympton. They moved thence to Yale, Mich., about forty years ago, but the friendships formed while living in this country were never broken. Mrs. Robertson, although ninety-three years of age, retained her faculties, both mental and physical, to the last and was preparing for a visit to Forest when stricken with her fatal illness. Of a very kindly disposition, unusually intelligent and besides almost a model Christian she was a blessing and help to all with whom she came in contact. She was born in the Highlands of Scotland and possessed to a marked degree the good qualities of that strong and rugged race. Her surviving family are:—Mrs. W. Brandon, sr., Warwick; Miss Marion, at home; Mrs. B. Case, Stathroy; Mrs. B. Haines, of Brown City, Mich.; Mrs. John Thompson, Sask.; John and Alex. near Yale, Mich. The funeral was large. The services were conducted by two old friends T. D. W. Muir, of Detroit, and D. McGeachy, of Sarnia. Mrs. Brandon was unable to attend the funeral through illness, and Mrs. Thompson on account of distance. Those attending from Forest were Mr. and Mrs. Jas. Brandon, Mr. and Mrs. Will Brandon and Robt. Brandon, of Warwick; Robt. McLaren and sister Margaret, and John McCall of Plympton.

CONSTIPATED CHILDREN

Mothers if your little ones are constipated; if their little stomach and bowels are out of order; if they cry a great deal and are cross and peevish, give them a dose of Baby's Own Tablets—the ideal medicine for little ones. The Tablets are a gentle but thorough laxative and never fail to right the minor disorders of childhood. Concerning them Mrs. Noble A. Pyrr, Ecum Secum, N.S., writes:—"My baby was terribly constipated but Baby's Own Tablets soon relieved her and I now think them a splendid medicine for little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THE FATE OF HELIGOLAND

Heligoland as a German fortress has been wiped out under the supervision of the inter-allied commission, and little remains to-day of the once powerful fort. The work of demolition has been going on for two years, and while not entirely completed yet the commission of which Admiral Sir Edward Charlton is the head, is said to be satisfied that the Island of Heligoland never again can be a menace to the allies. What little is left of the harbor, including the land reclaimed from the sea by the Germans, it is expected will be gradually destroyed by the North Sea.

The work yet to be done in the demolition of the fortress is expected to be completed next April. Then a final inspection will be made by the commission, and it is expected that Heligoland will then be handed back to Germany, under the provisions of the peace treaty. The commission has withdrawn the officers in control of the work of demolition, and the remainder of the undertaking has been left in German hands. Quarterly visits will be paid to the work by the commission until it is entirely completed.

The commission has left nothing to be taken for granted, even though the German authorities have aided, rather than hampered, the progress of the work. Naval officers have seen the great guns cut into pieces. In the destruction of cartridge cases, fuses, etc., they have always insisted upon the production of the scrap metal, while in the destruction of the vast stores of explosives, where there is no residue to produce as evidence, they have personally watched the burnings. Admiral Charlton is said to be satisfied that very little in the way of warlike stores can have been concealed.

Besides the destruction of guns at Heligoland, gun emplacements and harbor works, on the island have been broken up. In addition to guns many of which were very large, batteries of howitzers and aircraft guns have been demolished.

In order to make certain that Heligoland cannot be utilized again as a site upon which to build a harbor for warships the commission has placed blocks of stone and concrete about the bed of the harbor so that dredging will not be possible.

BORN

In Alvinston, Nov. 11th, 1921, to Mr. and Mrs. Frank Evans, a son.

In Alvinston, Nov. 5th, 1921, to Mr. and Mrs. Harry Grooms, a daughter.

In Forest, on Tuesday, Nov. 15th, to Mr. and Mrs. Victor A. Petypiece, a son.

In Bosanquet, on Sunday, November 13th, to Mr. and Mrs. Smith McBryan, a daughter.

In Yale, Mich., on Tuesday, Nov. 8, 1921, Mrs. Jas. Robertson, formerly of Plympton, and mother of Mrs. Wm. Brandon, sr., of Warwick, aged 93 years.

Many Fish In Sea of Galilee.

The abundance of fish in the sea of Galilee is to this day the wonder of travelers. Most of the fishing done by the Syrians involves the use of nets probably identical in construction with those of the apostles, and the best evidence of the fishing having been done through the centuries with nets is to be found in the ease with which most of the fish may be deceived with the help of any bait, natural or artificial. The pellucid water of this beautiful lake, with its ever-changing reflections, is in striking contrast with the muddy depths of the Jordan, but the silt in that river, however unsightly to the eye, does not seem to inconvenience its fish, which are extraordinarily plentiful even in the lower reaches before it falls into that deathly lake which the Arabs call the Sea of Lot.—London Chronicle.

Ancient City a Desolate Ruin.

It was predicted by both Conder in 1875 and Guthe in 1880 that unless something was done to stop the encroachment of the sands from the southward Ascalon would be covered from the sight of man within a few generations. This work of nature has been accomplished, for the place is now described as being "a desolate heap of ruins." In common with all ancient ruins, those of Ascalon show that man did more to destroy man's work than natural causes, for it is known that many marble pillars, remains of Roman and Crusading times, were dug up by the natives and sold for use as building material in Gaza and Jaffa.
