## WEDNESDAY, MARCH 25TH, 1903.

institutions, the School for the Blind and the Deaf and Dumb Institute at Halifax, of which Nova Scotians have reason to be justly proud, it is proposed to add a sister institution, Home for Feeble-minded Children. In the Public Charities report furnished by Dr. Sinclair, the government inspector of penal and humane instituions, he makes a strong plea for an establishment of this nature, depre cating the necessity of placing children of defective intellect among the portunity for their development permitted, and also the neglect of many other children of well to do families who are not so situated as to secure the benefit of systematic

Dr. Sinclair asserts much can be accomplished in educating these children. They may be vastly benefitted and so educated that they can assist materially in their own support. He urges the establishment of an asylum with nection with it, and with facilities for trades-teaching, as well as ordinary education, to which all the feebleminded juveniles now in our asylums and as many as possible now cared for under the parental roof, should be sent. Under skilled instructors they could be graded, taught and trained and their dormant intelligence stimu-

the Dominion at present is at Orillia, Ontario. Many such exist in the United States and in Europe. Nova Scotia should follow second in line with Ontario, as she doubtless will as soon as practicable now that her legislators and their humanely disposed constituents have had their attention so forcefully directed to this crying need, and any such action will without doubt be warmly endorsed by the

sgeneral public. Such an institution, conducted of the lines of the School for the Blind, and the Deaf and Dumb, while a boon to the present generation, would prove of inestimable value to the next generation and those following, and a grave hereditary and social evil would be greatly diminished.

-In the report above mentioned, that section of the statutes relating to the appointment of a board of visitors to the local insane asylums, and states that with one or two exceptions, no municipality has acted upon this matter. The clause reads. "The Council of any Municipality or town in which any asylum for the harmless insane is situated shall appoint a Board of Visitors of not less in the regular Communication of Rothsay Lodge, A. F. and A. M., the regular Communication of Rothsay Lodge, A. F. and A. M., the rottowing were elected officers for the ensuing year: Frank R. Ellioft, W. M.; Lernest Robinson, S. W.; F. S. Anderson, J. W.; W. J. Hoyt, Treas; W. A. Anney, Secty; Wm. Manthorne, P. M., S. L.; Ernest Burke, J. D.; H. G. Bishops, S. S. A. H. Inglis, J. S.; Rev. H. S. DeBlois, H. G. C., Chap; Fred R. Fay, S. J. W., Marshall; J. H. McLean, Tyler. harmless insane is situated shall appoint a Board of Visitors of not less than five persons, of whom two may be women, to whom the said building and appurtenances shall be open at all times, and the municipal or town council shall define the powers and duties of such board of visitors, which shall not take effect until they are approved by the Governor-in-Council."

The Parliament of Religions," a missionary exercise in which the five great religions of the world will be represented by five young ladies in cotume each telling the story of her council shall define the powers and duties of such board of visitors, which shall not take effect until they are approved by the Governor-in-Council."

The Sinclair thinks it desirable that

centive to any who might he inclined to laxity of supervision and would thus be fruitful of much good, and would also increase the confidence of the public in the institution itself, especially those who have to bear the affliction of having unfortunate relatives or friends confined there.

## SPECIAL MEETING OF THE NOVA SCOTIA

An enthusiastic meeting of this Association was held in Kentville on Monday, March 23rd, when the question of better transportation was discussed for three hours in a manner which showed that the fruit growers had endured the evils of inefficient transportation to the limit.

Capt. C. O. Allen, who has spent much time and energy in endeavoring to improve the service, made a strong plea for co-operation in securing the C. P. R. boats for the Halifax-London trade, and showed many advantages both to the shippers and the C. P. R. of such a service.

The result of the discussion was the unanimous passage of two important resolutions; one appointing Capt. Allen to go to Montreal and, in conjunction with delegates from the Halifax Board of Trade and city council, to use every means to induce this line to make Halifax a port-of-call if not a terminus. The other resolution appointed a committee to take steps to organize the fruit growers into a working body for the purpose of having our fruit go through this one channel if the service be obtained and prove satisfactory.

THE OLD HOME WEEK SCHEME. A large delegation from the Nova Scotia Tourist Association waited upon the Provincial Government on Saturday to ask for a grant from the Government to assist in carrying on the work of the Association which is distinctly Provincial in its scope, and in particular in promoting the Old Home Week movement which it was a good result in great benefit to the Province.

President I. C. Stewart and Mr. Geo. E. Faulkner explained the objects of the Tourist-Association and made a strong plea for assistance in carrying out the Old Home Week idea. The members of the Government evinced much interest in the work and it is believed the request of the Tourist Association will be favorably considered.

## Local and Special News.

habit.

—Shelburne is preparing an attraction in the line of the "Old Home Week" work. Monday a bill was introduced in the legislature to incorporate the Shelburne Yacht Club. Last year a successful regatta was held and it is now proposed to make a week of this kind a fixture as an "Old Home Week" attraction. It is also expected that Clark's Harbor, where there are a large number of fast fishing boats, owned and sailed by perhaps the best sailors in the world, will also organize a club and hold an annual regatta, probably on the week preceding that on which the Shelburne regatta is held.

—W. V. Brown, of Berwick, has in.

preceding that on which the Shelburne regatta is held.

—W. V. Brown, of Berwick, has invented a fruit packing box upon which he has secured a patent, that promises to be a great public benefit. He has sold a half interest to Sir Frederick W. Borden, minister of militia. The advantages of the invention are: A simple, easily adjusted cover, permitting proper ventilation and securely fastened; holding the fruit firmly in position without undue pressure capable of inflicting damage to the contents; uniform pressure on the covert to respond to any shrinkage of the fruit, thus keeping it in place, and thus preventing bruising or damage by iolting in transit; strong, compact, and is an easily handled package in form and most economical of storage space.

James H. Harding reports a large increase in the sales of Ogilvie's flours
in this market. During his last visit to the western part of this province the found a remarkable improvement at almost every point. Mr. Harding says that the people are beginning to realize the true economy of using Ogilvie's flour that will make so many more loaves of bread to the barrel than ordinary flours, and they also realize that the quality of the bread from Ogilvie's is better than ordinary flours, and they also realize that the quality of the bread from Ogilvie's is better than ordinary flours, and they also realize that the quality of the bread from Ogilvie's is better than ordinary flours, and they also realize that the quality of the bread from Ogilvie's is better than ordinary flours, and they also realize that the quality of the bread from Ogilvie's is better than ordinary flours, and they also realize that the quality of the bread from Ogilvie's is better than ordinary flours, and they also realize that the quality of the bread from Ogilvie's is better than ordinary flours, and they also realize that the quality of the bread from Ogilvie's is better than ordinary flours, and they also realize that the quality of the bread from Ogilvie's is better than ordinary flours, and they also realize that the quality of the bread from Ogilvie's is better than ordinary flours. shall not take effect until they are approved by the Governor-in-Council."

Dr. Sinclair thinks it desirable that such a body should exist in every locality having an insane asylum, and particularly recommends the appuring the entruside the supervision of the house-keeping and, an especial oversight of the condition of the women inmates that they may be assured proper care. "Some of the zeal." he suggests, "which causes ladies to take such a warm interest in missionary were abroad, could probably be diverted so that it would manifest itself in an interest in interior. An ewe by-law and one that is lighted in our own land, even in their war commended, is being adopted by many war community."

We commend Dr. Sinclair's suggestions, and would like to see the appiration of the supervision of the local point of the commended, is being adopted by many and the supervision of the local point of the commendation of the late town council.
