Kingston, - Canada

ELMER DAVIS.

One of the largest and most influential manufacturing concerns in Kingston, and one whose products are shipped to almost every province in the Dominion, is the tannery and leather-making plant of A. Davis & Son, Limited, situated conveniently on Rideau street. This business was established thirty-seven years ago in King, Ont., and was moved to larger and more commodious quarters in

ped with the most up-to-date labor saving machinery and devices, the new concrete leach house being the most modern on the continent. The business gives employment to from fifty to sixty well paid hands, who are all men trained for their special departments. In addition to purchasing hides in the leading Canadian and American markets, this company imports from all over the world. The output

Kingston in 1903. As the business increased it was found advisable to form a joint stock company so the present company was formed and incorporated under the laws of Ontario, with a capital stock of \$150,000. The plant consists of a large four-storey main building, 40 x 200 feet in dimensions, with large leach houses, bark sheds, etc. In addition, the company now has in the course of erection a

of this large industry last year was 65,000 sides of leather, representing over \$300,000, and going to every section of Canada, as well as supplying a large export trade to the British Isles. The Messrs. Davis are natives of Ontario and have learned their business thoroughly. Hon. E. J. Davis, the president of the company, is a resident of Newmarket, while Mr. Elmer Davis, the vice-president and sec-
