FACTS!

The monthly edition of CANADA is never less than two thousand (2000) copies.

CANADA reaches every province and territory of the Dominion.

CANADA is the only high-class literary monthly in the Dominion, containing purely Canadian Literature.

CANADA circulates among the people whom advertisers are most anxious to reach.

One thousand sample copies of CANADA are sent out every month to carefully selected names.

The subscription list of CANADA is rapidly increasing, and advertisers making contracts now will soon be laughing at those who waited till the rates were raised.

CANADA gives encouragement to small advertisers by providing a special department for them.

At present rates, CANADA offers the cheapest advertising to be had.

Give men facts and they will know what to do.
