WEBSTER'S PRACTICAL

"Probably all of our readers have occasion to use a dictionary every day. In some cases words cannot be correctly spelled; in others, the pronunciation is difficult; while in still other cases the meaning is not understood. This is true, not only of children and of the uneducated, but of many of the more intelligent as well; and every one who attempts to do without Webster's Practical Dictionary attempts to do without one-half of his opportunities for intellectual improvement.

Webster's Practical is an entirely new work by the editors and publishers of Webster's Unabridged, and contains more than twice the amount of matter, and illustrations ever before offered for the price.

Nearly 1,500 First-Class Illustrations in Webster's Practical.

It also embodies several entirely new features which render it pre-eminent to such a degree that for general reference in every household, it will not pay to use even the best of the older works any more than it would pay to journey across the continent in a lumbering old stage-coach while the numerous advantages of a lightning express are available. Those wishing to see sample pages and learn the particulars in regard to these new features before purchasing, should send their address to S. S. WOOD, Sole Agent, 134 1/2 West 33d St., N. Y.

Alden's Literary Revolution.

JOHN R. ALDEN'S *Literary Revolution* though, possibly, not making so large a "noise" in the world as three or four years ago when its remarkable work was new to the public, is really making more and more progress than ever before. A noticeable item is the improved quality of the books issued. GIZOR'S famous "History of France," not sold, till recently, for much less than \$50.00, is put forth in eight small octavo volumes, ranking with the handsomest ever issued from American printing presses, including the 456 full page original illustrations, and is sold for \$7. HAWLSON'S celebrated "even Great Monarchs of the Ancient Eastern World" is produced in elegant form, with all the maps and illustrations reduced in price from \$18.00 to \$2.75. These are but representative of an immense list of standard works, ranging in price from ten cents to nearly \$25.00, which are set forth in a descriptive catalogue of 100 pages, and which is sent free to every applicant. It certainly is worth the cost of a postal card to the publisher, JOHN R. ALDEN, 235 Pearl Street, New York.
