

OWING to the rapidly increasing demand in Canada for "Quinine Chocolates" and "Emulsion of Cod Liver Oil with Pep-in & Quinine," manufactured by Caswell, Massey & Co., of New York, they have authorized their manufacture in Montreal by Messrs. W. A. Dyer & Co., Chemists, Phillip's Square, who will in future supply the Trade and Public at New York prices.

SPENCER'S Chloromine Pastilles, are we believe the most Pleasant and Efficacious Pastilles yet introduced for the Relief of the various Disorders of the Respiratory Organs, induced by the changeableness of the climate. Influenza, Hoarseness, Soreness or any Irritation of the Throat arising from Cold, will almost invariably be relieved by the use of a few of the Tablets. For clearing and aiding the voice, they will be found very serviceable. Obtained of Davis & Lawrence Co., of Montreal, and of most druggists.

THE New Paris Range, manufactured by the old and well known James Smart Manufacturing Company, of Brockville, Ont., is superior to any cooking stove or range we have examined. They are handsome in appearance and made of heavy castings. We would advise all who desire to cook well and economically to examine these stoves before deciding upon any other.

NOTES ON CURRENT LITERATURE.

THE MODERN TREATMENT OF PLEURISY AND PNEUMONIA, by G. M. Garland, M. D., Instructor in Clinical Medicine Harvard Medical School, is the last issue of "The Physicians Leisure Library," published by the Enterprising Geo. S. Davis of Detroit, Mich. Price, in heavy lithographed paper, only 25 cts. a copy (monthly \$2.50 a year); cloth 50 cts. (\$5 a year). This volume consists of over 100 pages of practical interesting matter, which no practicing physician should be without, especially when the very low price of it is considered.

THE ILLUSTRATED LONDON NEWS, (American edition: Potter Building, New York) has provided many excellent things during the month. We find Illustrations of the interior of "Apartment occupied by the Queen"; "Cyclists at the Easter Volunteer Review"; "The Armies of the Continent," large and striking; "Scenes in Georgetown, Demerara"; "Canadian Artillery"—testing a field gun at Quebec; "Amusements at Government House, Ottawa: The Maypole in Winter," a lively scene; "Sketches in Florence"; "The Empress's Mourning Court," Berlin, double page; "A gang of Assassins startled by Butterflies," very good; and of numerous other subjects, with many life like portraits of prominent men and women. The reading matter under the heads of "Our note Book," by James Payn, and "The silent Member," is always good.

HARPERS WEEKLY is always a very welcome visitor. Late numbers contain current articles on "Uniform state Legislation," "The Chief Justice-ship," "The Tariff Debate," "The Colored Vote," "Indiana Independents,"
