

# THE VICTORIA PRICES CURRENT AND SHIPPING LIST.

Vol. 3.

VICTORIA, VANCOUVER ISLAND, WEDNESDAY, APRIL 1, 1863.

No. 427

We take great pleasure in recording a decided improvement in all branches of commerce connected with this city. Considerable sales for foreign consumption have been effected at fair prices, the unusually protracted winter having doubtless reduced the stocks of all descriptions of Goods to a very low ebb in British Columbia, and these must be replenished at whatever cost it may be to the consumers.

The "Donatina," which up to the present time has been trading between this port and the Sandwich Islands, is about to be placed in the China trade. She will load for the flowery land on her return voyage, and the "Alberni" will replace her to the Sandwich Islands.

Our readers will be pleased to note in the above the dawning of a new era for this port, and we may safely look forward to the time when our regular trades may be found in every quarter of the Pacific. In this we put forth no idle boast—our numerous and safe harbours, open throughout the year, our central position, our products and our climate, pre-eminently fit us for the great trading post of the Western World.

Governor Seymour has at last determined on opening up the route via Kamloops and Shuswap Lakes to the great bend of the Columbia.

This is a step in the right direction, that sister colony has scattered population will ultimately be productive of great result, but unfortunately too late to have much effect.

The ship "Frigate Bird" was towed into the passenger triff for the present season, Esquimalt Harbour yesterday from Port Gamble, W. T. We trust that this indicates the settlement of all the difficulties in which this fine vessel has so long been immured, and that she will now proceed on her voyage.

As simply of the ingenious stratagems of rival shopkeepers. All these absurdities, however,

can only tend to place these gentlemen in a more ridiculous position, as time demonstrates the folly of their proceedings. Commerce has determinedly fixed upon Victoria

as the mart whence the sister Colony must draw her supplies, and any efforts on the part of needy speculators to divert the trade of this port, must only prove futile and destructive to themselves.

Our Legislature presents a favourable contrast to that of British Columbia. All measures that pass the House of Assembly are well considered and based on the general good; the consequence is, that however slow her progress may be, we are always in government—sound political economy. We

would congratulate our neighbours if we could observe any tendency on their part to follow in our wake; but unhappily for the

industrious values in Oregon and California.

By the arrival of the "R. J. Anderson" to

bring the quotation for best Chile by the car, it

is \$24 per lb., at San Francisco, and for Gold

of Gate, Commercial and Pioneer, \$18 is now

demanded here, with \$16 for best Chile.

The last two or three trips of the latter

profitable to the owners, as she has been

crowded with miners and others bound for

vastly towards the great end of all good Yale.

The "John Stephenson" sailed for Australia

with a cargo of lumber, from the Alberni,

and will not be expected for some time.

## MONTHLY RETURN OF IMPORTS,

To the Port of Victoria, V. I., for the Month ending March 31, 1863.
