

considerable expense. It was purely a labour of love, as it was never expected to bring a money return. As he announced at first, the book will not be published until a sufficient number of subscribers, to satisfy the publishers, is obtained. We learn that out of the 300 absolutely necessary, some 240 have been secured. Although the work is not intended exclusively for the medical profession, Dr. Canniff had hoped that the profession would be foremost in subscribing. His expectation in this respect has not been realized. On the list of subscribers are numerous distinguished names of the judges, lawyers, members of Parliament, clergymen and others, with some of the best known doctors, but not a predominating number. We wish those of our readers who may not have given their names would send an order for the work to the editor of this journal. The price of the book is \$3.50 in cloth, and \$4.50 half morocco.

A TRUISM.—

Though man has but himself to blame
For nearly all his ills,
He hates like thunder, just the same,
To settle doctor's bills.— *Troy Press.*

EDITORIAL NOTES.

Dr. Harris, of Brantford, was re-elected Chairman of the Educational Committee.

Our old friend, Dr. Geikie, worked hard on the Educational Committee. As a teacher of long standing his advice carries much weight.

Dr. Logan, of Ottawa, is looking much better this session. His long term of service on the Medical Council always commands for him the attention and respect of that body.

Dr. Campbell, of London, was elected President of the Medical Council, and during the late session of the Council made one of the best chairmen who have ever presided at the Council Board.

Dr. Phillips, of Brantford, was elected Vice-President. He has long and faithfully served the Council as Chairman of the Finance Committee, and as a territorial representative the Council could not have made a better selection.

The Treasurer's Report was placed in the hands of every member of the Council, and will be found published in the proceedings of the Council. It
