

LISTERINE

The word Listerine assures to the Medical Profession a non-poisonous antiseptic of well-proven efficacy; uniform and definite in preparation, and having a wide field of usefulness.

On account of its absolute safety, Listerine is well adapted to internal use and to the treatment of Catarrhal Conditions of the mucous surfaces.

LAMBERT'S LITHIATED HYDRANGEA!

RENAL ALTERNATIVE—ANTILITHIC.

The ascertained value of Hydrangea in Calculous Complaints and Abnormal Conditions of the Kidneys, through the earlier reports of Drs. Atlee, Horsley, Monkur, Butler and others, and the well-known utility of Lithia in diseases of the uric acid diathesis, at once justified the therapeutic claims of LAMBERT'S LITHIATED HYDRANGEA when first announced to the medical profession, whilst subsequent use and close clinical observation has caused it to be regarded by physicians generally as a very valuable Kidney Alternative and Antilithic agent in the treatment of

Urinary Calculus, Gout, Rheumatism, Cystitis,
Diabetes, Hematuria, Bright's Disease,
Albuminuria, and Vesical Irritations Generally.

LAMBERT PHARMACAL CO., St. Louis.

SCOTT'S EMULSION

THE WHOLE OIL!

There is no secret about Scott's Emulsion. Nothing is covered up by obscure references to active principles or alkaloids. Neither is it an alcoholic mixture put up under some mystifying title.

It is simply an emulsion of the best Norwegian cod-liver oil combined with the hypophosphites and glycerine.

We use the whole oil (*a*) because the great reputation of cod-liver oil as a food and medicine was made by using it in this way; (*b*) because such use is, almost without exception, approved by the medical profession of the whole world; and (*c*) because we fail to find a single writer, worthy to be called an authority, who advocates differently.

When cod-liver oil is indicated, the whole oil must be used.

We will gladly send you our formula, together with sample bottles, upon request.

Two sizes; 50c. and \$1.00. SCOTT & BOWNE, Chemists, Toronto
