

SAVORY & MOORE'S SPECIALTIES.

MEDICATED GELATINE (Patent).

LAMELS FOR INTERNAL ADMINISTRATION

Consisting of thin sheets, of uniform thickness, accurately divided into squares by raised lines, each square containing an exact dose of the Medicine with which the sheet is impregnated.

Issued in sheets, each consisting of 24 squares. Price 1s. 9d. per sheet.—The Lamels are TASTELESS when swallowed quickly with a little cold water.

THE REMEDIES FOR HYPODERMIC INJECTION

Consist of Small Discs (SQUARE), impregnated with Alkaloids, etc., and are put up in small boxes, each containing 25 Discs, price 2s. 6d.

The chief feature of these Discs is their instant solubility, by which hypodermic solutions can be immediately obtained of uniform and reliable strength; they keep good for an unlimited period in their dry state, and are extremely portable.

THE OPHTHALMIC REMEDIES

Comprise Minute ROUND Discs impregnated with a definite proportion of Alkaloids, etc., and are issued in small Tubes, each containing 100 Discs, 2s. 6d.

The little round Discs of soft Gelatine have the advantage of slowly softening and dissolving. The atropine, or other medicament gradually dissolves out, and is thus placed under the most favourable circumstances for absorption. Hence much smaller doses serve to produce a marked effect, by this form of application, than when drops are introduced.

BLISTERING GELATINE, OR LAMELLÆ CANTHARIDIS.

The most elegant, efficacious and convenient mode of Blistering. Tins, 1s. 3d.

N.B.—A List of the whole series of Medicated Gelatine Preparations will be forwarded post free on application.

FOOD IS THE BEST TONIC!

MENSMAN'S

PEPTONIZED

BEEF TONIC.

THE great necessity for a fluid that would possess all the elements necessary for the support of the system, having been long felt by the medical profession, we call attention to this preparation, containing the entire nutritious properties of the muscular fibre, blood, bone, and brain of a healthy bullock, dissolved and semi-digested by aid of heat and pepsin, and preserved by spirit; thus constituting a most perfect nutritive, reconstructive tonic.

It is not a mere stimulant, like the now fashionable extracts of beef, but contains blood-making, force-generating and life-sustaining properties, pre-eminently calculated to support the system under the exhausting and wasting-process of fevers and other acute diseases, and to rebuild and recruit the tissues and forces, whether lost in the destructive march of such affections, or induced by overwork, general debility, or the more tedious forms of chronic disease.

It is friendly and helpful to the most delicate stomach, and where there is a fair remnant to build on, will reconstruct the most shattered and enfeebled constitution. It is entirely free from any drugs.

It is prepared after a thoroughly tested and scientific method.

Dispensed in 16oz. bottles, retail, at \$1.50 each.
