MANUFACTURERS OF

**HYDRAULIC, STEAM AND HAND**

FOR

**PASSENGER AND FREIGHT SERVICE,**

In Hotels, Warehouses, Office Buildings, Etc., Etc.

MONTREAL, QUE.

**FOOT-POWER MACHINERY.**

Machines for ripping, cross-cutting, scroll-sawing, mortising and tenoning, forming edges, grooving, galing, rabbeting, cutting dados, and turning. Builders use our Hand Circular Rip Saw for the greater portion of their ripping in preference to carrying their lumber to a mill five miles' drive from their shops. The same is true in regard to scroll-sawing, mortising, tenoning, cutting stuff for drawers boxes, etc. Builders using these machines can bid lower and save more money from their contracts than by any other means.

Read the Following Letters from Builders:  
CLARENCE F. LEE, carpenter and builder, Morristown, N. J., says: "I have had one of your Hand Circular Rip-Saws for about three months, and am much pleased with it. I have done the ripping for 15 houses in that time, which is over forty miles through inch boards. Have ripped as high as 8-inch plank. Table is also good for rabbeting; having rabbeted all joints and saved all drips for 200 windows."

ALIX S. SMERUS, Lima Ohio, says: "A few days since we had some 160 small drawers to make for a drug store; the steam power mill wanted 50 cents each for making them. With my foot-power machinery I made them, and saved 30 cents above good wages on the job. If desired, these machines will be sold ON TRIAL. The purchaser can have ample time to test them in his own shop and on the work he wishes them to do. Descriptive Catalogue and Price List Free."  
W. F. & JOHN BARNES CO., No. 743...Ruby St., Rockford, Ill.
