

4. *Identify and define Canadian values which reflect our commitment to, and the necessity for global sustainability.*
5. *State that Canada recognizes and asserts its responsibility for holding transnational corporations accountable for their impact on sustainable development (e.g. through the UN).*
6. *Develop international linkages and networks of influence.*
7. ***Pursue and coordinate unofficial consultation and collaboration. ie. Track 2 process (ARF, CSCAP, APEC study centres, PECC) which could help develop coherence between the global, multilateral, bilateral, regional and community levels.***
8. *Increase representation of indigenous peoples and Asian-Canadians in DFAIT and international organizations involved in Asia-Pacific.*
9. *Promote consultative mechanisms and enhanced collaborative problem solving through the official process ie. APEC.*
10. *Ensure that issues of sustainable development remain on the agenda of further National Forum meetings.*
11. *Integrate business and NGO input into relevant APEC fora.*
12. *Ensure that terms of reference for publicly-funded feasibility studies in infrastructure projects include components relevant to sustainable development.*
13. ***Develop a statement on Canadian foreign policy sustainable development values.***
14. ***Develop and support strategies to aid in implementation of value structures in relation to issues of sustainable development concomitant with Canada's. For example:***
 - a) *industry awards for clean technology exporters;*
 - b) *annual review of public and private sector sustainable development activities;*
 - c) *partnership between private and public sector capital flows, and NGOs, to support sustainable development.*
15. *Ensure that all economic activity is underpinned by the principles and practice of sustainability - both in Canada and in our activities overseas.*
16. *Develop incentives to encourage annual reporting on business and environment practices.*
