

From DONALD MACLEAN, M.D., Ed., *Professor of Surgery, University of Michigan.*

ANN ARBOR, Jan. 29th, 1875.

Having known Dr. John Bell intimately during the whole of his professional career, I have the utmost confidence and much pleasure in recommending him for the appointment of Hospital Physician. His fine abilities, high moral character, and the unusually good opportunities he has enjoyed for acquiring professional knowledge, skill and experience, peculiarly fit him for the position.

(Signed) DONALD MACLEAN, M.D., ED.

From JOHN R. DICKSON, M.D., M. R. C. P. L., M. R. C. S. E., and F. R. C. S. ED., *President Royal College Physicians and Surgeons, Kingston, and formerly Dean of the Med. Faculty, Queen's College.*

Having been informed that Dr. John Bell of Montreal is an applicant for the appointment of Attending (Junior) Physician to the Montreal General Hospital, I have much pleasure in bearing testimony to his ability to discharge the duties of that important office.

Dr. Bell was a most diligent, painstaking student, and his opportunities of acquiring a practical knowledge of his profession, both during his student life and since he obtained his degree, were very great. I therefore think he is well qualified to discharge the duties of such an office.

KINGSTON, 23rd Nov., 1874.

---

From JOHN A. OCTERLONY, M.D., *Professor Materia Medica and Therapeutics, and Clin. Medicine in the Louisville Med. Coll.; Physician to the Louisville City Hospital; Late Physician and Pathologist to the Brown U. S. A. Gen. Hosp., and to the U. S. A. Gen. Hosp., 'Ohio.'*

LOUISVILLE, KY, Nov. 30th, 1874.

I am informed that Dr. John Bell of Montreal, is at present a candidate for the position of (Junior) Attending Physician to the Montreal General Hospital. It is with great pleasure I embrace this opportunity to express my appreciation of Dr. Bell, as a gentleman, and of his professional attainments. In simple justice, I ought also to state the numerous and extensive opportunities enjoyed by Dr. Bell while serving under me in the United States Army Hospitals in the vicinity of Louisville, Ky, during the late civil war, and the industry, ability and effectiveness displayed by him in the performance of his duties. Dr. Bell availed himself in the most creditable and successful manner of the Clinical and Pathological field open to him at this time. As Physician and Pathologist and as his instructor I came in close and constant contact with him, and while serving together in the Brown U. S. Gen. Hospital, and in the U. S. Gen. Hosp., "Ohio," he gave me the most constant and perfect satisfaction. In these Hospitals he had extensive opportunities of assisting in numerous and varied capital operations, and to perform many operations for himself. He saw daily large numbers of varied and complex medical diseases, and was called upon to study the cases closely and critically, and received daily, clinical instruction in physical diagnosis. His duties also demanded the daily performance of post mortem examinations (some days 5 or 6), with the writing of the records, and careful microscopical examinations of the viscera. I believe but few young men have enjoyed such opportunities to fit themselves for hospital and private practice, and but few have so conscientiously availed themselves of these opportunities as Dr. Bell did when with me.

(Signed) JOHN A. OCTERLONY, M.D.
