

PINK PILLS ARE AN UNFAILING BLOOD BUILDER AND NERVE TONIC.

pills the same as, or has pills the same as Dr. Williams' Pink Pills, and any one who pretends to be the kind of person you will do well to be cautious about having anything to do with, for he will swindle you in other things besides this. **PILLS SOLD LOOSE ARE NOT DR. WILLIAMS'.**

"Do many people write to ask you about your pills?"

"Oh, yes; and we are always pleased that they should do so, because we take a personal and direct interest in everyone who takes our medicine. Such letters always receive careful and prompt reply."

The reporter thought that the above conversation pretty fully covered the secret of the wonderful success of Dr. Williams' Pink Pills in Canada and elsewhere, and took his leave.

NERVOUS PROSTRATION.

The Victim Helpless and Unreliable—It Saps the Constitution and Makes One Involuntarily Ask, is Life Worth Living?

From the Lindsay Post.

It is at least commendable to bow before the inevitable. But what appears to be inevitable may be delayed or altogether averted. What were considered necessarily fatal diseases twenty-five or even ten years ago in many instances are not now placed in that category—thanks to medical and scientific skill. Life is sweet. We must either control the nerves or they will master us. Hysteria may prove fatal. It renders the person afflicted helpless and unreliable, and casts a continual shadow upon a hitherto bright and cheerful life. It saps the constitution and makes one involuntarily ask, "Is life worth living?" Miss Fanny Watson, daughter of Mr. Henry Watson, living on lot 22, township of Somerville, Victoria county, is one of those whose life for years was made miserable from nervous disease. At the age of twelve Miss Watson met with an accident which so seriously affected her nervous system that during the subsequent five years she was subjected to very severe nervous prostration, resulting in convulsions with unconsciousness for three or four hours at a time. This condition continued until March last, when she had an increased and prolonged attack by which she was completely prostrated for the space of a fortnight. The disease so affected the optic nerve that Miss Watson was forced to wear glasses. Many remedies were tried, but with no avail, and both Miss Watson and her friends feared that a cure could not be obtained. Ultimately Dr. Williams' Pink Pills were strongly recommended by various friends, and the young lady decided to give them a trial. A half dozen boxes were bought, and by the time one box was used there was an improvement in her condition, and before the half dozen boxes were used Miss Watson was, to use her own words, a different person altogether. Her entire nervous system was reinforced to such an extent that she is now able to dispense with the use of the glasses which previously failing eyesight had made necessary. Miss Watson is now a staunch friend of Dr. Williams' Pink Pills, and says:—"I have pleasure in recommending them to all similarly afflicted." Rev. D. Millar, a friend of the family, vouches for the facts above set forth.

A MINISTER'S STORY.

For Five Months he was Helpless, and Endured Agonizing Pains—Could neither Rise Up nor Sit Down without Aid—He Tells How he Found a Cure.

From the Tilsonburg Observer.

The Rev. C. H. Backhus is a resident of Bayham township, Elgin county, Ont., and there is probably no person in the county who is better known or more highly esteemed. He is a minister of the United Brethren Church. He also farms quite extensively, superintending the work and doing quite a share of it himself despite his advanced age. But he was not always able to exert himself as he can to-day, as a few years ago he underwent an illness that many feared would terminate his life. To a reporter who recently had a conversation with him the rev. gentleman gave the particulars of his illness and cure, with permission to make the statement public. The story as told by Rev. Mr. Backhus is substantially as follows:—"About three years ago he was taken ill and the doctor who was called in pronounced his trouble an attack of la grippe. He did not appear to get any better, and a second doctor was called in, but with no more satisfactory results, so far as a renewal of health was concerned. Following the la grippe, pains of an excruciating nature located themselves in his body. He grew weaker and weaker, until at last he was perfectly helpless. He could not sit down nor rise from a sitting posture without assistance, and when with this assistance he gained his feet he could hobble but a few steps when he was obliged to be put in a chair again. For five months these agonizing pains were endured. But at last relief so long delayed came. A friend urged him to try Dr. Williams' Pink Pills. He yielded to the advice, and had not been taking them long when the longed for relief was noticed coming. He could move more easily, and the stiffness and pains began to leave his joints. He continued the use of the pills for some time longer and the cure was complete. Seeing Mr. Backhus now it would be difficult to think of him as the crippled and helpless man of those painful days. Mr. Backhus is now past his 80th year, but, as he said, "by the aid of Dr. Williams' Pink Pills I am as able as those ten years younger. You can readily judge this when I tell you I laid forty rods of rail fence this year. I am glad to add my testimony in favor of Dr. Williams' Pink Pills."

Dizziness and Weakness Cured.

Mrs. Charlotte Jeroy, of Rockport, Ont., says:—"I had a severe attack of la grippe, which left me weak and miserable, with a frequent feeling of dizziness, a poor appetite, and failing health. I procured a few boxes of Dr. Williams' Pink Pills, and found them just the medicine I required. They completely restored my health, and I am now feeling even better than I did before my illness. I think this medicine a splendid thing to strengthen weak people."
