To the Detriment of Cobalts Hollinger, Dobie, Pearl Lake and Other Gold Shares Score Ad-

Hollinger maintained its premier po-

sition in the market, making another stirring rise of 80 points; thereby crossing the \$10 mark, which has been Dome Extension and Pearl Lake were also sallent features of the market; the former rising to 60, against Saturday's price of 54, and Pearl Lake

advancing to 65, a rise from Saturday's price of 59.
West Dome was quietly strong, with a small advance.

The Dobie, which is the incorpora-

HOLLINGER MAKES \$10

Hollinger Dome Extension and Pearl Lake made the running in the market for Porcupines yesterday. Hollinger did what had been predicted for this month, viz., reached \$10 a share, and crossed it. Dome Extension and Pearl Lake were both bought largely by clients in the States and in each case the advance was fully five points. Further good news on the Dome Extension was received in To-ronto yesterday, but the nature of this is being withheld for

kecent reports from Ontario's new gold camp are even more optimistic than before. Interest in Porcupine stocks is spreading fast and there is every promise of a boom of unusual dimensions. Present buyers are those who will make the large profits. Hollinger, Vipond, Dome Extension, Preston East Dome, Dobie and Apex have a free market and are being well bought. Each of these promises to sell considerably higher.

Enthusiasm on Porcupine

For the time being all the interest in mining securities is being concentrated on Porcupine. Cobalt stocks of much merit are being sold to buy other issues of less proved worth, but Cobalts will revive again and several of these issues are now excellent buys.

I am keeping a careful record of the Porcupine Camp, and am thereby prepared to advise as to the various Porcupine issues. Hollinger, East Dome, Dome Extension, Pearl Lake and Vipond will make money for current purchasers. Write for information or send orders.
