NORTHERN MEN SYSTEM WILL INVADE TORONTO IS WIDELY COPIED

To-morrow Will Be New Ontario
Day, and 1000 Delegates
Will Hold Monster Parade,
Interview Sir James Whitney
and Hold a Mass Meeting
in the Evening.

It is expected that 1000 men of the
north will invade Toronto to-morrow,
New Ontario Day. They will form
on Bay-street in the morning and
march to the parliament buildings to
meet the government representatives
and make their claims for the new and
undeveloped country in the north. It
is understood that the Algoma deputation will ask the government that
\$2,000,000 of the \$5,000,000 set aside for
the development and colonization of
New Ontario be allotted to the four
western districts—Rainy, River, Kenora,
Port Arthur and Fort William.
At a recent convention in Fort William
a resolution favoring this plan
was adopted.

Undoubtedly it will be a big day for
the northerners. Their time will be
chiefly taken up in listening upon the
greatness of the north. At 12.45 the
local board of trade will tender a luncheon
in the Mutual-street arena, and
at 2 o'clock there will be a public meeting
addressed by many prominent men.
Among the speakers will be: His
Honour Sir J. M. Gibson, Sir James W.
Whitney, members of the Ontario
cabinet, Hon. Frank Cochrane, Mayor
Geary, several controllers and aldermen,
Toronto members of both federal
and provincial houses, Hon. Geo. A.
Cox, Hon. Senator Jaffray, Hon. Senator
J. K. Kerr, N. W. Rowell, K.C.,
Sir Henry M. Pellatt and others.

APPOINTED TO BOARD

Three Doctors Replace Former Members
of Health Committee.

Three appointments have been made
by Hon. W. J. Hanna, provincial secretary
to the provincial board of health
as the result of the resignation of the
former members leaving to take positions
as district officers of health. The new
appointments are Dr. E. A. Wagoner,
Ottawa; Dr. Thomas K. Kistner,
Gahawa, and Dr. Henry Casgrain,
Windsor. The former members, whose
securities they fill, are: Dr. Clinton,
Belleville; Dr. Bentley, St. Catharines;
and Dr. Maloney, Cornwall. These physicians
were appointed district medical health
officers two weeks ago.

The provincial board of health holds
quarterly meetings, and its six members,
not including the chairman, Dr.
McCullough, head of the provincial
health department, receive a salary of
\$200 a year and all expenses.

Salt Found to Be Best Preservative

of Butter.

Many preservatives of butter and
margarine have been tested in Germany
in a series of experiments by K.
Fischer and O. Gruent. The
common salt alone practically
prevented decomposition of the fat and
casein, tho it did not absolutely stop
all change, and specimens contained
three per cent. of salt were in good
condition for use after three months.
Other specimens treated with benzoic
acid, salicylic acid, boric acid,
etc., up to one per cent., had rapidly
become rancid.

MEN WHO DON'T EXERCISE

Suffer From Indigestion, Head-
aches, Poor Appetite,
Sleeplessness.

Nothing So Sure to "Set Up" a Man
Make Him Feel Better and Vigor-
ous as Dr. Hamilton's Pills.

Lack of exercise and overwork were
the causes that combined to almost kill
Samuel S. Stephens, Jr., one of the best
known citizens in Woodstock.

In his confidential letter Mr. Stephens
says:

"A year ago I returned home after a

long trip, completely worn out. I was

so much affected by chronic biliousness

that I could not get on my feet. I

was always tired and

headaches were constant. I found

it difficult to sleep for more than five

hours. My appetite was so feeble that

I ate next to nothing, and in consequence

lost weight and strength. I was

thin and had dark rings under my eyes

that made me look like a shadow.

"I was a blessing that I used Dr.

Hamilton's Pills. In one week I felt

like a new man. The feeling of weariness

and nervousness in my stomach disappeared

my eyes looked brighter, color grew bet-

ter, and, best of all, I began to enjoy

my meals. The distress, languor and

loss of appetite passed away, and

I regained my old-time vigor and

strength. To-day I am well thanks to Dr.

Hamilton's Pills.

"For health, strength, comfort and

good spirits there is no medicine like

Hamilton's Pills. Beware of sub-

stitutes, and let a dealer enjoy

of some other pill on your pain

and see how much more you can

Hydro-Electric Scheme Adopted
by New York, and It Is
Expected That the System
of Health Inspection Will
Be a Model for Other
Countries.

There were two interesting addresses
at the second and last day of the con-
vention of the Ontario Municipal As-
sociation yesterday, when Hon. Adam
Beck explained the hydro-electric pow-
er operations, and Dr. McCullough,
chief medical health officer of Onta-
rio, spoke on the new Public Health
Act.

When he arose to speak Hon. Adam
Beck received an ovation. He told of
the ambitions of the hydro-electric
commission, and how the public-owned
enterprise was meeting with phe-
nomenal success. In New York state
legislation on the same lines as the
Ontario policy was enacted. "This is
a great compliment to us," he said.
In the course of his remarks he an-
nounced that within a few weeks con-
tracts would be let for a large build-
ing to be erected near the transformer
station on Strachan-avenue, where
lamps and meters would be stored and
tested.

Great Competition.
The power minister said that natu-
rally there was a great deal of com-
petition in securing contracts. There
was a desire on the part of private
corporations to make the hydro-electric
as little a success as possible. "Some
of the competition is due to the cor-
porations in the United States which
are indirectly affected by the success
we are having," he said.

To see that the rule recently drawn
up by the commission was being carried
out by the municipalities respecting
the protection of life and property by
properly looking after the wiring, Mr.
Beck said that an inspector would be
on the road all the time visiting these
towns.

Public Health System.

Ontario was the first province to
adopt the new public health system—
that of dividing the province into
health districts with an officer over
each, said Dr. McCullough in his ad-
dress. Owing to the indifference of
councils the local medical health offi-
cers had been negligent, and under
the new act, these officials would be
more independent and responsible for
the public health. He traced the his-
tory of the public health activity since
its beginning 120 years ago. Toronto
appointed its first board of health in
1833.

Mayor Lees President.

Mayor Lees of Hamilton was elected
president of the association, succeed-
ing F. S. Spence of Toronto. The
other officers elected for the ensuing
year were: First vice-president, J. T.
Richter; second vice-president, W. A.
R. C. Chown; third vice-president, T.
Thorp; fourth vice-president, R. C.
Chown; fifth vice-president, W. Lane,
Godolphin; and secretary, K. W. McKay.

Tax Improvements.

The association did not take a stand
on the matter of taxation improve-
ments. The executive committee was
instructed to bring in a report with
respect to this question, but it was
decided to leave it in the hands of the
incoming executive and the municipali-
ties will be asked to present their
views. It was the feeling of the meet-
ing that one municipality could not
enforce this principle and another use
the present method of assessment.
A resolution was passed urging the
government to consider the question of
taking over the debentures of all the
municipalities.

Eggs and Incubators in Egypt.

The hatching of eggs by artificial
heat has been practised in China and
in Egypt from prehistoric times, says
The Scientific American, and in the
latter country there still exist an-
cient egg-hatcheries or "mammaris"
that have been in continuous use in
the same family for many generations.
These incubators consist of large
brick ovens that hold about thirty
to sixty thousand eggs at a time. The
fire is built inside the oven and is
watched carefully for ten days, after
which no additional heat is necessary.
The method of building the fire and
maintaining them so as to preserve
the right temperature are trade sec-
rets that are jealously guarded and
usually kept in the family. About
sixty-five to seventy per cent. of the
eggs are said to be successfully
hatched by these methods.

The Production of Eggs for the

export trade has come to be a very im-
portant industry of Egypt. During the
winter of 1911-12 the export amounted
to 38,608,000 eggs, having a value of
\$627,000. That is at the rate of about
nine cents a dozen.

Most of the Egyptian eggs go to
England; last year 7,400,000, or nearly
ninety per cent. were sent there.
France had over 2,000,000, and the rest
were divided among a number of coun-
tries.

The eggs shipped from Egypt are
generally smaller than those we are
accustomed to; but when we consider
the amount of food material contained
in them, even these small eggs are
very cheap when compared with prices
in this country or in Europe.

Trackless Trolleys in Los Angeles.

There is now in operation at Los
Angeles, Cal., a trackless trolley, which
is said to be the only one of its kind in
the States. It consists of the regular
overhead wires, but there are no tracks,
the cars running on the ordinary street
paving. According to The Municipal
Journal, the cars are entirely different
from the regular street car, in fact,
the first to be installed was a rebuilt
automobile, equipped with the proper
electrical apparatus and two overhead
rods to connect with the wires.
The two cars in use at the present
time resemble an omnibus, have a ca-
pacity of sixteen passengers and are
furnished with a steering wheel like
that used on autos. They run up and
down the winding road known as Laurel Can-
yon, connecting a newly opened tract
with the city and meeting the regular
car lines. The road is only a few miles
long, but is so winding and steep that
it was considered more economical to
avoid the use of tracks, and this is of
considerable advantage to the automo-
bile traffic along that road. The fare
is ten cents, and the expenses are
light, only the driver being required for
a car.

Rheumatism and Lumbago

If you have any doubt as to the
value of Dr. Chase's Kidney-Liver
Pills as a means of regulating the
kidneys and thereby curing rheuma-
tism and lumbago, you will find here
the proof of what was accomplished
in one case.

Mr. John Bellard, carpenter, Han-
over, Ont., writes: "I was entirely
cured of kidney disease and rheuma-
tism by the use of Dr. Chase's Kidney-
Liver Pills. For about twelve years I
was troubled with the kidneys and
suffered a great deal from rheumatism
and lumbago. I consulted three dif-
ferent doctors, and as they failed to
cure me, I began the use of Dr.
Chase's Kidney-Liver Pills, because a
friend of mine had been cured by
their use. Altogether, I have used
ten boxes, and was entirely cured over
a year ago. I can now recommend Dr.
Chase's Kidney-Liver Pills as the best
cure for kidney disease, backache and
rheumatism."

printed daily on another page, clipped on consecutive days, together with the stated amount
set opposite the style selected, that covers the necessary EXPENSE items of this wonderful
distribution, including clerk hire, cost of packing, checking, express from factory, etc., etc.

READ WHAT THE EDITOR OF THE

Ladies' Home Journal

SAYS ABOUT THIS
GREAT WORK:

THE LADIES' HOME
JOURNAL

The Curtis Publishing Co.
Philadelphia

Edited by Edward W. Bok.

"Why I like this illus-
trated edition of the Bible
is because everything about
it has been well done, and
seems to have been done
in the right spirit. The
Book itself has been ap-
proached by the annotator
with reserve and intelli-
gence, and by its artists
with sympathy and knowl-
edge. It has not been
made into a meaningless
picture book. The pic-
tures here serve a distinct
purpose. They enrich the
text, but they do more;
they intelligently explain
it, and many a hitherto
obscure passage will as-
sume to thousands a new
meaning through these
eye-teaching pictures.
Popularizing the Bible is
a risky experiment in the
hands of many, but it has
been made a splendid
achievement in this case."
—EDWARD W. BOK.

This is
the only REALLY
ILLUSTRATED BIBLE.
for the picture of each particular
verse illustrated is inserted with THE
TYPE, so that every illustration corresponds
with the accompanying text-matter, and makes it plain.

Also an Edition for Catholics
Through an exclusive ar-
rangement we have been most
fortunate in securing the
Catholic Bible, Douay Version,
endorsed by Cardinal Gibbons
and Archbishop (now Cardinal)
Farley, as well as by the
various Bishops of the
country. The illustrations
consist of the full-page plates and maps approved by the Church,
without the Tisot and text pictures. It will be distributed in
a year ago. I can now recommend Dr.
Chase's Kidney-Liver Pills as the best
cure for kidney disease, backache and
rheumatism.

EVERY one of the 600 pictures is a gem of art and the
original conception of a master mind—a wordless
discourse of wonderful force. These illustrations
are introduced directly into the text, and each has been ap-
pecially made to illuminate—i. e., "throw light upon"—the
particular verse selected for illustration. Such marvellously
faithful portrayal of Bible lands and scenes will prove a
fascinating revelation to all readers. Modern research has
thrown a flood of light upon the people and places of Bible
days, and this ripe knowledge shows forth on every page,
so truthfully embellished as to give the text a new and per-
sonal meaning.

MAIL ORDERS will be filled for any style desired
upon receipt of the six free certi-
ficates and Amount Expense Items, together with 23c
for postage.

Address THE WORLD, Toronto, Canada.
