To Grow Hair On Bald Heads

Specialist Gives Simple Recipe That Works Fine.

Thousands of people suffer from baldness and falling hair who, having tried every advertised hair tonic and hair-grower without results, have resigned themselves to baldness and its attendant discomfort. Let their case be hopeless. The following simple home prescription has made hair grow after years of baldness and is also unequalled for restoring gray hair to its original color, stopping hair from falling out, and destroying the dandruff germ. It will not make the hair greasy, and can be put up by any druggist. Ask for "Menthol Crystals" one-half drachm. If you wish it perfumed add 1 drachm of favorite perfume. This preparation is highly recommended by physicians and specialists and is absolutely harmless, as it contains none of the poisonous and alcohol so frequently found in hair tonics. Ladies using this prescription should be careful not to get it on the neck or where hair is not desired.

THORO BAD CHARACTER GETS NINETY DAYS

Upon the sworn oath of Plainclothesmen Ward and Scott, in the police court yesterday, that they had never known John Parker to do an honest day's work in his life, Magistrate Kingsford committed the convicted man to the jail farm for ninety days.

Parker confessed to two previous convictions for selling liquor and one for selling morphine, and admitted that the \$107 found in his possession at the time of his arrest was the balance from liquor profits after having paid two O. T. A. fines. T. O'Connor, counsel for the accused, strongly contended that as a breach of the O. T. A. was not a crime, Parker could not be convicted on the ground that he was living on the avails of crime. He will appeal the case.

ANALOGY OF MERCHANT SHIPPING APPLIED TO AERIAL NAVIGATION

Forty-One Articles in Draft Convention Prepared by
Commission--Provision for Carriage of Identity
Papers and Arbitration for Settlement of Disputes.

Paris, April 17.—"The seventh and eighth meetings of the international convention on aerial navigation, which body is also the aeronautical commission of the peace conference, were held on April 15 and 16," says an official report issued today.

The commission had before them full reports from their commercial, legal, financial and technical sub-committees. There were 41 articles in the draft convention and six annexes. "On the question of aircraft, an analogy of merchant shipping has been followed to a certain extent, the main principle being that the nationality of the aircraft should be governed by the nationality of the owner of the aircraft. The convention has decided as a matter of principle that the nationality of the aircraft in the case of crews are to be recognized as universally necessary in international flying.

"The right of flying over a state from frontier to frontier is recognized, subject to the safeguard that the state flown across may compel landing for the interest of national security or in other words, where reasonable suspicion exists that the flight is not a bona fide, innocent flight. There are also provisions for the carriage of various papers of identity on the aircraft and prohibition against the carriage of dangerous articles.

"The final provisions include an arbitration clause for the settlement of disputes and a clause which definitely places the convention on a peace basis as not affecting the rights and duties of belligerents or neutrals in time of war. Aircraft are then placed in a class apart and may not fly outside their own countries, except by the special authorization of the state visited, in which case their treatment shall be in accordance with the usual rules prevailing in the case of a ship of war.

"The convention contemplates the formation of a permanent international commission on aerial navigation, which will keep in close touch with all new developments and act as a clearing house for all information on questions of air navigation between the respective states.

"The commission directed that a complete draft dealing with the various amendments proposed shall be prepared for their next meeting."

TRUSTEE OBJECTS TO KICKING CHILDREN

Corporal Punishment Carried to Extreme, Says Mrs. Courtice.

NO PRESENTATIONS ON FRONTIER QUESTION

Dr. Hunter Protests Against Giving Silver to Retiring Chairman.

Dr. John Hunter broke up the harmony at the board of education last night by registering a protest against the annual presentation of a case of silverware to the retiring chairman. He said it was like the titles of officers at Ottawa, which did no honor to the possessors. The protest was a sequel to the presentation made to Dr. G. J. Steele, who had been away recuperating after his illness with influenza.

Mrs. A. C. Courtice added zest to the meeting by complaining that corporal punishment was carried to an extreme. A certain principal recently whipped a small girl, a young woman teacher whipped a little eight-year-old girl, and a principal struck or kicked a small boy on the leg for being late.

Dr. Caroline Brown said that there were reports of discourteous talk by students to pupils in regard to the pupils' cleanliness and attire.

Trustees McCrae and C. A. B. Brown pointed out that the bylaws fully provided for disciplining any of the teachers. The matter was referred to the management committee.

Alexander Sharp pleaded guilty in the police court yesterday to having failed to report for military duty. Sergt. McClintock informed the court that Sharp's three brothers served in the Imperial army, two of whom were killed and the third lost a leg. "His family has done enough," said Magistrate Kingsford as he remanded the accused for sentence.

REFERENDUM FOGS EVEN LEGISLATURE

Dewart's Amendment to Omit Prescription Clause is Lost.

When the legislature was in committee on the Ontario temperance act, Mr. Proudfoot made a vigorous protest against the provision for consent of the attorney-general before the Ontario License Board may be sued.

Hon. W. D. McPherson defended the restriction.

Dr. Nixon asked why he should, as a medical practitioner, be put to the expense of paying more for liquor to the government than to the manufacturer.

Hon. W. D. McPherson said the increased price would not be large.

While the legislature was in the liquor business to make money, you should say so. My opinion is that you should let doctors have liquor for their patients at the price they can secure it from the distillers.

Mr. Pinaré: I believe you should allow the patient to retain the medical prescription he has paid for. While the prescription is being held by the agent the patient may die.

Hon. W. D. McPherson said the clause was aimed at bogus prescriptions.

Mr. Pinaré pressed the point, and warmly vindicated the doctors from the odium cast upon them.

Mr. Proudfoot called for a more definite statement of the relations of the government with the agencies.

Premier Hearst: The government only aims at eliminating the dangers that existed under the system of vendors. We will consider how the sale thru the agencies can best be facilitated.

Tom Hook put this question: Suppose a family in which there are many members, one of whom obtains whiskey by prescription. He recovers without using the entire quantity. If another member partakes of the whiskey, does he infringe the act? (Laughter.)

Hon. Mr. McPherson: The bill is an honest endeavor to get over the dishonest possession of liquor.

Dr. Nixon: Is it impossible then for the government to draft a clause which is comprehensible to the ordinary individual?

There was a close debate on the clause dealing with bona fide medical prescriptions. Mr. Proudfoot declared the wording "however obtained" ridiculous. It should be "improperly obtained."

H. H. Dewart moved an amendment. When the clause gives rise in the house to such differences of opinion, he said, I do not think it should go upon the statute book.

Hon. Mr. McPherson: The clause has been very carefully drafted.

Dr. Nixon: Then I must be one of the unfortunate individuals who must bow to the superior intelligence of the people who drafted a clause that the house cannot understand and that is certain to cause infinite trouble.

The amendment was lost.

Dr. John Noble, of 219 Carlton street, who has been seriously ill since Monday evening, is reported as progressing "quite nicely." His attending nurse stated to The World last night that Dr. Caven, who is in charge of the case and who called on the patient yesterday, had given a very encouraging report on the condition of Dr. Noble and stated that he considered the complaint to be under control. Dr. Noble's health has been falling for some time, altho he continued his practice up to Monday last.
