First allotment of one hundred thousand shares over subscribed in few hours. Second allotment of one hundred thousand shares will be placed upon the market in a few days.

RINALDO MCCONNELL.

You Want an Absolutely Sure Investment

The investment that we have to offer you has passed beyond the experimental stage.

It is a copper refinery, refining copper equal in purity to the very best product on the market. And the supervision of this refinery is looked after-

by our principals, Mr. L. Sapery and Mr. H. Sapery, owners of the Syracuse Smelting Works. Men who have spent years in experimenting and

perfecting new methods for refining metals.

And ours is the only copper refinery in Canada.

But you can participate in the profits from this refinery by buying shares in the Montreal Copper Co., Ltd. They sell for \$100 each and last year yielded over

17 2-3 per cent. This proposition is open to investigation at any

If you are in the city, telephone Main 1813, and we will make an appointment to meet you.

Or, write for our booklet-it contains interesting facts about copper.

Canadian Cured Bacon.

London, April 10.—(C.A.P.)—The Danish vice-consul, in his report to his government, quotes the conversations he had with several dealers in reference to Canadian bacon competing with Danish bacon. Some of them said there was too much sait used, others too much borax; some that sufficient care was not taken by the curers, One said the Canadian curers had yet much to earn.

Cotton Gossip.

Marshall, Spader & Co. wired J. G. Beaty, King Edward Hotel, at the close of the market:

New York, April 10.—The market was

Beaty, King Edward Hotel, at the close of the market:

New York, April 10.—The market was influenced by good buying orders from sput demand. News developments were not plentiful, and were, in fact, mainly of a kind to restrict operations, except that southern spot markets are quoted strong, and only moderate offerings from plantations are advised. English trade reports on light receipts furnish the basis for strength, and while weather conditions have improved, planting has been delayed, and the crop has already had a bad start. Trading is mostly professional, and, as before stated, buying of spot houses in the May option indicates the continued good demand for actual cotton. We expect the market to show further strength.
