believers in dollar wheat to-day than at
any time on the crop. Of course there will
be plenty of set-backs, and the weakkneed people will be shaken out from time
to time. On the soft spots we advise
buying wheat. The world's shipments
show light on account of the holidays—
3,780,000 bushels. Clearances at four principal Atlantic ports, wheat 423,000 bushels.
The financial situation is more settled.

The English visible decreased 322,000
bushels. Northwest receipts were 800 cars
"for three days." Last year's receipts for
one day were 479 cars. The market has
been narrow all day, the range being confined to %c for May, but manifested
strength at times. The close is firm.

Corn and oats dull but firm. Speculative
trading had no significant features. Cash
trade very quiet.

Provisions steady but very dull. Receipts
of hogs to-day 26,000, with 26,000 estimated
for to-morrow.

McIntyre & Wardwell (John J. Dixon)
received the following despatch to-day from
Chicago:
Wheat—London and Paris cable advices
were firmer this morning, and there was
some buying for foreign account in both
the Chicago and New York markets. This
caused a firm opening here, and the market
advanced nearly %c over Thursday's close.
Trade, however, was exceedingly dull, and
not enough outside interest in the market
to carry it higher. Closing was dull at
about ½c of reaction from best prices.
There were quite a number of damage reports to growing winter wheat. These
reports claim damage has resulted from
freezing and thawing weather. The visible
supply decreased 720,000 bushels, somewhat
above expectations, as shipments from this
sountry last week amounted only to 2,210,
000 bushels. The strongest feature in the
situation was the light shipment from Russian and Danubian ports, world's shipments
for the week being only 3,780,000 bushels
wheat on passage decreased 1,840,000 bushels
wheat on passage decreased 1,840,000 bushels
disinclined to venture far from shore, which
made fluctuations quite errantic. The situa
tion seems to be gathering strength an
a higher range, of prices looks probable.
