To See That the Resolutions Agreed Upon by Congress Are Carried Into Effect—Cuba Must Be Free and Independent—Uncle Sam Will Not Claim the Island.

SIR CHARLES DILKE

Says the Fighting Will be Naval if the United States Wins at Sea the War.

London, April 18.—Sir Charles Dilke, Radical, is quoted in an interview on the Spanish-American crisis as expressing the opinion that the two opposing fleets are about evenly balanced.

Therefore the decisive action will be fought at sea. If the Americans win the war will be over. If Spain wins it will be the beginning of a long struggle, which must end in the crushing defeat of Spain.

Sir Charles Dilke criticized the idea of the Spaniards shelling cities, pointing out that it would be no advantage to Spain for her to do so.

He also pointed out that the advantage of the action that both sides should be allowed to British calling stations, allowing 24 hours to elapse between the departure of one nation's ships and the arrival of the enemy to coal. He also pointed out that he anticipated considerable trouble from the chaotic state of international law, and that his sympathies were with the United States, and explained that the United States was quite right in interfering in Cuba, adding: "Although I pity the grand old empire of Spain, which is crumbling."

A Voice From Rome.

Warship Which Cannot Go Alone.

Key West, Fla., April 18.—A Havana despatch, received here this morning, says that, while outwardly Havana is as calm as ever, and there are no signs of excitement at the Cuban capital, there is a strong feeling that war is imminent. It is stated that both the Cuban and Spanish patriots are enthusiastic at the prospect of a struggle for an outbreak of hostilities. The Cubans are enthusiastic because of the question of their freedom being involved, and the Spaniards are actuated by hatred of the United States, over which they anticipate victory.

TERRIBLE ALTERNATIVE.

Broadway Methodist Tabernacle May be Turned Into a Theatre or Music Hall.

Mr. H. G. Hobson, London, Eng., manager of the Star Life Insurance Company, is at present in the city on business, part of which is to adjust, if possible, the difficulty between the company and the Broadway Tabernacle people.

Mr. Hobson was seen at the Queen's last night by a World representative, to whom he stated that so far no arrangement had been arrived at.

Never Lost With Methodist Tel.

Mr. Hobson explained that the Star Life originated with the Wesleyan Methodists, and in England had loaned a million sterling to churches without losing twopence of principal or interest. They had been invited to Canada by the higher rates of interest prevailing here, and thus far had not lost anything. He didn't think they were going to lose by the Tabernacle loan. He had reason to believe that the people had been badly led and counselled in the matter, or rather that one man who thought it was a good deal smarter than "that Britisher" was having his own way in the matter.

Mr. Hobson intimated that he was anxious to tie the church over its indebtedness, but he could not be convinced. The company was a commercial institution, and was not making donations.

Theatre or Music Hall.

Mr. Hobson thought that he could take the church over and not lose anything there. He thought that a theatre or music hall might pay in that quarter of the city. Such a course, however, is fraught with his wishes. He thinks that all that is necessary to ensure a settlement is to acquaint the people of the situation.

Mr. Hobson was at service in the Tabernacle on Sunday evening, and in comparison with Old Country methods he thought the service was too much of the manner of an evening concert. He was convinced that the choir was the chief attraction.

This is not Mr. Hobson's first visit to Toronto by several, and he thinks it funnier every time he comes. When the boom struck them some years ago, being good people, he says, they turned to church building, and now find themselves rather overburdened.

SPANIARDS AT PORTO RICO.

Provincetown, Mass., April 18.—Captain Webb of the "Arcturion," Morales, who reached this port from Porto Rico, today reports that on April 16 the day he sailed from Porto Rico, eight Spanish torpedo boats arrived at that port from the Canaries. Two Spanish men-of-war were there already. A Spanish cruiser also was in the vicinity. The "Arcturion" is expected to be in the vicinity of the Canaries.

What Don Carlos Says.

Venice, April 18.—Don Carlos, in an interview here, which is mainly a repetition of what he has said in London, says that Spain has mismanaged the Cuban difficulty from the first.

"She should have sought a census before a year ago," he said, "when the United States were unprepared, and should have had the courage to bombard New York and to disembark troops upon the coast of Florida. The United States would then have given way. If Spain were now to be vanquished, Cuba would share the fate of California, Texas and Louisiana, and be absorbed by the Anglo-Saxon element."

OUTLINE OF SPEECH FROM THE THRONE.

The Patriotism of the Nation Appealed to in the Document Which Has Been Prepared for the Cortes—Feeling in Madrid is Pessimistic.

The Spanish Government have not as yet received an ultimatum from President McKinley. A demand upon Spain to relinquish Cuba will be firmly declined, but the first aggressive measures will have to be taken by America, while Spain will assume the defensive. An attempt to land American troops in Cuba will be promptly resisted.

The report of the Spanish Commission of Inquiry attributes the Maine disaster entirely to an internal explosion. Two witnesses of the catastrophe have testified that the flames shot up from inside the battleship, and that the water did not rise about the sides of the ship. Other witnesses, who were aboard boats in the harbor at the time of the explosion, affirm that they felt no disturbance on the surface of the water, while a submarine explosion would have created waves. Stress is laid upon the fact that no dead fish were noticed, though many would have been killed by a submarine explosion.

The Spanish Government is in a measure bound to war. If no resistance is offered to "American pretensions"
