### A Big Snap in Boys' School Boots.

The boys ought to have a holiday on Friday for the sake of taking advantage of this big snap in School Boots. But as it is there'll be plenty of time to get here at eight o'clock on Friday morning, pick out a pair from this lot, and then get back in time for school. Over four hundred boys can be served from this offering:

411 pairs Boys' and Youths' Buff Laced Boots, oil finish, fair stitch, heavy soles, sizes 11 to 13 and 1 to 5, our regular prices \$1.15 to \$1.35 a pair, on sale Friday morning at..... **1.00**

### Silverware Sale Prices for Friday.

We are winning scores of new friends every day because of the splendid and attractive values we are making in Silverware. Such selling of silverware beats all previous records at this store. Every piece we put out is guaranteed by the makers to be of the best plate. That holds true for any of these lots that will be ready on Friday morning:

Our assortment of Slop Bowls, Fern Pots, Cream Pitchers and Spoon Holders, guaranteed by the makers to be full quadruple plate, in handsomely engraved or embossed with and without gold linings, regular \$3.00 to \$4.25 apiece, Friday..... **1.48**

15 Syrup Jugs, with tray, guaranteed by the makers to be full quadruple plate, bright, burnished and heavily embossed in floral design, regular \$6.50 to \$7.25 each, Friday for..... **3.00**

50 dozen Table and Dessert Knives, silver-plated on hand forged blades, guaranteed 12 dwt. silver on each dozen, regular \$3.75 a dozen, Friday for..... **2.75**

175 Napkin Rings, a large variety of designs, guaranteed by the makers, regular 35c and 40c each, Friday for..... **.18**

### Quick Buying Chances for Men.

Our Clothing section is teeming with gainful buying opportunities for men. Worthy clothing needs are being offered at special prices so as to keep sales brisk and active during this month. For Friday some very attractive values have been arranged. These are the most worthy:

### STREET RAILWAY EXTENSIONS.

There has been no appreciable increase in the mileage of the Toronto Railway system since the company assumed control of the lines some eight years ago. While the mileage has remained practically stationary the traffic has increased very largely. During the past month the receipts were \$114,719. For the same month in 1899 the receipts were \$74,206. The increase during the four years has been exactly 55 per cent. No wonder the routes are being worked beyond their capacity. The best solution of the overcrowding of cars is to increase the mileage by establishing new routes. We cannot say that we are very much interested in the Mayor's project for establishing a new line of the whole Toronto Railway system. Such a violent means of obtaining relief was not contemplated by the agreement, all it seems clear that the city has legally the right to establish a new line. The Toronto Railway Company does not assume the work itself. We object to the system as proposed, because it would not be in the city's interests to license a new company to compete with the one we already have. It is not at all the present time. But what we do favor is the opening up of two or three new routes to relieve the traffic where it is heaviest. We should have a new street car line from Dundas-street along Arthur and eastward to the centre of the city. Another line is needed along Wilton-avenue eastward over the Don. These two might be made one continuous line from the extreme west to the extreme east, crossing the Don at Gerrard-street, or it might be better to build a low-level bridge about midway between Queen and Gerrard-streets, and have the tracks extended through a section of the city east of the Don that is badly populated. Another new route that is badly needed is one from Union Station to the east end of Avenue Road. If this additional mileage were added to the existing tracks the pressure on the system would be considerably relieved. Fortunately the City Council has power in its own hands to secure these extensions. If the Toronto Railway Company will not establish the routes proposed the Council can sell the franchise to the highest bidder. Should the company decide to let a competitor come in the field rather than operate any of the new routes itself, the City Council would be justified in establishing the routes proposed by competition as well as by virtue of the agreement. The route from the extreme west to the extreme east of the city would constitute a valuable franchise. There would be no death of competitors anxious to acquire it. Such a route would give suburban connections in the east and west. It would command an immense summer traffic to and from the suburbs. It would pay handsomely even if three cents were made the maximum charge within the city limits. There is no doubt that the city would be benefited if the company should refuse to build the line. We could make a better deal with an outside company. What we said in regard to this new route would apply to the one we have suggested for relieving Yonge-street, and also to another which might be laid out to give a much-needed service through South Parkdale. We do not think anything is to be gained by proposing a scheme which is five times too big for the necessities of the case. What the Council should do is to lay out three or four such routes as we have indicated, and formally request the Toronto Railway Company to proceed with the construction of them. The new routes are required for next summer's traffic, which promises to be very heavy. The Council should lose no time in finding out where the Toronto Railway Company stands in regard to these proposed extensions.

### YANKEE SHREWDSNESS.

The Kaiser will not join a movement to reopen the Egyptian question. We are told in a despatch from Berlin that the Kaiser is of opinion that it would be unwise and unfair to seize a moment when England is deeply engaged elsewhere for such steps. We wish we could say as much for the United States. The latter has undoubtedly

### BYSTANDER ON THE WAR.

Bystander on the War. The transient ill-success of the British arms in South Africa was followed, as a matter of course, by discontent and criticism. The Government was arraigned for want of preparation. The success of the war was attributed to the British Empire in the field for lack of preparation. The Kaiser will not join a movement to reopen the Egyptian question. We are told in a despatch from Berlin that the Kaiser is of opinion that it would be unwise and unfair to seize a moment when England is deeply engaged elsewhere for such steps. We wish we could say as much for the United States. The latter has undoubtedly

### TEMPERANCE AND GENERAL LIFE ASSURANCE CO.

The Annual Report of the Temperance and General Life Assurance Company is a complete and concise statement of the year's business, and its financial position, all of which are most commendable to the directors and its ever energetic and able managing director, Mr. H. Sutherland. To speak of any success, and one well worthy of praise, by both policyholders and intending investors, is to speak of the company's success in getting a low death rate and entirely safe investments.

### THE EATON

the food supplies warmth and strength; without it the digestion, the muscles, the nerves and the brain are weak, and general debility follows. But fat is hard to digest and is disliked by many. Scott's Emulsion supplies the fat in a form pleasant to take and easy to digest. It strengthens the nerves and muscles, invigorates mind and body, and builds up the entire system.

### THE TEMPERANCE AND GENERAL LIFE ASSURANCE CO.

Synopsis of the Fourteenth Annual Report Read at the Annual Meeting Held at the Company's Offices at Toronto, Jan. 24th, 1900.

It has been the pleasure of most of those who are now on the directors of your company to meet, its shareholders and policyholders to render an account of their stewardship year by year for many years, but it has never been our good fortune on any previous occasion to be able to point to a record of which we had so much reason to be proud as we have of the record of the past year. It is therefore with particular pleasure that we submit for your consideration our Fourteenth Annual Report.

Receipts—Our premium income after paying \$25,234 for re-insurances was \$215,757.57, and our interest income was \$27,222.22, which was an increase over the corresponding items for the previous year of \$25,234 and \$27,222.22 respectively.

Payments—Our payments to policyholders were as follows: For death claims, \$38,542.58; endowments, surplus surrenders, values, and annuities, \$15,620.98. To shareholders, \$3,000 as dividends on Guarantee Fund.

Our ratio of death losses was again remarkably low, and we believe are still justified in claiming an unequalled record of favorable mortality in our general insurance and a much more favorable record in our re-insurance section.

We closed the year 1899 as we had closed the five years preceding, without a dollar of interest due and unpaid, without having ever owned a dollar's worth of real estate, either on account of compromise of a debt, foreclosure of a mortgage or purchase. We know of no similar record made by any other company anywhere.

Assets—Maintaining the same high ground as we have always taken, we have increased the assets of the year were \$9,450,000, which was an increase of \$1,217,214.44 over the previous year.

Liabilities—Our liabilities on the standard of valuation in use by us were in the aggregate \$8,143,29, and consisted of the following items: Policy reserve, \$7,423,29; paid, and allotted surplus unpaid, \$874,23. New Business—Although our business has been derived from Ontario, New Brunswick and Nova Scotia, we made some progress towards establishing ourselves in the Western Provinces and Territories, where we now have a limited number of representatives.

Total Business—Our total business in force at the close of the year was \$9,450,000, and consisted of 107,125 policies on 1,071,125 lives, distributed as follows:

Life Insurance Section, \$7,288,537 under 10,000 policies.
The General Section, \$2,161,263 under 1,071,125 policies.

Our gains in insurance during the year were \$1,065,000 in the Temperance Section under 107,125 policies and \$258,535 in the General Section under 188 policies. Our total gains were \$1,323,535, of which we have 124,303 policies on 1,117,125 lives.

Total income..... 1898..... 1899..... \$215,757.57 \$215,757.57  
Insurance accepted..... 1,916,750 2,711,250  
Total business in force, 1,071,125 9,450,000  
Assets..... 6,071,214 7,423,29

Our business, which has now entered its sixth year of publication, is sent to all policyholders and to all applicants for insurance, and is distributed free of charge, and during the past year has been distributed more favorably than it has previously done.

GEO. W. BOSS, H. SUTHERLAND,  
President, Managing Director.  
The Report was unanimously adopted and the former Board of Directors re-elected.

Assets..... 6,071,214 7,423,29

Our business, which has now entered its sixth year of publication, is sent to all policyholders and to all applicants for insurance, and is distributed free of charge, and during the past year has been distributed more favorably than it has previously done.

GEO. W. BOSS, H. SUTHERLAND,  
President, Managing Director.  
The Report was unanimously adopted and the former Board of Directors re-elected.

### THE TEMPERANCE AND GENERAL LIFE ASSURANCE CO.

Synopsis of the Fourteenth Annual Report Read at the Annual Meeting Held at the Company's Offices at Toronto, Jan. 24th, 1900.

It has been the pleasure of most of those who are now on the directors of your company to meet, its shareholders and policyholders to render an account of their stewardship year by year for many years, but it has never been our good fortune on any previous occasion to be able to point to a record of which we had so much reason to be proud as we have of the record of the past year. It is therefore with particular pleasure that we submit for your consideration our Fourteenth Annual Report.

Receipts—Our premium income after paying \$25,234 for re-insurances was \$215,757.57, and our interest income was \$27,222.22, which was an increase over the corresponding items for the previous year of \$25,234 and \$27,222.22 respectively.

Payments—Our payments to policyholders were as follows: For death claims, \$38,542.58; endowments, surplus surrenders, values, and annuities, \$15,620.98. To shareholders, \$3,000 as dividends on Guarantee Fund.

Our ratio of death losses was again remarkably low, and we believe are still justified in claiming an unequalled record of favorable mortality in our general insurance and a much more favorable record in our re-insurance section.

We closed the year 1899 as we had closed the five years preceding, without a dollar of interest due and unpaid, without having ever owned a dollar's worth of real estate, either on account of compromise of a debt, foreclosure of a mortgage or purchase. We know of no similar record made by any other company anywhere.

Assets—Maintaining the same high ground as we have always taken, we have increased the assets of the year were \$9,450,000, which was an increase of \$1,217,214.44 over the previous year.

Liabilities—Our liabilities on the standard of valuation in use by us were in the aggregate \$8,143,29, and consisted of the following items: Policy reserve, \$7,423,29; paid, and allotted surplus unpaid, \$874,23. New Business—Although our business has been derived from Ontario, New Brunswick and Nova Scotia, we made some progress towards establishing ourselves in the Western Provinces and Territories, where we now have a limited number of representatives.

Total Business—Our total business in force at the close of the year was \$9,450,000, and consisted of 107,125 policies on 1,071,125 lives, distributed as follows:

Life Insurance Section, \$7,288,537 under 10,000 policies.
The General Section, \$2,161,263 under 1,071,125 policies.

Our gains in insurance during the year were \$1,065,000 in the Temperance Section under 107,125 policies and \$258,535 in the General Section under 188 policies. Our total gains were \$1,323,535, of which we have 124,303 policies on 1,117,125 lives.

Total income..... 1898..... 1899..... \$215,757.57 \$215,757.57  
Insurance accepted..... 1,916,750 2,711,250  
Total business in force, 1,071,125 9,450,000  
Assets..... 6,071,214 7,423,29

Our business, which has now entered its sixth year of publication, is sent to all policyholders and to all applicants for insurance, and is distributed free of charge, and during the past year has been distributed more favorably than it has previously done.
