he rosy beams of 1910.

Every product of the soil is mainture, which says that when grain prices taining a satisfactory quotation and are high less returns are put back on moreover there are no signs in the the farm, and unproductive improve-

taining a satisfactory quotation and moreover there are no signs in the market firmament that they will depreciate soon. Indeed the commendable feature from the producers' standpoint is that prices are maintained point is that prices are maintained purely by the economic working of the laws of demand and supply cereals of all kinds are strong in tone. Wheat, in spite of the big martests all over the world and the favorable returns from the Argentine, is manifesting a tenacity for over the dellar quotations. Hay is selling at the farm of or mixed clover and timothy. Beet's soaring around the six cent mark at the farm, while butchers' cattle are as scarce as farmers in the British Parliament. Pork—its ments are the tendency.

This is due from the sale of grains, hay and the breeding live stock, thus leaving the farm deficient in manures. This slight to the soil already weakened by years of grain farming becomes of serious moment. The ar-seeing agriculturist will keep his soil fertility constantly before him. This fertility constantly before him. The ar-seeing agriculturist will keep his soil fertility constantly before him. This fertility constantly before him. This fertility constantly before him. HALF OF IRISH FARMERS TILL ONLY 15 ACRES

With 600,000 Holdings Only One-Tenth of Land Grows

There are few large farms in Ireland, there being out of the 600,000 holdings in the entire island as many as 140,000 which do not contain as many as 5 acres, and 150,000 which contain no more than 15 acres. However, the im-portance of farming to the country is realized when it is known that at least 75 per cent. of the people are dependent on it for a livelihood. The potent reasons of its importance are the scarcity of mineral resources and the prox-

imity of the British market. However, the amount of land under cultivation is limited, for out of a total area of 20,350,725 acres only 2,329,506 acres are devoted to cereals, green and root crops, 2,300,760 acres contain hay, ture land. Ireland's most important crop is oats, to which over 1,000,000 acres are devoted, potatoes being next Credentials are necessary these degen-in importance, with 587,000 acres. Be- erate days. cause of the extensive area devoted to grass live stock is a prominent feature in local farming. Cattle raising is of

paramount importance. cattle business to the rearing of calves going to Belleville and one to St. for unfinished beef, the fattening being Thomas. carried on across channels by the buyers. In 1908 there were 500,000 of these exported. The large increase in the imto such an extent that it would hardly pay the Irish farmer to carry on the tarto. fattening himself. feeding is in the first renk.

Living in the midst of Reach township with such neighbors as the Leasks, McMillans, and others of well-known merit, Joseph Stone has achieved a record since 1994 that would place any farmer on a pedestal of superiority when it comes to a working knowledge of feeds and feeding. Many men know the theory of animal feeding, Jos. Stone knows the theory by his practice. The following are the leading prizes won by him during the last five years:

In 1904 he took 1st at Ottawa on 2-year-old shorthorn steer and 1st on the steers and on the special for the best calf in America. He also secured 3rd on 2-year-old steers and on steer herd.

Last year he wen ist on 2 year-old steers and on 2 year-old steers and on the special for the best calf in America. He also secured 3rd on 2-year-old steers and on steer herd.

heifers, 1st on 2-year-old steers and Grand Championship.

In 1908, Toronto gave him 1st and heifer calf, 1st on best grade steer and 3rd yearling shorthorn, besides rounding out 1909 by winning the replaced him 1st on 2-year-old steers and placed him 1st on 2-year-old steers and on export steers.

FISHER PRODUCE CO.

Demonstration Tracts Will Be Established in State as Object Lessons.

SAINT PAUL, Minn., Jan. 14 .- Following up the criticisms of present sgricultural education, that it does not reach the men who most need it. The Minnesota Federation of Commercial

late this week will announce that it has completed arrangements for the establishment of demonstration tracts" in every main agricultural dis-trict of Minnesota where during the coming season farmers for many miles around will receive practical object lessons in planting, tilling and harvestvanced agricultural ideas that are apas plicable to Minnesota conditions. Expoperts are to be in charge of each of the tracts, and the profits will go to the owners of the land. The work is to be done without cost to the farmers, as all step towards practical education in posting men too old to go to school, on lacking opportunity to do so, in how to improve their methods and get more out of the land.

The federation has been at work ong months. In each of the districts where The many friends of T. J. Corbett of the firm of Corbett & Hall, commission sales; men and live stock dealers, will be sory to hear that Mr. Corbett is seriously ill with typhold fever.

The following sales of live stock were omitted from our regular live stock of the cach, at \$5.20; 6 butchers, 900 lbs. each, at \$5.20; 6 butchers, 910 lbs. each, at \$5.20; 6 butchers, 910 lbs. each, at \$5.15; 4 cows, 1100 lbs. each, at \$4.16; 3 cows, 1150 lbs. each, at \$4.16; 7 butchers, 920 lbs. each, at \$4.55; 7 butchers, 920 lbs. each, at \$4.55; 7 butchers, 920 lbs. each, at \$4.65; 7 butchers, 930 lbs. each, at \$4.40; 5 butchers, 930 lbs. each, at \$4.40; 5 butchers, 930 lbs. each, at \$4.90; 6 cows, 1020 lbs. each, at \$4.90; 6 cows, 1020 lbs. each, at \$4.90; 6 cows, 1020 lbs. each, at \$2.30; 6 butchers, 930 lbs. each, at \$4.90; 6 cows, 1020 lbs. each, at \$4.55; 1 cow, \$50 lbs. each, at \$4.55; 1 cows, 1060 lbs. each, at \$4.55; tracts are to be located, active town perimental and other work along the lines of better stock, increased pro-

ing car in the morning. It is also the only route to Gowganda via Elik Lake, passing all the principal mines. Full information, City Ticket Office, north-west corner King and Yonge. Phone
