

Laurier at Quebec Asks for Recruits

Sir Wilfrid's Address to Large Gathering Has Partisan Tinge.

UPHOLDS NAVAL POLICY

Laurier Says He Has No Confidence in the Borden Government.

Quebec, Dec. 8.—The historic old hall at St. Peter's Market was today the scene of a notable gathering when Sir Wilfrid Laurier addressed a large meeting under the auspices of the Quebec Citizens Recruiting Association.

Thousands of people thronged the hall, nearly 3000 being present, twice as many more being unable to gain admission. The meeting was orderly, and was presided over by Sir Lomer Gouin, chairman of the recruiting association.

Sir Wilfrid delivered a stirring appeal, declaring that when England was at war Canada was at war. He outlined the duty of all true Canadians, and affirmed that if he were a young man he would take up arms and fight for the triumph of justice and humanity.

Sir Wilfrid was given a rousing reception and was cheered to the echo as he resumed his seat.

An appeal to the young men to join the colors was also made by Lieut. Chamuel, a returned French army officer, who announced that a French-Canadian brigade, commanded by French-Canadian officers, would shortly be formed in England.

To Face Situation.

As Sir Wilfrid concluded his speech, Mr. Martin Madden, member of the Quebec legislature for Quebec west, presented the Liberal leader with a floral crown from the electors of the west. In acknowledging the tribute, Sir Wilfrid thanked the Irish of the Quebec division and said he would take it to Ottawa and give it to their French compatriots there.

In his opening remarks, Sir Wilfrid said that he had come to Quebec to tell the truth as he understood it and to define the duties which belonged to Canada as a nation in the present war.

"You all know," said Sir Wilfrid, "that the man who was elected Premier of Quebec at the last elections was not re-elected, but the naval question and the crisis of our adversaries were all about the matter."

Rainbow to Rescue. "When England is at war, Canada is at war," Sir Wilfrid asserted with vigor, and said that with the war the provinces and cities on the Pacific coast were exposed. He recalled what a panic there had been when at the outbreak of the war in August the German cruisers in the Pacific ocean. The coast was defenceless. There was only the Rainbow, and he reminded his audience that the name of the Rainbow had been heard on the Pacific at the last elections. In the hour of menace, however, there was nothing left for them to do but to call for the Rainbow to defend the western cities, and besides they hastened to Seattle and purchased two submarines to repel the apprehended German attack.

Admirer of England. "I am an admirer of England," said the speaker. "I do not say that the history of England does not contain anything to which exception may be taken. The history of France is more exempt from errors than that of England. If it were in my power I would like to wipe out these pages of England's history which record the ill-treatment of Ireland which are a blot on her fair name."

"The institutions of England," he continued, "are the most just, the most liberal, the most chaste and the most wise that any country or government has ever known. And no country in the world can give such a disinterested and in order to justify our action at any rate morally, we must show that we are not acting against the wishes of the Greek people. To this may be applied absolutely without the possibility of controversy, that our troops went to Salonica with the express approval of the then head of the government of Greece, and that he had himself suggested the stipulation in the Greco-Serbian treaty for a provision which by the default of Greece on this point, be fulfilled by the despatch into

against Russia the enemy is hastening to finish his designs in the Balkans.

Rumania will thus be the fighting ground in an important campaign of which will depend the duration and, perhaps, the decision of the war. By gaining her success over this small country Germany has obviously improved her military advantages for further operations against the allies, instead of being forced to remain on the defensive everywhere, and to stand the allied punishment, Germany would be in position next spring to take the offensive with a few divisions, and a great deal of damage, and perhaps, even to keep Russia on the defensive, if she were allowed to occupy the Danube lines and to recuperate and prepare during the winter. What is required is the massing of a great force of artillery by the Russians for the Rumanian offensive as speedily as possible so as to overwhelm the German batteries with its fire. The next move, the one now favored, is to undertake a much greater and more forcible offensive from Salonica. It is improbable that Lloyd George favors the mere remaining on the defensive on the western front.

The chief difficulty of the Somme offensive is that in its conception and design, the sure in its process, it is in the nature of a slow hammering at the German front, and it, therefore, will permit the enemy to have valuable time in the interludes for striking damaging blows at the allies. This last blow is too serious for the Russian position to be disregarded. It gives the Germans the initiative over the allies again and this power must be taken from them.

The Rumanians are continuing their successful retreat, protected by the Russians. The survivors of the force of Orsova, under a division strong in the first place, have been taken prisoner on the Alt River, but certainly not 8000 of them, as the Germans claim. It is improbable that the force out of consisted of more than 8000 men or two brigades altogether.

The Russians have started an offensive in the Carpathians by attacking a proceeding and the result has not been announced. As this struggle is forced on the foe by detachments, it is probably designed to conceal the Russian intention against some other sector.

The Italians are experiencing extremely bad weather conditions, with torrential rains, on the Carso Plateau, and intense cold in the Trentino. The autumn of this year has been unusually adverse to offensive operations in this theatre, and this unfortunate run of bad weather has enabled the Austrians to remove troops from the Trentino front to fight Rumania. Despite the prevalence of a heavy rain storm a tremendous artillery action is proceeding on the Carso Plateau in the direction of Trieste.

North of Salonica the Germans have heavily reinforced the Bulgarians and the enemy is making fierce counter-attacks along the whole line north of the Monastir. The Serbians managed to recover, in the face of an active enemy, the ground lost at the beginning of his assaults.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat if You Feel Back-ache or Have Bladder Trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels, removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, the shanant often get irritated, obliging you to get up two or three times during the night.

neutralise these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia-water drink which millions of men and women take to prevent and thus avoiding serious kidney and bladder diseases.

Saturday at Dineen's Winter Coats Hats

Friday and Saturday have become the days for men's buying in hats and furs at Dineen's, and special attractions are therefore always put forward at the week-end.

This Christmas season there is a renewed demand for fur and fur-lined coats. A Dineen fur-lined coat is a standard of value. The shells are made of imported English cloth, and the lining is of selected Canadian muskrat.

- Fur-Lined Coats \$65 \$75 \$100
Coon Coats \$75 \$100 \$125
Fall and Winter Cloth Coats \$22.50, \$25.00, \$27.50, \$30.00

Store Open Until 10 o'Clock Saturday Night
W. DINEEN Company Limited 140 Yonge St.

Dineen's are most especially importers of English hats, and their stock is large and well assorted.

The predicted early advance in prices will not be applied at Dineen's as long as the present stock lasts and orders placed with the English manufacturers continue to be filled. Friday and Saturday are always busy days at Dineen's. It is then the busiest men's store in Toronto. But there are always plenty of salesmen to give prompt attention.

- Fall and Winter Hats
The favorite is the English Christy Hat, in hard and soft felts, but there are also Italian soft felts, lined for more warmth for winter wear.
Christy's Hats, Hard and Soft Felts \$3, \$3.50, \$4

English Cloth Caps
The genuine made-in-England Cloth Caps, having the unmistakable London tone in material and style.

Motoring Accessories

Gloves and Gauntlets, Caps and Robes, Fur Coats for chauffeurs, from \$25 upwards—warm and storm-proof.

Journalistic Deglutition

John: "What yeh makin' faces at, Joseph?"
Joseph: "I am obliged to swallow so much of late, brother."

John: "What?"
Joseph: "Kemp and nickel, Hearst and nickel, Hartley Dewart and nickel—"

John: "Poh. Ain't I got to swallow nickel to boot, Billy, an' swaller Sam Shoes to keep Kemp in, an' swaller Sam NickBride to get a nickel-plated stomach over to stand a lot wunce yeh get th' nak, an' gettin' the hoo'll' giv' yuh th' nak."

the cause for the recent grave disturbances. "Allied troops were landed to enforce this demand, and also a definite promise had been given by the king and government that order would be maintained and that the Greek royalists troops would in no case begin hostilities, the allied troops were treacherously attacked and suffered considerable losses. The royalists also took advantage of the situation to treat the adherents of M. Venizelos, who are in the minority in Athens itself, with the grossest brutality, of which particulars are now beginning to arrive."

"The behavior of the royalist government during the past week is the strongest justification of the attitude of the protecting powers toward Greece during past months."

HAD HEAD GASHED BY FALL. While loading trunks from a platform at the Union Station yesterday afternoon, Landora Leblanc, 168 Markham street, an employee of the Canadian Express Co., fell, cutting his head severely. He was removed to the St. Michael's Hospital in the police ambulance.

Broken Promises. "But even this promise was not carried out. The Greek posts, telegraphs, and wireless stations were being used to the prejudice of the allies. The police and the military forces were being used to become centres of anti-allied propaganda and the enemy legations had become the agencies of an elaborate system of espionage. These dangers had to be averted, and it was also necessary to ask the Greek Government to hand over to the allies an equivalent amount of war material to that which it had furnished the central powers by the prearranged surrender of Fort Rupel and Kavala. This the king had spontaneously offered to hand over to the allies, and when the obligation was not fulfilled for some time, the king was forced to surrender the material was

weakened by anaemia. One day I was looking through Dr. Chase's Almanac and read about the cure of anaemia by the use of Dr. Chase's Nerve Food. I began the use of this treatment at once and am now well on the way back to health, after having used the Nerve Food for six months. I want my friends to know that my cure was effected by Dr. Chase's Nerve Food alone, and after other treatments. I feel it my duty to let everybody know about this remarkable cure. As a restorative for persons who are pale weak and run down, there is no treatment to be compared to Dr. Chase's Nerve Food. Gradually and naturally the red corpuscles are increased in the blood, the color is restored to the cheeks and the strength comes back to wasted nerves and muscles. Dr. Chase's Nerve Food, 50c a box, \$2.50, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

Said She Was Threatened With Consumption, and Gave Her Three Weeks to Live.

Anaemia is indicated by thin, watery blood. The gums and eyelids grow pale, there is great weakness and fatigue and digestion fails.

Since Dr. Chase's Nerve Food forms new, rich blood, it is naturally the most suitable as a treatment for anaemia. This letter proves its efficiency in the most severe cases.

Mrs. J. Adama, Fort Hope, Ont., writes: "About six years ago I was taken with very weak spells and though I doctored with the family physician and used other medicines for two years, got very little relief, and in fact, continued to grow weaker. I was so weak I could not wait on myself or raise my hand to my head, and decided to go to my daughter in Toronto. When examined by Toronto doctors they pronounced me to be in a dangerous condition, threatened with consumption and other ailments, and said I would not live for three weeks."
