

## CAUTION!

We have reason to believe that our BEEF, IRON AND WINE is being imitated by some (not over-scrupulous) Druggists of the Dominion of Canada. In some cases these imitations are put up in bottles similar to our own in style and appearance, having our labels copied verbatim, omitting only our name, so that purchasers might readily be deceived; it therefore becomes necessary for us to "Caution" you, in ordering BEEF, IRON AND WINE, to be particular in specifying our make (WYETH'S), and in seeing that you get the genuine article made by us.

This caution is also very necessary when buying BEEF, IRON AND WINE, in smaller quantities than the original bottle, as we know other inferior makes are often substituted for our genuine article.

We claim that the reputation for this medicine was created by our preparation, and we believe it is the one exclusively prescribed by our leading Physicians.

In ordering, please specify "WYETH'S."

## WYETH'S BEEF, IRON & WINE.

### Extract of Beef, Citrate of Iron and Sherry Wine.

In this preparation are combined the stimulant properties of WINE and the nutriment of BEEF, with the tonic powers of IRON, the effect of which on the blood is so justly valued. For many cases in which there is

#### Pallor, Weakness, Palpitation of the Heart,

with much nervous disturbance, as, for example, where there has been much loss of blood, or during the recovery from wasting fevers, this article will be found especially adapted. The peculiar feature of this combination is that it

#### COMBINES NUTRIMENT WITH STIMULUS.

In the majority of cases, along with the failure of strength, and indeed as one cause of that failure, there is an inability to digest nourishing food. Hence it is very desirable to furnish nourishment in a form acceptable to the stomach, at the same time we excite this organ to do its duty. On the other hand, again, wine stimulus, although needed, is ill borne if given by itself, producing headache, excitement, and other symptoms which may be avoided by the addition of nutritious substance, such as the ESSENCE OF BEEF.

Iron also can be taken in this way by the most delicate or sensitive woman or child, to whom it may be inadmissible as usually given. Prompt results will follow its use in cases of sudden exhaustion, arising either from acute or chronic diseases, and will prove a

#### Valuable Restorative for all Convalescents.

As a Nutritive Tonic it would be indicated in the treatment of impaired nutrition, impoverishment of the blood, and in all of the various forms of general debility. Each tablespoonful contains the Essence of one ounce of Beef, with two grains of Citrate of Iron, dissolved in Sherry Wine. With a view to making the article more palatable, a portion of the beef is in the first place partially roasted, as experience has shown that it is better borne by the stomach, and can be administered for a longer period when this is done.

Sold in pint and five-pint bottles by all Druggists, retail price \$1.00 and \$4.00
