FREDERICTON POLICEMAN
SUFFERS \$1,000 FIRE LOSS;
INCENDIARISM BELIEVED

Fredericton, Aug. 1.—A dwelling known as the Clayburn house on the Richibucto road in the outskirts of Barker's Point and owned by Policeman William Sturgeon of the Fredericton force, was burned to the ground early this morning. Incendiarism is suspected as the building, which had been unoccupied for some time, had been the resort at night of parties from Fredericton and elsewhere. Mr. Sturgeon estimates his loss at about \$1,000 with practically no insurance. The owner had been repairing the building lately intending to make use of it.

MERCURY NOT SO HIGH
BUT SEEMS JUST AS WARM
AS YESTERDAY WAS

Although the thermometer today registered 79 degrees, the heat seemed if anything more oppressive than yesterday. At noon it was intense, especially in sections of the city sheltered from the light wind which was blowing. Although a bit too warm for many, the fine weather is welcome by the hardiness of the summer season.

The Store Today
Salutes Another
Season

ANOTHER half-year's business ended — another season of successful service closed. Today the store starts out with a new store policy, full of ambition and energy, inaugurating a new season's service. Summer goods will still hold the counters for present needs, and in these the stocks are splendid and the prices reasonable and easy. It's the new goods, however that have already started to come in, that will fill the store with novelty and charm.

The New Goods for Fall, and in addition to the interest of newness, the very special interest of values cannot fail in attracting the attention of intelligent shoppers. During the next week, day after day, there will be something happening at DYKEMAN'S—something you ought not to miss. With newness there will be variety, and with variety prices attractively moderate, especially so, as every-body knows that the worthiness of Dykeman's goods can be depended on to the very last dollar.

There's a personality about a store just as there is about an individual. This store has always enjoyed a good reputation among its many customers, and in the years we have been in business our store has made thousands of friends who have been attracted to it by our merchandise and our methods. Year after year it has held these old friends and added new ones. Our growth has been steady and sure; but just as an individual should bring himself (up short) and take stock of his own efficiency, so should a store such as ours give itself a thorough self-examination.

ARE WE AS A STORE MEETING OUR OPPORTUNITIES? Are we serving the community, which has made our present success possible, to the limit of our ability? These are the questions we asked our store. Having asked the questions, we look around for the answers. Since our foundation, some twenty-six years ago, we have pursued the same merchandising methods in practise today in ninety per cent of the different dry goods and department stores of this country. Ten years ago—yes, five years ago—they sufficed. Today they will not do.

Today calls for a larger volume and smaller profits. Today calls for a complete understanding of what real service means. Today calls for a shorter road between manufacturer and consumer. When we weighed every phrase of this question carefully, we came to a certain DEFINITE conclusion about our store. Today we endeavor to so understand the word "Service" that its application will start when a customer enters our store—in the attention she receives—in our willingness to please and to appreciate that the best advertising that any store can have is a satisfied customer—always.

THIS IS OUR POLICY TODAY. We invite your co-operation in making it effective in bringing to the successful realization of the ideals we have for our store.

(Signed) F. A. Dykeman
 President.

MAY MEAN TROUBLE
FOR BRITISH CABINET
 Delegation Off to Paris re Stockholm Conference

Arthur Henderson, After Visit to Russia, Changes Views About British Keeping Aloof From Conference Attended by German Socialists.

London, Aug. 1.—The fact that a member of the cabinet, Arthur Henderson, minister without portfolio, in the war council, had gone on a mission to Paris with a pacifist, Ramsey MacDonald, chairman of the Labor party in the House of Commons, and Russian delegates, aroused great irritation among the members of parliament and seems to threaten trouble in the government. The purpose of the journey is to confer with French socialists in regard to the proposed conference of allied socialists in Stockholm.

The crux of the matter lies in the fact that Mr. Henderson, since he returned from Petrograd reversed his attitude on the question of the British labor party and socialists joining the conference with enemy delegates. Mr. Henderson has not publicly explained his change of view, but it is known to be the result of his visit to Russia. The government has been closely questioned in the House of Commons in the last few days on the subject of Mr. Henderson's mission to Paris and the admission by Andrew Bonar Law, that it was settled without the government's knowledge and that the government was ignorant of what he was doing in Paris was a serious matter.

BATHERS IN CHICAGO
DEFY POLICE ORDERS
 Attempts to Drive Them From Fashionable Beach Result in Rioting

Chicago, July 31.—Attempts of the police to drive bathers from Oak street beach, which is situated along fashionable lake shore drive, caused a riot on Monday night in which several thousand people participated.

A city ordinance forbids bathers to use the beach, except between certain hours, but the excessive heat drove many into the lake in defiance of the law. A patrol wagon load of policemen advanced to the water's edge and commanded the bathers to come ashore. They simply laughed at the officers. Then one policeman removed his coat and waded out. He managed to seize one of the bathers and dragged her ashore. This was the signal for a riot. The spectators closed in on the police, battering several of them and howling threats against them and the residents of "the drive."

GERMANY DEMANDS LOAN

OF HOLD-UP OF FUEL SUPPLY

Berne, Aug. 1.—President Schulthess, speaking of the Berne newspapers concerning the relations of Switzerland with the United States, said there was no reason to believe that the government of the United States intended to make difficulties for Switzerland by preventing the purchase of the necessary foodstuffs in America, as all American provisions were being handled in accordance with an arrangement with the Entente.

PART OF QUEBEC SUFFERED SEVERELY IN THE STORM

Woman Killed as Tree Was Blown Down—More Than Million Loss in Chaudiere District

Sherbrooke, Que., Aug. 1.—With a partial resumption of the telephone service, it would appear that the storm which passed over this district and central Quebec on Monday night caused the loss of only one life. Mrs. House, of Beche, was killed by a tree that was blown down. In this section of the township the damage to crops and buildings will amount to many thousands of dollars.

The Quebec Central Railway suffered heavily. On the main line between Leeds and east Broughton, about seventy feet of track was washed away at Valley Junction, while the railway bridge over the Chaudiere River were carried down the river. The mill and buildings belonging to the Industrial Company at Beauce, together with more than 100,000 cords of pulpwood, were swept away. The loss in the Chaudiere district is estimated at more than \$1,000,000. The power house at Chaudiere curve was wrecked, and as a result Leeds is without light and power for street cars.

PICNIC A MARKED SUCCESS

With generous weather and a very large attendance, the annual picnic of the Church of the Assumption, Carleton, held at Seaside Park yesterday, was an unqualified success. The day could not have been exceeded. There was a good sized crowd present in the afternoon and at supper hour it had greatly increased while the evening found hundreds arriving. The scene was bright and picturesque. Many amusements were provided, a very superior meal was served at the supper tables, the City Comet band played a delightful programme and all was pleasant and merry.

Rev. J. J. O'Donovan, pastor of the church, was much pleased. He maintained a general supervision over everything and made sure that the youngsters particularly enjoyed themselves.

The renewals of the leases must be made on or before August 1.

According to recent regulations the new rates of stumpage on crown land timber leases went into effect today. Gracie Little, daughter of Mr. and Mrs. Frank Jewett of Devon, swallowed Paris green yesterday. An emetic was administered and the child recovered.
