Kindergarten Teachers Are Always Busy

The free kindergartens in the city have an unusually large enrollment at the present time and in some cases there are more children anxious to be admitted than the kindergartens will accommodate. In the North End, particularly, there is great need for another kindergarten. The difficulty of financing the undertaking, however, has prevented the Kindergarten Association from making any effort to open another kindergarten. The teachers and assistants of the kindergartens met yesterday afternoon at the residence of the president of the association, Mrs. F. E. Holman, in St. James street and while they tied tags for the Victorian Order tag day, they discussed kindergarten problems and reported on the work of the kindergartens this season. The enrollment reports showed an average attendance as follows: North End, fifty; Prince Edward street, forty-five; Mabel Peters, forty; Wellington Row, thirty-five; South End, forty. The need of another kindergarten in the North End was spoken of and finances were once more seriously considered. The association receives \$1,500 civic grant but beyond this depends

Energize with Raisins

Use more raisins with your foods and get more energy. Raisins furnish 1500 calories of energizing nutriment per pound. Rich in food-iron also. A prime fruit-food that everybody would be better for. Serve stewed as a morning dish. Use in puddings, cakes and pies. Let the children have them with oatmeal.

Ask Merchants for Sun-Maid Raisins

on voluntary aid to furnish it with funds. It was thought that if the public realized what benefit the kindergartens were in making citizens the question of finance would be quickly solved.

A Truly Delicious Tea "SALADA" ORANGE PEKOE BLEND

This is a blend of the tiny young leaves full of richly flavoured essence. Your grocer sells this new blend at 40c. for the 1/2 pound packet.

We will gladly mail a sample. SALADA, MONTREAL.

HIGH SCHOOL ALUMNAE HAS NEW OFFICERS

The annual meeting of the St. John High School Alumnae was held last night in the Y. W. C. A. recreational centre, with Miss Florence Estabrook presiding, in the absence of Miss Grace

Campbell. Interesting reports were presented and some excellent suggestions for the activities of the coming year were brought forward. The meeting was well attended and after the business had been completed refreshments were served and a social hour enjoyed. The election of officers resulted as follows: President, Miss Grace Campbell; 1st vice-president, Miss Florence Estabrook; 2nd vice-president, Miss Jessie Lawson; 3rd vice-president, Miss Grace Estey; secretary, Miss Mary Lingley; assistant secretary, Miss Dorothy Sinclair and Miss Edith Trentowsky; treasurer, Miss Laura Myles, and additional members of the executive, Miss Barbara Dobson, Dr. James Magee, Miss Harriet Smith, Miss Alice Walker, Dr. D. C. Malcolm, Mrs. Herbert Brennan, Mrs. Bertram Smith and Miss L. Graham.

RETAIL MERCHANTS CONVENTION

The eighth annual convention of the New Brunswick Provincial Board of the Retail Merchants Association of Canada will be held in the assembly hall of the N. B. Telephone Co., Ltd., next week, beginning Tuesday afternoon, Oct. 10, and concluding on Wednesday evening with a banquet at Bond's through the courtesy of the St. John branch. Officials of the dominion board are expected to arrive either Sunday or Monday noon, while the provincial officers will reach St. John on Monday night. An exhibit will be held in connection with the meetings. The following is the programme for the two-day session: Tuesday, Oct. 10. First session, 2:30 o'clock. Convention called to order by W. G. DeWolfe, president N. B. provincial board. Addresses of welcome. Replies. President's address. Secretary's report. Treasurer's report. Short address by fire insurance representative. Appointment of committees by president—resolutions, nominating, credentials. Tuesday Evening. Second session, 7:30 to 8:30. Address by prominent speaker, subject to be announced. Report of dominion convention by delegates. Visit to the Imperial Theatre. Wednesday Morning. Third session, 10 o'clock. Moving pictures, raisin industry. Address, E. M. Trowen, secretary Dominion board. Report of committees. Election of officers. New business. Wednesday Afternoon. Fourth session, 2:30 o'clock. Address by J. C. Campbell. Resolving resolutions. Unfinished business. Arranging place for next meeting. Automobile drive, followed by banquet at Bond's restaurant, through courtesy of the St. John branch. R. A. Macdonald, president of St. John branch will preside. Possible Explanation. Hubby—Of course, dear, it's only rough idea of mine, but do you think it's possible that there's ever such thing as a printer's error in that cookery manual of yours?

ROBBING MAILS CASE COMES UP IN CAMPBELLTON

Campbellton, Oct. 6.—Patrick Doyle, laborer, and Reuben Dickie, an employee of the post office in Campbellton, were arrested today and brought before Magistrate MacDonald, charged with being concerned in the post office robbery at Campbellton on Sunday. The registered mails at Campbellton were robbed on Sunday and the amount of money involved is said to be large. It is contended that one of the missing packages contained \$500. After the discovery of the robbery on Sunday, W. F. Griffiths, of the district superintendent's office in St. John, was sent to investigate. As the result of his investigation the arrests were made today, Doyle and Dickie appeared before the magistrate. Doyle was sent up for trial at the next session of the court and the preliminary hearing in Dickie's case will begin tomorrow. Dickie has been employed in the Campbellton post office for a number of years.

EUROPEAN LIVE STOCK. A Heavy Decline in Horses and Big Losses in Cattle Herds.

Owing to the lack of official census returns, there is liability of error in making too high an estimate of the number of European live stock at this time, says Alfred P. Dennis, special representative of the United States Department of Commerce. Though the figures for some countries are lacking, and for others not reliable, the following estimates for twenty-three countries in Europe have been based on the best available returns: "In Italy, France, Belgium, Germany, Poland and Great Britain there is a heavy decline in the stock of horses, as compared with pre-war figures. Gains have been made in the number in Sweden, Spain, Bulgaria, Rumania, Greece, Netherlands and Denmark. The total number of horses in all of 1921 is approximately eleven per cent, less than in 1913. "There have been heavy losses in the cattle herds of Belgium, Austria, Hungary and Germany, but those of Great Britain, France, Italy and Poland are approaching normal. The drought of 1921 has halted the recovery from the low point of the year 1918, but the industry has been revived by the past year's season and summer, and the present stock of cattle is probably not more than three per cent, under that of 1913, but the ratio of young, thin and undersized animals is much higher than in the period prior to the war. "The hog industry has suffered more acutely than any other branch of animal husbandry, but the recovery since 1918 has been rapid, except in the case of countries such as Germany, France, Belgium, Austria and Italy, which are dependent upon imported feed. In Great Britain, Denmark, Sweden and Poland the production is approaching normal, and the number in Spain, Rumania, Yugoslavia, the Netherlands and Switzerland is greater than before the war. The total number of hogs in European countries is now estimated at twelve per cent, below normal. "Sheep depending upon natural pasturage rather than upon arable farming suffered less than cattle and hogs. There is a wide variation in recovery in this industry. In Poland the sheep resources are off forty-one per cent, compared with the pre-war figures, and in France there is a reduction of thirty-five per cent. Spain has increased the number of sheep by fifty per cent, and the flocks are well maintained in Switzerland, Italy and Rumania. An accurate census of the sheep in all European countries would probably show the number is within six or seven per cent, of pre-war figures. "In all the important countries except France the stocks of goats are reported as showing gains over the pre-war stocks. These animals, except where commandeered for military purposes and for breeding, are being used in increasing numbers for milk supply, in place of cows. The total number of goats in the countries of Europe is estimated at eighteen per cent, above the pre-war totals. "Compared with pre-war years, the national meat consumption in Europe shows a rise in France, Italy, Rumania, Spain and Poland. It is fairly well maintained in Great Britain, the Netherlands and Switzerland. There is a sharp decline in both gross and per capita consumption in Belgium, Austria and Germany. The European demand for American hog products reached the proportions of a boom during the war and has since receded somewhat; but it is still in excess of the pre-war volume in France, Belgium, Italy and Great Britain. "The needs of Germany for American bacon and animal fats are urgent, but the difficulties attendant upon financial arrangements curtail purchases. There will undoubtedly be a further expansion in the European demand for American lard as the general economic conditions improve.

TEST GRASS FOR LINKS.

Specialists Find Creeping Bent Variety Best for Golf Greens. With golf becoming more widely played and the number of courses rapidly increasing, the United States Department of Agriculture in connection with its general work on grasses is giving attention to the selection of special strains of grasses adapted to the requirements of the links. That this work may be most effective, the department is co-operating with the United States Golf Association, and several specialists in the Bureau of Plant Industry were appointed members of the Greens Committee of that association. A great deal of effort has been wasted in the building up of golf courses because of a lack of understanding of the different kinds of grasses and the methods of establishing a turf, points out the department in telling of its experiments. "Many men interested in the game have been victims of seed fakers and self-styled experts," it continues. "As a result, golfers have welcomed information on the subject from the department, and clubs in many parts of the country have called on the department for advice and information. This fall a number of golf courses are being put in on courses at Columbus and Akron, Ohio, and a demonstration green on a course at Chicago. "The best results are obtained by the department with pure strains of creeping bent, a grass of uniform color and texture and resistant to wear. These strains have been selected and increased on the department experiment farm at Arlington, Va., and are now grown commercially by two or three companies. These strains of bent grass are grown by the vegetative method instead of from seed—that is, the stolons, or runners, are cut up and spread upon the ground where a turf is desired. The

grass is first grown in nursery rows to obtain the increase needed for planting the greens. "To give golf clubs a start of this grass the department will furnish enough stolons to plant five or six linear feet of nursery row. In one year, if well handled, this will produce enough increase to plant five average golf greens. This fall such starts are being furnished to fifty clubs. Grass was sent to about the same number last year."

MAN'S PREROGATIVE.

When a dog is pleased he wags his tail and flaps his ears—but he can't smile. A horse expresses his sense of well-being by rubbing and neighing—but he can't smile. Birds chirp, cats purr, larks wheel

high in the air and sing, roosters crow, monkeys swing violently by their tails from trees, bees hum—but man is the only member of the so-called animal kingdom that smiles. That's where he has it on every other living creature. When a man is well pleased he can smile, and even when he isn't pleased he can give a pretty good imitation of a smile.—Nogales Herald.

A Columbia Grafonola for \$97.50

For \$97.50 you can place in your home this superb Model X Grafonola, fully equipped with the modern improvements to be found only on the Columbia.

For less money than you would pay for an ordinary instrument, you obtain with the Model X all these exclusive advantages; Streamline cabinet; Straight Tone Arm, scientifically correct acoustic design; and "the Non-Set Automatic Stop," the only Non-Set device which stops the machine when the record is finished.

You'll be passing a Columbia store today or tomorrow. Step inside. See and hear this Model X. Grafonola. Made in walnut, mahogany, fumed and golden oak.

Hygienic Service—Style Service—Economic Service

Their Hygienic Service has become invaluable and indispensable from a humanitarian and health point of view. The medical profession fully recognizes its preventive and curative qualities. Their Style Service is necessarily different from that furnished by other corsets. The scientific and hygienic results can be obtained only when Nemo Corsets fit the figure accurately, comfortably and properly. Their Economic Service, on the other hand, which the first two depend upon, is of Nemo Corsets. No amount of ingenuity in conceiving would avail if the corsets themselves were not extremely durable. Their exclusively on the produce themselves. Their Hygienic worth much more than the

Gifts in beautiful Anniversary Packages

A GIFT of 1847 Rogers Bros. Silverplate always shows good taste and good sense of value. In attractive velvet-lined gift boxes and chests, this fine silverplate makes an ideal Anniversary Gift. It is the more appropriate, because this year marks the seventy-fifth anniversary of silverware that bears the quality date—1847.

Every one who receives this distinctive Anniversary Silverplate or selects it for her own use lays the foundation for a complete table service in harmony. Each new piece in the same pattern adds to the value of the others. The fancy serving pieces—berry spoon, pie knife or cold meat fork—contribute that little touch so necessary in correct table settings.

Your dealer has "1847 Rogers Bros." or can get it for you.

MERIDEN BRITANNIA CO., LIMITED, HAMILTON, ONT.

1847 ROGERS BROS. SILVERPLATE

IF YOU could Visit our Mills—

VISITORS to the Quaker Mills no longer marvel at the exclusive flavour, texture and goodness of all things baked with Quaker Flour. They see for themselves the infinite care with which Canada's finest wheat is treated from the berry to the sack.

They see how thoroughly the grain is selected and cleaned—how gradually and finely it is milled—to produce a perfect flour. They see how Quaker Quality is ever maintained, by constant vigilance and hourly tests in the process of milling—by an actual baking of bread from each day's flour. Quaker Flour must bake up to the Quaker standard before it can leave the Quaker Mill.

They realize why no other flour can equal "Quaker." Try it for your next baking.
