## REAL ESTATE

## To Property Owners

We have opportunities to place either self-contained, two or three family houses in the City or North End.

We have special opportunities at the moment for three flat houses in the North End, in fact could handle almost any class of property.

We invite listings—not necessarily exclusive control. If owner adverse to signing card would discuss verbal arrangement. No charge for listing and no charge if sale not effected.

## Taylor & Sweeney

Real Estate Brokers,  
Globe Atlantic Bldg.,  
151 Prince William Street.  
Telephone Main 2596.  
"Look for the Blue Signs."

## NO RETURN OF CONSUMPTION AFTER YEARS

French Professor Reports on New Method Tried in 1913 and 1914.

Paris, Feb. 8.—After a lapse of about seven or eight years, Professor D'Arsonval, member of the Institute of the Sciences on the curative treatment of tuberculosis by a new method discovered by a Swiss bacteriologist, Henry Papling. The method was first applied in 1913 and 1914 in hospitals in England, France and Switzerland on patients suffering both from the minor forms of tuberculosis and advanced phthisis.

Since that time patients who were pronounced cured have been kept under observation. All of them are declared to be alive and in good health and they have shown no symptoms of a relapse for the last six years, although they underwent no further anti-tubercular treatment of any sort.

These results are touched for, among others, by Dr. Leonard L. B. Williams of London, Fellow of the Royal Society of Medicine, and other scientific bodies. "The treatment takes the form of injections of anti-toxin and ferments free. So a card inscribed, "Please help to pay for my license," was attached to a can hung about the animal's neck. The terrier sat at a street corner for two hours and his life was saved.

## FRIEND OF POOR DIES

Richmond, Va., Feb. 8.—Henry W. Wilkens, known as "the friend of man," who gave all his earnings except sufficient for his own needs to "down-and-outers," is dead. For seven years he had been assistant superintendent of the Union Mission in Norfolk.

## SOME HARDWARE PRICES LOWER

(Hardware and Metal, Feb. 6.) Price is again the chief point of discussion in the iron and steel markets. A new basis of steel prices is mentioned by Pittsburgh though until wages and costs have been dealt with no new basis will be established. The bringing out of new selling schedules by two makers appears to have aided little in the closing of the market.

The markets continue to show signs of stabilization, and buyers are commencing to have greater confidence in the situation. Depressed stocks that have been partly to blame for the slump in many of the markets are practically all liquidated, and many lines are now showing considerable strength with prices in primary markets steadily advancing. These advances, although not as yet materially affecting quotations in Canada to the retail trade, are bound to react sooner later.

Spices have also developed an upward tendency, especially peppers, both black and white. Rices are now generally considered to have reached the bottom level, and although prices on spot in some sections continue to show recedings, they are more in the nature of adjustments on stocks than are arriving, bought on the lower level.

Refined sugar is holding fairly steady, but the raw sugar market has developed a week-end with prices lower. Shelled walnuts and almonds continue in a strong position, and there are indications that replacement costs will be higher than
