ETER WRIGHT IS SEEING THINGS PRESENTS SAME TO SELECTED AUDIENCE

A' few days ago at the Capital lests listened to a rather remarkable sech from Peter Wright, the old suntry seaman's leader, who has sen in this country for some time. Very all members of the Deminion manand of the G.W.V.A. and other leads and admirers of Mr. Wright see responsible for the gathering. Mr. B. B. Maxwell, Dominion present of the G.W.V.A., was chairman, id Mr. Tom Moore, president of the ominion Trades and Labor Congress, erf the chief greest. Apart from a introductory speech of the chairan, the only other speaker was Capt. P. Grant, of Ottawa.

The speech of Mr. Wright was their unique. He found serious fault iff present conditions, and placed a nuiderable portion of the blame on small group of international finaners who, he said, exerted a tremend as and more or less secret pressure in the affairs of the world. He also imitted that in his opinion a marity of the labor party are on the song track; he did not believe a bor government would be capable dealing with the situation that to-yexists.

action so needed. The whole outlook and vision of men had changed, and today we were passing through a transition. On no one question did we think the same as we did 10 years ago, and hence it was necessary to have men who would cooperate with the evolution of the times and the unseen laws, under which we all operated. He had been in many countries lately and in all he had seen the unrest, the constant seeking of something by the people. And everywhere it was the same, no one to give them the lead they desired.

The Time Recorder in Office or Factory Stands For ORDER and METHOD Instead of "Rule of Thumb"

O'KEEFE'S

are MADE IN CANADA

The punctual employee is glad to have the Time Recorder convey to the management every day the record of his punctuality.

He knows that the mechanically-made printed record cannot be tampered with; neither can it err. He knows that, to obtain recognition of his merit, he is not compelled to parade it noisily; and that when the day comes for promotions, selections are not made by guesswork. He knows that he is protected against favoritism or unfairness. He knows that he is not penalized for the tardiness of a co-employee.

Where is the employee who believes that his own best interests—his hope of stable employment and of ad-vancement would be better safeguard by haphazard "Rule of Thumb" than by order and method?

Order and Method in office and factory begin with the Time Schedule—the systematizing of working time for the greatest possible efficiency.

The clock is the Supreme Taskmaster in the World's work. Is it not logical that the record of the world's work should be written by the unerring steel hands of the clock itself!
