

NEARLY 100 YEARS AGO

Dr. Isaac Thompson introduced into Canada and the
United States of America

HIS CELEBRATED EYE WATER

This justly celebrated remedy was invented by Dr. ISAAC THOMPSON, of New London, Conn., U. S. A., about the year 1795. While engaged in the study of medicine he was attacked with a violent ophthalmia or inflammation of the eyes. After being unsuccessfully treated by a great number of skilled physicians to whom he applied for relief, he was entirely cured by the use of this Eye Water, and which is confidently recommended as an almost certain cure for inflammation and for other complaints of the eye.

READ THE CERTIFICATE OF A PHYSICIAN.

From Dr. Vine Utley:

LYME, Conn., Oct. 24, 1805.

This may certify that I have practiced medicine, as a physician, for forty years. During this long period of my practice, I have made use of various kinds of Eye-Water, both in acute and chronic inflammation of the eyes, and I believe, with as good success as physicians in general. After all, I find no Eye-Water equal to that prepared by Doct. Isaac Thompson, of New London, Conn. I would advise those making use of it to be particular to follow the directions of the Doctor in applying it to the eyes.

VINE UTLEY.

ALSO,

From Mr. Frederick Connor:

SNOW HILL, July 23, 1806.

I do hereby certify, that having been troubled with very sore eyes, I was perfectly cured in a few days, after making use of Dr. Thompson's celebrated Eye-Water, and do recommend it to those who are afflicted with that disease.

FREDERICK CONNOR.

Sold by all Druggists.
