IN THE RANKS OF THE ENEMY.

It is surprising how many men and women there are, in all our communities, who have a secret hope that they are saved...

A DISGRACED CITY.

Carleton, a part of St. John city, has been disgraced. On Wednesday evening last the evening when all the churches were holding their prayer meetings...

DOES FAITH SAVE?

The Christian still persists that a believer is not saved, unless baptized. As he asserts that he knows nothing of what is meant by wholly-saved, salvation incomplete...

found in the fact that the Hall could not have been obtained for any such degrading purpose, without the consent of four of the six councillors on the Carleton side...

All citizens are interested in a matter of this kind. The worshipful councillors are supposed to represent the intelligence and morality of the city. The people of Carleton will be judged by this action of their representatives. We deserve to have a low estimate placed upon us if a matter of this kind passes without protest...

THE TEMPERANCE MOVEMENT.

The American people from the Atlantic to the Pacific are beginning to realize that, as in the case of the slavery question, so, now, in the case of the prohibition movement a great problem presents itself for solution. It is doubtful if there was ever a time in the history of America when there was so great a demand as now for able and wise men to steer the "ship of state." Breakers are ahead. Most Americans see this and recognize the need of skillful management in order to avoid destruction...

THE BATTLE-GROUND OF MANY A TEMPERANCE STRUGGLE.

As this age is the battle-ground of many a temperance struggle, so it is pre-eminently the "age of missions." A vast missionary wave has swept over these states, and the end is not yet. Many returned missionaries have been working vigorously among the churches, seeking recruits for foreign service. I wish to speak particularly of the work of two young men, who, having given themselves to the work of foreign missions, are traveling among the colleges and seminaries...

Rev. L. M. Weeks of Harvey, writes: "The school here always goes into winter quarters, I am sorry to say. But that debt rested on my heart with such weight, that I had to go to the day school and select the required number for training, and they acquitted themselves well..."

MINISTERS EXCHANGING VIEWS.

I have often thought that if our pastors, and laymen as well, would "exchange views" through the MESSENGER AND VISITOR it would not only be interesting to the great majority of its readers, but also profitable to all. Indeed, a free and friendly interchange of "views" cannot but be instructive, as no independent thinker is satisfied with looking at any truth through another man's glasses...

THE BATTLE-GROUND OF MANY A TEMPERANCE STRUGGLE.

Japan and China, with a population more than three times as large as that of the Western Hemisphere, are open to receive the gospel. This is a transitional period in the affairs of Japan, and her future destiny depends upon the experience of the present decade. The solution of the Christian world toward Japan, during these few years, will determine whether she will be won for Christ or given over to Rationalism...
