

Council Turns Down Motion For Sale of Mispac Pulp Mill

Aldermen Almost Unit in Condemnation of Lease to Stetson-Cutler-Brickbats Hurlled When Motion for Market Investigation is Discussed--Manchester Line Gets No. 5 Berth.

The common council held a lively session yesterday afternoon. The proposition to sell the Mispac Pulp Mill was again turned down. No. 5 berth was again turned down. The proposition to sell the Mispac Pulp Mill was again turned down. The proposition to sell the Mispac Pulp Mill was again turned down.

matter, but he understood the market officials had been making radical changes. He was not responsible for existing conditions. He advised the council not to pass Ald. Potts' motion. Ald. Potts' motion was lost.

Ald. Smith moved that a section be authorized to remove the building from the corner of the street and to reconstruct it to conform with the city plan. Ald. Hayes moved that it be referred to the Safety Board. Ald. Smith's motion was adopted.

The report of the Water and Sewerage Board was then taken up. The recommendations to permit the Anti-Tuberculosis Society to occupy rooms in the Water and Sewerage Building on Leinster street was adopted. The section asking the council to reconsider its action in refusing to extend the water service on the Marsh road to the property of R. G. Murray and his tenants caused some discussion.

Ald. Willet said the tenants had taken out leases for 21 years. The recorder advised against making an agreement until legislation was passed. Ald. Willet moved that the section be referred to the Safety Board. Ald. Smith's motion was adopted.

The section recommending that the engineer be authorized to call for tenders to put in sewers to divert the sewerage from Marble Cove according to his plans, was amended on motion of Ald. Wigmore to include the calling of alternative tenders for a general rearrangement of the sewer system in that district, on the lines indicated at the meeting of the Water and Sewerage Board.

The recommendation to lease the Mispac Pulp Mill, with option to buy, to Stetson, Cutler and Company, then came up. After some discussion, Ald. Jones moved that the matter be referred to a special meeting of the council. This, however, was voted down.

The mayor said he did not know what they were doing in granting leases in Lancaster. The aldermen should deal with these properties as if they had a private interest in them, and not proceed with undue haste. Ald. Scully said Councilor Fox, of Lancaster, was opposed to the lease of the lots in question.

The section was referred back to the board. In reference to the section authorizing the Director to purchase cloth for police uniforms, Ald. Christie moved that it be referred back. He thought it was small business and unfair to the tailors. Tenders should be called for. There was much discussion over the recommendation that Chief Kerr be empowered to order the firemen to wear uniforms at their own expense. The section was finally adopted.

How to Judge Returns Today

Continued from page 1. Next week's returns will be significant. A Republican success could be attributed largely only as a personal victory for Roosevelt. A Democratic victory would be significant of two things: (1) that Roosevelt is not so popular as some believe, and (2) that the Taft administration, with its tariffs and its Bailings, had aroused a sentiment of revolt in the popular mind which will result in conversion to progressivism could be averted.

Third Party in Field. In Pennsylvania the situation is unprecedented. The new "keystone" party, launched as a protest against the domination of the bipartisan machine, is actually making headway that threatens to give the standpat crowd a close call. A keystone victory will mean a progressive victory for every, the candidate for governor on the keystone ticket. He is a Democrat, a progressive idealist and a clean record man supported by the people who stand for progress. The Democratic campaign is merely a pretense. The fight is between the diverse crowd and the keystone party.

Next, California. When the returns come in from William Kent's congressional district, he has a majority over the Democratic nominee of such votes or more, then progressivism is running strong in California. Duncan McKelvey, the standpat Republican predecessor of Kent, received 28,000 votes to 19,000 for the Democrat. If Kent runs strong and Julius Kahn comes in the next (San Francisco) district, then progressivism is running strong in California. A standpat and is being opposed by Walter MacArthur, a progressive Democrat.

The bigger the Republican vote in Wisconsin the greater the victory for progress and insurgency. If progressivism is more important to the people than merely old-time party ties, the news should tell of numerous majorities for such men as Cooper, Nelson, Cochens, Esch, Davidson, Morse and Lenoir.

The dispatches ought to carry news of progressivism wins of big Republican majorities for the members of congress nominated in Kansas, Iowa, Oregon and Washington. But a defeat for standpaters Humphrey in Washington or Smith in Iowa is a victory for insurgency.

There is a queer tangle in Wyoming. The Democrats are running an insurgent Republican for governor, and the Republicans are running a standpat Democrat. So when you read the news remember that they should be regarded as an anti-Lodge sentiment in the state.

In New Hampshire, the advance of the progressive movement would be indicated by the fall of that tall sycamore, Cyrus A. Eaton, in the election of Eugene E. Reed, a Democrat. Bass, an insurgent Republican is candidate for governor against an old-time Democrat.

South Dakota is solidly Republican, but the standpaters are in control and any Republican plurality under 27,000 will indicate an insurgent rebuke. In Colorado the Democratic party represents insurgency and the re-election of Gov. Shaafroth will be a progressive victory.—Gibson Gardner.

Prof. Clay Lecturing Before The Archaeological Society

Claims That Recent Discoveries Proves Bible Records.

The lecture delivered by Prof. A. T. Clay, of Yale university, in the Natural History Society Rooms last evening, was of a kind to appeal to a St. John audience. Dr. W. W. White, president of the Archaeological Society, under the auspices of which the lecture was delivered, occupied the chair, and the lecture room was filled with a large and representative audience.

Dr. Clay, who is lecturer on Biblical history at Yale university, spoke on the recent discoveries in Babylonia and their effect upon some of the conclusions of German scholarship. "A few years ago," he said, "most archaeologists were of the opinion that the Israelites derived their religion and culture from Babylonia. They were expected to find parallels of the story of Christ, with slight variations of form, in the annals of Babylonia, as revealed by the excavations. Later researches, however, tended to show that this interpretation of history was incorrect. In his book on the recent discoveries he had shown that Babylonia had derived its religion and culture from the Israelites. One of the races that made up the Babylonian nation were of Semitic origin, and the Babylonian religion and culture was evidently derived from the legends of the early Semite Babylonians, modified by the influence of other races.

Sabbath From The Hebrews.

Continuing, he said the monuments bearing upon the Old Testament did not support the pan-Babylonians. Their school declared that the Sabbath originated in Babylonia, but later investigations showed that the so-called Sabbath was the 15th day of the month, or the day of the full moon. In the Hebrew language Sabbath means a derivation of the word to desist or to rest. The same word was not used in Babylonia. The influence of Israel upon Assyria was greater than the Bible indicated. Old Testament history could be supplemented by Assyrian records. The Bible does not pretend to give a complete history of the Israelites people. It is merely the records of Godly men. The recent discoveries have rendered necessary a new interpretation of history. Fisher's chronology was now of no value.

At the close the lecturer was tendered a vote of thanks moved by Senator Ellis, and seconded by Dr. R. F. Quigley.

W. E. Dibble, of Billaville, was in the city yesterday. He was accompanied by his son who will attend business college.

ALL MY PIMPLES GONE

Girl Tells How a Blotchy Skin Was Cleansed by a Simple Wash.

"I was ashamed of my face," writes Miss Minnie Pickard, of Altamahaw, "it was all full of pimples and scars, but after using D. D. D. Prescription I can say that now there is no sign of that Eozema, and that was three years ago."

D. D. D. has become so famous as a cure and instant relief in eczema and all other serious skin diseases, that its value is sometimes overlooked in clearing up rash, pimples, blackheads, and all other minor forms of skin impurities.

The fact is, that while D. D. D. is so penetrating that it strikes to the very root of eczema or any other serious trouble, the soothing oil of Wintergreen, Thymol and other ingredients are so carefully compounded that there is no wash for the skin made that can compare with this great household remedy for every kind of skin trouble.

D. D. D. is pleasant to use, perfectly harmless to the most delicate skin, and absolutely reliable. Write the D. D. Laboratories, Dept. S. S., 49 Colborne St., Toronto, for a free trial bottle and prove its wonderful effectiveness.

Bank Closes Option.

The Merchants Bank of Canada, which opened a branch in this city on Tuesday last under the management of F. J. Shreve, intends to have a permanent home in this city. An option, which was taken in its interest, on the Pugley building, corner of Prince William and Church streets, has been closed, and in due course it will give way to a thoroughly modern bank building that will be a fine addition to Prince William street. The bank has a two-year lease of its present quarters in the Bank of Montreal building, and it is prepared to have its new premises ready for occupancy before this lease expires.
