

# ASEPTO PREMIUM PLAN ADVANTAGES

## Talk No. 4.

Why a cash discount is not equal to our premium. We do not make any money on premiums. We give a \$5.00 premium when you have purchased \$25.00 worth of goods from us. It would be an impossibility for us to give \$5.00 in cash off of \$25.00. Yet the premium you select from our store cannot be bought for less than \$5.00 at any store. We buy that premium direct from the manufacturers and save all the profits of the jobber and retailer, a profit that they are justly entitled to, and by that method give you the greatest discount ever known and in addition acquaint you with our Asepto Soap and Soap Powder and over 100 other articles of our manufacture.

The plan is worth investigating.

Corner Mill and Union Streets - St. John, N. B.

Sunday: Strs Canada, Jones, from Liverpool; Saturnia, Taylor, from Glasgow; Grand, Middleboro, Ileson, Moor, from Glasgow; Kron Prins Olav, Neilsen, from Sydney.

**THE SWIMMING CHAMPIONSHIP ON SATURDAY**  
Special to The Standard.  
Halifax, N. S., Aug. 6.—The championships of the Canadian Amateur Swimming Association came off on Saturday afternoon at the Waegwoide Club, Northwest Arm. The weather conditions were superb, the water up to 78 degrees, the management perfect, the crowd numbered thousands, the contests good, and four of the six championships went to New York.

R. M. Ritter of the City Athletic Club, New York, was the 200 yards swimmer in 21:15 seconds, and the same swimmer took the 220 yards and the 100 yards back stroke, in 3:35 min. 43.5 seconds, and 1 min. 39.5 seconds respectively. The 220 yards breast stroke was won by Sin S. Silver of the Montreal Swimming Club, with a time of 3 min. 53.15 seconds. The diving contests went one each to American and Canadian champions, Arthur McAleena, a boy of sixteen, from the New York A. C., winning the variety spring board diving at the lower heights, and J. Lyons, of the Montreal Swimming Club, winning the variety high diving at five and ten meters. The new diving tower of the Waegwoide was used for the first time and proved a splendid structure for the purpose. The American and Canadian divers spoke of it in the warmest terms, stating that it was the best tower in so far as rigidity and other good qualities were concerned, that they had ever used.

**Natural History Outing.**  
The fifth field day of the Natural History Society was held on Saturday and was an enjoyable outing. About forty-five of the members went by train to Drury Cove, and from there to Hunter's Cove by motor boat. The party then dispersed, and formed exploring expeditions, gathering botanical and geological specimens. The different detachments returned to Drury Cove about half-past five, where refreshments were served. Dr. Matthews delivered a few remarks relative to the history of the St. John river. The plant specimens gathered by the members furnished the theme of an interesting address by Dr. G. U. Hay. Among the number who took part in the outing was B. McKittrick, principal of Lunenburg Academy. Mr. McKittrick delivered an interesting address during the afternoon. The outing on Saturday was in charge of W. F. Burditt.

**STELLARTON TEAM BEATEN IN HALIFAX.**  
Special to The Standard.  
Halifax, N. S., Aug. 6.—The crack Stellarton baseball team, champions of Pictou County, met their first defeat on Saturday afternoon when the Socials, trimmed them to the tune of four to one. Stellarton went off the field confident of victory, but the Socials, with two new men on their team, went at them like tigers from the start, and almost succeeded in blanketing them. It was the best exhibition of baseball seen here this year, in fact some say that Halifax fans never before witnessed such a game. The result was always in doubt and both teams played as if their lives depended on it. Insnor, who twirled for the winners, gave a wonderful exhibition. On several occasions with the bases full when a score or so seemed sure he retired the side. Insnor never pitched better and he was given excellent support. Stellarton has the fastest nine that has appeared here this summer.

A regrettable accident occurred in the eighth inning, when Fraser, the champions' catcher, had his nose badly fractured and cut. Stellarton had previously won eleven consecutive games and their defeat was a big surprise. Westville has decided to fly under professional colors and will play two games with the Socials here on Wednesday. The Standards will meet Stellarton in two contests in Pictou County on Wednesday and Thursday.

**Canadian markets for Canadian produce.** Why open the home market of the Canadian farmer to the forty million farmers of the United States?

**ONE INSTANCE FROM BRITAIN'S "SOLID QUEBEC"**  
Mayor of Three Rivers Will Oppose Solicitor General Bureau—Sorel Crowds Hoot at Liberal M. P.

Three Rivers, Que., Aug. 5.—A huge crowd attended the National rally here yesterday to hear Messrs. Monk, Bourassa and Lavergne and a host of less well known speakers, open their election campaign in real earnest. Mayor Normandin, who will oppose the Solicitor General, Mr. Jacques Bureau, was the first speaker, and dealt with local issues, declaring that the city was being neglected by the administration. This paved the way for other speeches. Mr. Monk was received with loud applause as he rose to outline the aims and ambitions of his party. He claimed that the great question in Canadian politics had been the question of Imperial co-operation, and that his party took the position that the question was not within the competency of a few party leaders elected upon general issues, but one which should be handled by those holding a direct mandate from the people. This attitude he said had been followed by a campaign of slander and abuse in which a subcommittee represented his party's attitude as that of a body of rebellious subjects who desired to break Imperial ties. The Liberal leader scoffed at demands for a referendum.

Mr. Monk did not waste much time discussing the various charges against the Liberal administration, but proceeded to discuss reciprocity. He characterized the attitude of Canada's ministers as undignified and over-assertive. He reviewed the arguments concerning the tapping of our natural resources, the uselessness of the great transportation systems and the blow to Canada's ports should reciprocity prevail. He said there was evidently a desire to annex Canada to the United States, but said he had no fear of this.

Mr. Bourassa declared that the navy was the all important issue and reciprocity was not to be considered by the voter, despite the fact that Borden had referred to it as an important element to make it the sole issue. Voters must also remember the numerous scandals unearthed in connection with the present administration.

He approved neither of Laurier nor Borden as regards their attitude towards the navy question, Borden's direct contribution being an unpalatable Laurier's navy bill.

Other speakers were Mr. Blondin, M. P. for Champlain; Armand Lavergne, Mr. Gilbert, the hero of Drummond-Arthabaska bye-election.

**Sorel Member Hooted.**  
Sorel, Que., Aug. 5.—A Lanctot, ex-M. P., whose actions in having private work done with public materials, caused much comment in press and Parliament, and who was the fortunate receiver of a so-called whitewashing, when his case came up in the House, had an unpleasant experience this afternoon when he attempted to address a meeting in the square.

A large section of the crowd hissed and booed and hooted him as he descended from the platform some young men assailed him. He was rescued by the police, and the episode is much regretted by respectable citizens.

The treatment meted out to Mr. Lanctot is no surprise to those acquainted with the inside history of the row in the Sorel shipyard. Irregularities abounded and many angry Liberals have taken the field against the government. The significant thing is that these dissident Liberals make their charges openly in defiance of Laurier. They consider his power in Quebec is broken, and are using this knowledge as a club.

**William Tigue.**  
The funeral of the late William Tigue took place from his residence, Douglas Avenue, yesterday afternoon 2:30 o'clock, the remains were conveyed to St. Peter's church, where the burial service was said by Rev. Fr. Borgman and the interment was in the new Catholic cemetery.

### NEW SUBWAY STARTED IN NEW YORK WHILE THROUGHOVERRIDES POLICE TO SEE CEREMONY.

MR. JAMES BRADLEY, New York city is to have more subways. They broke ground for the latest section, while a throng gathered that overran the police in their eagerness to see the ceremony. William R. Willcox, chairman of the Public Service Commission, removed the first spadeful of earth with a solid silver spade and pick, while James Bradley, of the big contracting firm, looked on smilingly. The mad rush of the crowd was nothing short of a riot, and the police had more than enough to deal with.

Several women fainted and were carried away, and for a time it looked as though there would be a riot. Captain McNally, who had the city shield torn from his cap and his uniform ripped in several places, finally sent for the reserves. With their arrival order was restored.

**BRITISH-AMERICAN TREATY**  
Continued From Page 1.  
The provisions of articles 37 to 39, inclusive of the convention for the pacific settlement of international disputes concluded by the president of the United States at the Hague on the 18th of October, 1907, so far as applicable and unless they are inconsistent with or in violation of the provisions of the special agreement to be concluded in each case and excepting articles 53 and 54 of such convention, shall govern the arbitration proceedings to be taken under this treaty.

The special agreement in each case shall be made on the part of the United States by the president of the United States, by and with the advice and consent of the senate thereof. His Majesty's Government reserve the right to refuse to conclude a special agreement in any matter affecting the interests of a self-governing dominion of the British Empire, to obtain the concurrence therein of the government of that dominion.

Such agreement shall be binding when confirmed by the two governments by an exchange of notes.

Article (II.) The high contracting parties further agree to institute, as occasion arises, and as hereinafter provided, a joint high contracting parties inquiry, to which, upon the request of either party, shall be referred for impartial and conscientious investigation discussion and adjustment of the questions in controversy, if either party desires such postponement.

Whenever a question or matter of difference is referred to the joint high contracting parties inquiry, as herein provided, each of the high contracting parties shall designate three of its members to act as members of the commission for the purpose of such reference; or the commission may be otherwise constituted in any particular case by the terms of reference, the members of the commission to be designated at Washington as soon as possible, and the terms of reference to be determined in each case by an exchange of notes.

The provisions of articles 9 to 36, inclusive, of the convention for the pacific settlement of international disputes concluded at the Hague on the 18th of October, 1907, shall be applicable, and unless they are inconsistent with the provisions of this treaty, or are modified by the terms of reference, shall govern the organization and procedure of the commission.

**To Solve Disputes.**  
Article (III.) The joint high contracting parties inquiry, instituted in each case as provided for in article II., is authorized to examine into and report upon the particular questions or matters referred to it for the purpose of facilitating the solution of disputes by elucidating the facts, and to determine the issues presented by such questions, and also to include in its report such recommendations and conclusions as may be appropriate.

The reports of the commission shall not be regarded as decisions of the questions or matters so submitted either on the facts or on the law, or shall in no way have the character of an arbitral award.

It is further agreed, however, that in cases in which the parties disagree as to whether or not a difference is subject to arbitration under article I of this treaty, that question shall be submitted to the joint high contracting parties inquiry, and if all or all but one of the members of the commission agree and report that such difference is within the scope of article I, it shall be referred to arbitration in accordance with the provisions of this treaty.

**Powers of a Court.**  
Article IV. The commission shall have the power to administer oaths to witnesses and take evidence on oath whenever deemed necessary in any proceeding or inquiry, or matter within its jurisdiction under this treaty, and the high contracting parties agree to adopt such legislation as may be appropriate and necessary to give the commission the powers above mentioned, and to provide for the issue of subpoenas, and for compelling the attendance of witnesses in the proceedings before the commission.

On the inquiry both sides must be heard, and each party is entitled to appoint an agent, whose duty it shall

**Oil Keeps Down Dust BUT RAISES TROUBLE**  
Lady Falls on Oily Street, and Spoils Her Skirts and Temper—Cars Have Trouble, too.

The Street Department had a number of things said about them Saturday afternoon and evening after their employees deluged the streets with oil. The oil was placed on Market square, King, Charlotte and Union streets. The purpose is to keep down the dust, but it was poured from a water wagon in such large quantities that it ran down the gutter on King street and considerable damage was done. Shortly after it was poured on the street a trolley car with a large crowd of people on it got partly up King street, but owing to the slippery rails it started to slip down the hill again. A number of people jumped from the car and ran for the sidewalk. One of the number to wade through the oil was a lady who held her skirts high to prevent them being spoiled by the street dressing. When she had nearly reached the sidewalk her feet slipped and with a very ungraceful movement she fell into the dirty street. Her clothing was badly damaged. A man with a light suit had the back of his coat damaged by coming in contact with the oil that had been sprinkled on one of the posts along side of the street.

The white shoes worn by the ladies are not suitable for oiled streets and many a white shoe, to say nothing of white skirts, were spoiled. Horses that were driven along the streets had their legs and under body covered with the oil, while the wheels of the coaches, carriages and automobiles were all stuck up. Water will not remove the oil from the wheels, and benzine has to be used. The oil was tracked from the street crossings into stores and houses, and there was a great deal of comment about the manner in which the streets had been blackened.

**Liberal-Conservative CONVENTION**  
A Convention for the electoral district of Kings and Albert will be held at the Opera House, Sussex, On FRIDAY, August 11th, At 4 p. m.

(after the arrival of the C. P. R. from Moncton) to select a candidate to contest the constituency at the coming Federal election.

Arrangements have been made for return tickets at one first class fare to Sussex from all points on the I. C. R. between St. John and Moncton.
