79th Anniversary Of Sunday School

Special Interest Marked Ser- vices in Ludlow Street Bap- tist Church Yesterday— Sermons and Programme.

The services in the Ludlow street Baptist church, West End, yesterday was of special interest, as they marked the 79th anniversary of the Sunday school.

At the morning service the pastor, Rev. W. B. Robinson, gave an illustrated talk to young people. His subject was "The Drawing Power of Christ," and it was listened to with rapt attention by the number of young scholars who were present in the course of the session the pastor made reference to the many things that are keeping young people from Christ, chief among which were bad company, cigarettes, dime novels and intemperance.

In the afternoon the special anniversary services were held. The superintendent of the Sunday school, R. H. Parsons, who presided, referred to last year as being the best year in the history of the Sunday school. He called to the platform Miss Alberta Beattie, who was present at the organization seventy-nine years ago. She holds the unique position of being the only living charter member of the Sunday school. It is rather interesting to note that her great-grandson, John McEiffin, was present as a scholar at the services yesterday. Mrs. Geo. Price and Deacon John F. Ring, who have also been members of the Sunday school for over 60 years were also present on the platform.

Then followed a review of the primary department. The scholars—about 90 in all—marched from their room to the main hall, marshalled by their teacher, Miss E. G. Cochrane, and formed a complete circle around the Sunday school. The children then sang very sweetly, "Jesus Loves Me, This I Know." Miss Ruth Christopher, the youngest member of the primary department, was given a place on the platform. She is a great-granddaughter of John C. Christopher, Sr., one of the first superintendents of the Sunday school. Following a duet sweetly rendered by Ruth and Sadie Carvell, Deacon John F. Ring, superintendent, read a list of former superintendents of the Sunday school. R. H. Parsons, the present incumbent, has been superintendent for over ten years.

The anniversary address was delivered by Rev. Isaac Brindley, pastor of Tabernacle church. His subject was "Climbing Mount Everest," and his address was both inspiring and instructive.

In the evening the anniversary sermon was eloquently delivered by the pastor. The officers of the Sunday school took part in the service and the singing was led by the young men's choir composed of members of the "Commander Class" and several others. A very choice programme of music was rendered. A duet was sung by E. Clyde Parsons and R. J. Burt, as well as a solo by E. Clyde Parsons.

It is rather interesting to note that Geo. H. Estabrook, who taught Sunday school in Ludlow street Baptist church before going overseas in the present Rhodes scholar for Nova Scotia.

Preparing Things For Dorval Opening

Montreal, May 29.—The work on the alterations at Dorval race course for the spring meeting from Tuesday, June 1, to Tuesday, June 8, inclusive, have been about completed and the plant presents a better appearance than at any time since the building of the course. The club house has been made more attractive, while the stands, the betting ring and other buildings have all been gone over.

The track, which was slow and heavy for the last meeting held by the club during the season of 1917, has been redressed and from the time made by the horses working over it, will be faster for the meeting. Horses are credited with working six turfs over the course in as good as 1:10, which was almost unheard of in trial work previous to the suspension of racing.

The officials for the meeting will arrive in Montreal on Sunday morning and will go to the course on their arrival in Montreal. Traveller's representative, Joseph McEiffin, of the Canadian Racing Association will accept applications for riders and trainers' licenses at 10 o'clock on Sunday morning.

The majority of the Canadian owned horses which have been in training at Blue Bonnets have been shipped to Dorval for their final preparations for the opening of the senior circuit racing in Montreal. There are several likely horses in the stable trained by Allen Bulcroft, which will be fitted at Dorval. Three of the string are owned by Donald Raymond.

DO YOU KNOW THAT—

When washing colored woolen garments you should put them in strong, cold salt water an hour before washing. This will set the color.

To clean tarnished silver you can use a piece of raw potato, dipped in baking soda.

To wash white silk take lukewarm water, make it quite blue and to each quart add two teaspoonfuls of pure ammonia. Use a good white soap, rinse in water prepared the same way, roll up, iron on wrong side with an iron not too hot. This will make silk look like new and it does not get yellow in the process.

To wash a hat-brush you should use soda instead of soap? Soap softens the bristles, while soda does not, and it cleans very quickly.

When you take cakes from oven, place tins on damp cloth, and allow them to stand there for a few moments, then invert tins and the cakes will slip right out. This is especially good for sponge cakes and other cakes where the tins are only greased or floured.

Johnson Tells of Wife's Troubles

Says She Was Only a Shadow of Her Former Self Before She Began Taking Tanlac.

"My wife and I will praise Tanlac as long as we live, for it is nothing less than wonderful the way it has restored her to good health again," recently declared A. J. Johnson of 49 Cornwallis street, Halifax, N. S.

"For about a year before she started taking Tanlac she was in such a rundown condition that she could hardly drag around. She had no appetite and often took nothing but a cup of tea at a meal. In fact she was afraid to eat very much because of the hours in the kitchen that she suffered afterwards. Her stomach was in such bad shape that whatever she ate would sour and ferment and blast her up something awful. She was also troubled with terrible headaches and dizzy spells and when these things came on she just had to lie down and rest. Her nerves were in such a bad state that if anybody slammed a door or made a sudden noise she would nearly jump out of her chair and be all of a tremble afterwards. She lost weight until she was a mere shadow of her former self and became so weak towards the last that she couldn't remain up long each day. All her friends were telling her how bad she looked and I was very worried about her, for although she had tried just about everything in the way of medicines, none of them seemed to do her any good.

"We heard of so many people being helped by Tanlac that my wife decided to give it a trial, and I must say that the way it went after her troubles and fixed her up was wonderful. The first bottle did her so much good that she kept on with it until a few more bottles she is as well as ever she was in her life. She has a fine appetite all the time, and her digestion is so good that she can eat anything she fancies without having the least trouble afterwards. She has gained at least ten pounds in weight and is stronger in every way. She is never bothered with headaches or dizzy spells now and her nerves are so steady that she can stand any amount of noise. She sleeps soundly all night and gets up in the morning feeling fine and able to do the day's work. She often says that since taking Tanlac she feels like a child again. We both think Tanlac is the best medicine ever put into a bottle, and are glad of the chance to recommend it."

Tanlac is sold in St. John by Ross Drug Company and the leading drug stores in every town, under the personal direction of a special Tanlac representative.—Adv.

ENGLISH TEACHERS POORLY PAID

Many Get Less Than Window Cleaners in London—H. S. Wells Supports Movement for Higher Salaries.

H. G. Wells is strongly backing demands for higher pay, now being put forward by London school teachers under threat of a strike. Many of them receive as little as \$16 weekly, or less than the Empire City's street cleaners.

"As an old teacher," writes H. G. Wells, "I should sympathize with the demands of the London teachers anyhow. They are treated meanly, overworked, under-paid and insufficiently respected. But there are much wider grounds than that for my support of their appeal for better pay and increased numbers. General education is the foundation of the modern civilized community; everything else rests on that, public peace, economic prosperity, progress, health.

"And you cannot have that foundation safe and sure unless you have a much larger staff of able teachers per thousand people than the U. S. employs, and unless you maintain the general quality and vigor of these teachers by fair and sufficient pay.

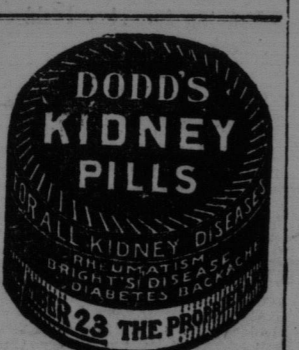

"Cheap teachers mean a jerry-built social system. To sweat your teachers is to prepare a revolution."

DECORATE U. S. GRAVES IN FRANCE

French and Other Allied Or- ganizations Cooperate in Honoring American Dead.

Paris, May 30.—Graves of American soldiers and sailors in all parts of France were decorated today, the second memorial day since the war ended. French and other Allied organizations co-operated in honoring the graves of 70,000 American dead. The churches in Paris, and throughout the provinces made special mention of the day. At St. Simeon Cemetery, the Earl of Derby, British Ambassador to France, accompanied Marshal Petain and United States Ambassador Welles.

Some rebuilt street cars have a ridge sticking out just at the top of the seats, which catches one just nicely in the short ribs. Is this a plan to make strap-hanging a favorite pastime?

GRAIN GROWERS URGE CONTROL BY THE GOVERNMENT

United States Farmers Advo- cate Action to Prevent Speculation in Wheat and Rye.

Washington, May 29.—Moved by what he terms the prospect of starvation years for 1920 and 1921, George P. Hampton, managing director of the Farmers' National Council, today called upon Congress to devise some method of control over the coming wheat and rye crops.

Mr. Hampton's appeal was made in the form of a letter to Senator Gross and Representative Hauzen, chairman of the Senate and House agricultural committees.

"The Farmers' National Council, Mr. Hampton says, is in possession of the prospect to show that the price for the world's food supply is below normal and the situation is being used by dealers in farm products for 'the widest speculation.'"

"Enactment of the United States Grain Corporation June 1" asserts Mr. Hampton, "will leave speculators in livestock and grain and brokers, millers and others without even the moderate and inadequate control exercised during the war."

Figures obtained by the council from the Department of Agriculture show the wheat supply of the world late in February was 102,000,000 bushels short of normal, while barley indicated a deficit of 172,000,000 bushels. Estimates on the world's supply of livestock show a shortage of 13,408,000 cattle, 50,982,000 swine, and 88,007,000 sheep.

"Is there not some way," writes Mr. Hampton, "by which the government can secure control, at least of wheat and rye, paying the farmer a fair price, and stop prevalent speculation

of middlemen in these food essentials, in order to prevent a further completely unnecessary increase in the cost?"

UPRISING IN PERSIA IS FEARED

As a Result of Threatened Invasion by Bolshevistic Forces.

PART OF ATTACK ON BRITISH EMPIRE

Details of Which Were Ar- ranged in Berlin Shortly After Close of Hostilities.

Copyright, 1920, by Public Ledger Co., Geneva, May 29.—A general rising in Persia in consequence of the Red army's advance on Teheran is predicted by Persian nationalist leaders in Switzerland. While their intensely anti-British declarations are to be taken with caution, there can be no doubt that the Bolshevistic invasion of Persia is the first act of the great onslaught on the British Empire in the East, planned in Moscow and Berlin since the end of the world war.

Plot Hatched in Berlin.

At a secret meeting of Persian and other Oriental nationalists here it was stated that Bolshevists are acting in accordance with plans evolved soon after Germany's collapse by the so-called "Oriental Department" of the German foreign office and by the Bureau of Oppressed Nationalities founded by the Bolshevistic foreign

ministry Chicherin. The British Government was repeatedly warned of this plot.

One of the Persian nationalist chiefs here said:

"As a social doctrine bolshevism has no chance whatever in Persia. Persia has no industrial proletariat and it is barren soil for Communist theories. On the other hand Persia has no army capable of resisting the Red invasion. The British troops of occupation, while strong enough to hold the Persians in awe, are too weak to give battle to the Bolshevists. The Shah's government is too unpopular to organize a national resistance. The Persian people regard the Bolshevists as liberators from the fetters of the Anglo-Persian treaty.

"The only way to prevent Persians from joining the Bolshevists is to involve a Persian parliament without delay and to submit the Anglo-Persian treaty to its decision. Parliament undoubtedly would reject the treaty in its present form, but would be ready to conclude a new treaty, compatible with Persian independence.

It is reported that the Russian soviet is pressing the Emir of Afghanistan to support the Bolshevistic action in Persia by invading northern India.

Events in Azerbaijan, where Turkish nationalists have seized power, have made deep impression in Turkey and have stimulated resistance against the Allied peace terms. The fate of the Georgian republic is trembling in the balance and now massacres are imminent in Armenia. The sinister alliance of Russian Bolshevism with Oriental nationalism—with Mohammedans and Hindus—threatens to set the whole East afire.

Lenine himself revealed his ambition in a recent speech at Moscow in which he said:

"The soviet is the mortal enemy of all existing governments, but chiefly of England, whose world Empire must be destroyed."

OBITUARY.

J. Best.

Moncton, May 30.—The death of J. Best, at the great age of 102 years,

occurred Friday at his home in River Glade, death being due to the infirmities of old age. Deceased was one of the veteran members of Royal Orange Association in Westmorland county. It is stated that he had not missed an Orange walk in the last sixty years. The funeral took place this afternoon at River Glade. The whole country side attending.

Cyril N. Ormond.

Amherst, May 30.—Cyril N. Ormond, son of Mr. and Mrs. W. L. Ormond, passed away last evening at his home on Havelock street. The young man who was twenty-four years of age, has been ill for some weeks with acute rheumatism. It was followed by pneumonia and in his weakened condition the disease proved fatal.

Prior to his death Mr. Ormond was employed in the drug business at Halifax. He is survived by his parents, five brothers and two sisters. The funeral is being held on Monday afternoon.

Geodes has presented credentials to Wilson. Watch them delimit Armenian frontier on White House lawn regardless of mandate.

Mr. Hoover has given eight reasons for the high cost of living, and the American people would probably be willing to trade any three reasons for one reliable remedy.

ALLEGED MURDERER ESCAPES JAIL

Held up Jailer at Revolver Point, Takes His Keys and Walks Out.

Buffalo, May 30.—William Marweg, alleged murderer, and Joseph Brady, charged with larceny, escaped from the Erie County jail this morning after holding up a keeper at the point of a revolver and taking away his keys. Marweg was convicted of first degree murder several months ago, but the conviction was reversed and he was brought here to await a second trial.

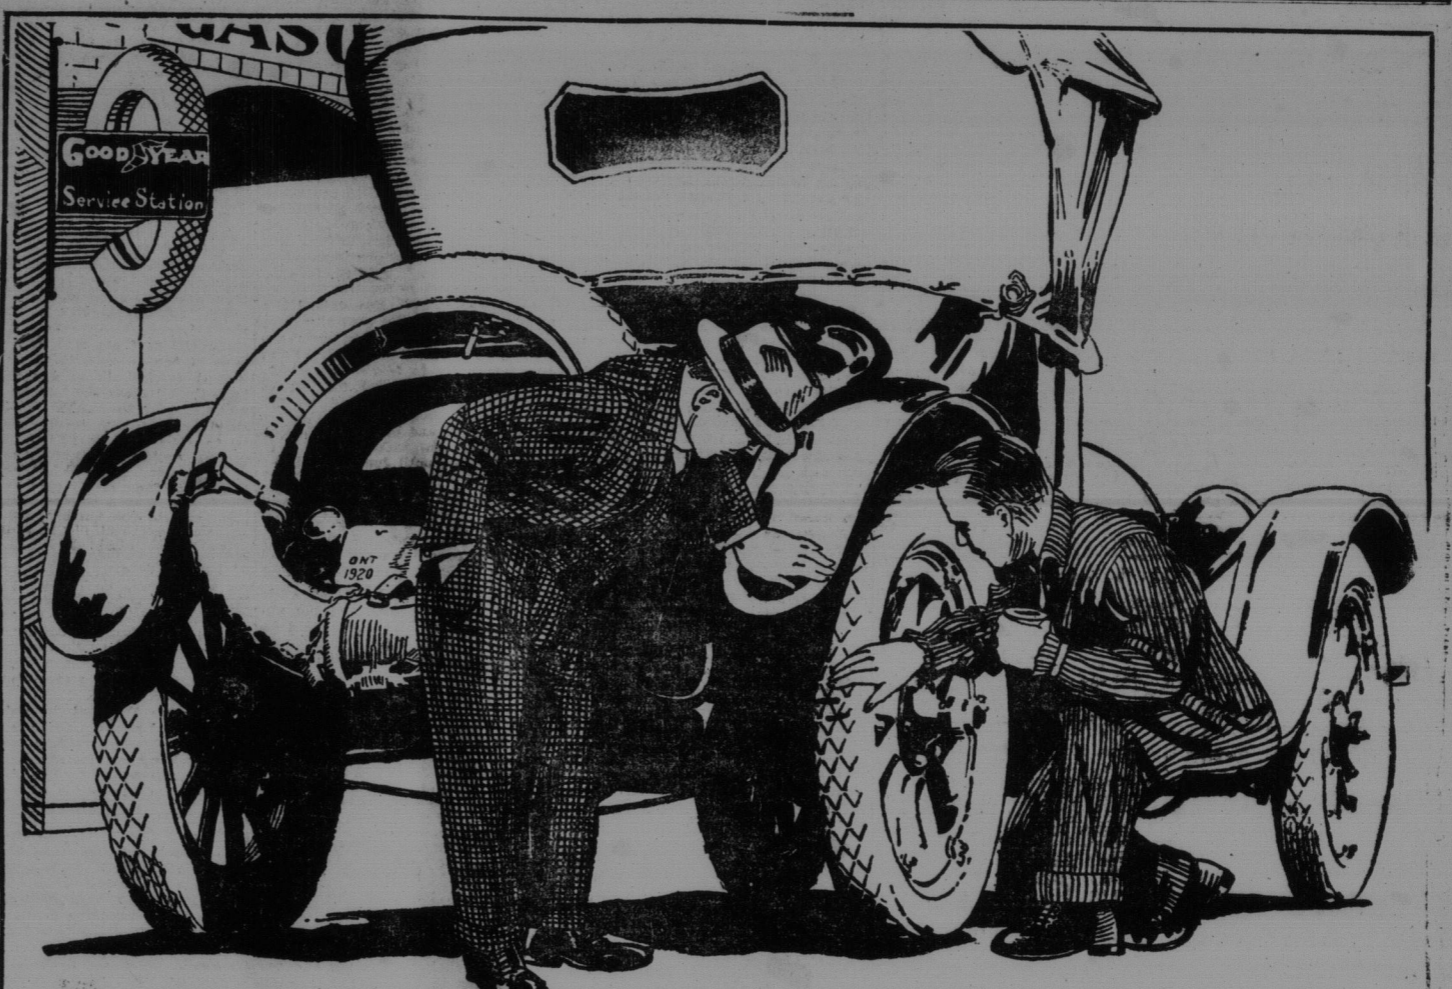

Brady was charged with violating the Federal Law against inter-State transportation of stolen automobiles. He is said to be wanted in Newark, N. J., for alleged theft of \$10,000 worth of gold leaf, and also as a witness in a police investigation there.

Amherst, May 30.—Cyril N. Ormond, son of Mr. and Mrs. W. L. Ormond, passed away last evening at his home on Havelock street. The young man who was twenty-four years of age, has been ill for some weeks with acute rheumatism. It was followed by pneumonia and in his weakened condition the disease proved fatal.

This Service Increases Tire Mileage

The largest single group of tire users in the world agree that the first step on the way to maximum tire mileage is a set of Goodyear Tires.

A large proportion of these users also realize that even Goodyear Tires will more surely deliver greater mileage when they are cared for.

Our agreement with this is evident in our sincere attempt, through Goodyear Service Stations and Goodyear Tire Savers, to further tire mileage in every possible way.

Among other things, we have produced Goodyear Tire Putty—the cure for small tread cuts, the prevention of tread separation and tire decay.

Not even the toughness of the Goodyear All-Weather Tread can protect tires from all tread cuts. Scraps of metal, glass, switch-points will cut the toughest tread when struck squarely.

The Goodyear Service Station Dealer who supplies and uses Goodyear Tire Putty, will do other things for you, and will tell you of things you should do yourself to increase your tire mileage.

We will be glad to send you free our Tire Conservation Course if you will write us at Toronto.
