AMERICANS IN THIS DISTRICT MUST PAY U. S. INCOME TAXES

And They Must Be Paid in American Money, Says Consul.

AFRANGEMENTS are being made for the filling out of income tax returns of all United States citizens resident in London and the district at the American consulate's office. Because of the congested business conditions in the local office. G. R. taggart, the consul has written Washington to send a spe-cial revenue agent to take charge of this work. Mr. Taggart does not definitely know when the agent will arrive, but will give notice through the press Failure on the part of Americans to than \$1,000 and, in addition, 25 per cent of the amount of the tax due. Credit will be given to all residents

bliged to pay the tax to see the speal agent when he arrives.

The boys' community council, representing the organized boy groups of the local boys' work board, will enter-

CAN'T BELIEVE IN THIS

Although the cost of civic administration is moving rapidiy, it is within the realm of possibility that Plumbing Inspector James Young's office this year may be furnished with a sign to indicate to the world in general just where this newest city official abides.

At present he is so completely camouflaged that only the most persistent searcher can find him. His office is located on the ground floor of the city hall, but the whole window is covered with an immense screen, which declares that the inclosed space is the garbage department office. It was, at one time, hut was vacant for several years until Mr. Young took it over last year. Scores of people having business with the department come there only to be directed to the next floor, where the new office is located.

Last year's council set out bravely to re nedy the situation, but on finding that a new screen would cost \$15, dropped it like a monkey would a hot chestnut. They got one of the city hall artists to make a temporary sign on cardboard. This looked fine from the street, but the reverse side, which showed prominently in the office, read. "Dumping Allowed Here." The inspector decided the last state of his office was worse than the first, and discarded the sign.

He is looking with hopeful eyes toward the new council, which may take the responsibility of providing a sign of which any office might be proud.

WOMEN FORM PISTOL CLUB

Pittsburg, Feb. 18.-The women of four Pittsburg suburbs have or ganized a "pistol club" for the purpose of protecting themselves and their homes against robbers. For several months robbers have been active in these districts, and several women have been attacked.

In order to cope with the situation, more than a score of women residents of the suburbs purchased pistols, met yesterday and organized the club. An instructor gave them their first lesson in the use of fire-

Mrs. Oldridge, Simcoe Street, Lost Trace of Relatives

After being parted for 42 years, Mrs. W. T. Oldridge, 270 Simcoe street, has returned home after a short visit to her heretofore unknown sister, Mrs. John Cormode, 513 Madison avenue, north. Bay City, Mighigan. Mrs. Oldridge has been a resident of London for the mast 42 years. has been a resident of London for the past 42 years.

The story of Mrs. Oldridge's early life and how she was parted from her sister is as follows: The family, named Derry, consisting of the father, mother and four daughters lived in London, England, where the father was employed as an artisan. The parents died many years ago, their deaths soon resulting in the breaking of all family ties. The eldest of the family was then 14 years of age. Soon after she was taken by a family as their adopted daughter. The other three children whose ages were 11, 7 and 3 respectively were left uncared for.

Incident in Connection With Interview With Minister of Education.

The following letter has been received by the editor of The Advertiser:

To the Editor of The Advertiser:

Dear Sir,—With reference to the interview of the board of education of this city with the minister of education at Toronto, I might be permitted to report. so far as I remember, the exact words used:

So far as I am aware I am the only person who spoke to the minister's clerk on asking for a second **sterview* with the minister.

The words used, so far as I remembere, were: May we see the minister again? The clerk replied, I don't know, the minister is in council. It then said, Could a note be passed in asking him to see us?

She again answer I don't know. I then said, You know this is a farmers' government that is now in power, and Dr. Grant is a first-class fellow. Shortly after Dr. Grant came in.

If the minister deemed the above remark offensive it was quite unintentionally so. Yours truly,

The passing of the Fordney tariff bill is creating considerable interest among local producers, but as yet there is no settled opinion as to what may happen when the measure is put in operation. "Of course, Canada will retaliate," said one, man to The Advertiser. "Mr. Tolmie, the Dominion minister of agriculture, said so when the bill was being framed."

"That's all very well," remarked another, "but what about our supply of anthracite coal? Canada, and especially Ontario, is dependent on the States for antipacite, and they may threaten to shut-it off, just as they did when the wood pulp restrictions were being talked about."
