

NEW MUSIC.

LITTLE ALABAMA COON. Song in C by Hattie Starr. Compass D to E. Willis, Woodward & Co., New York. Anglo-Canadian Music Publishers' Association, Toronto. 50 cents.

A most captivating song in genuine down-south negro style. The verses are set to music of that weird character peculiar to plantation songs, while the chorus, which is arranged both as solo and quartette, is a rocking lullaby, with an irresistible melody. This song is immensely popular in the States, and is fast making its way on this side of the line.

SKETCHES. For piano. By J. Lewis Browne. Whaley, Royce & Co., Toronto. \$1.

Both the composer and the publishers seem to have surpassed all previous efforts in the production of this charming collection. The sketches number eleven, and, from a musical standpoint, are particularly pleasing. On the whole, they are not really difficult; nevertheless, they are full of such color and feeling that they are most interesting and valuable. They are faultlessly engraved on fine paper, and are stitched in a neat and artistic limp board cover.

STATELY GRACE. Minuet for piano. By J. Lewis Browne. Whaley, Royce & Co., Toronto. 40 cents.

This is another number by the clever composer of the above "Sketches," and is a quaint and dignified accompaniment to the old-time dance.

VIVACE. Gavotte for piano. By Julian Lavery. Whaley, Royce & Co., Toronto. 40 cents.

A simple but effective little number in F, above the average in grace and novelty.

THE WHITE STAR. Schottische in F. By Stanley Gustave Metzger. Orpheus Music Publishing Company, London. Whaley, Royce & Co., Toronto. 50 cents.

This shows itself to be a bright and tuneful dance, with sufficient character to attract attention. In addition to the piano score, it is also published in band parts.

THE OSGOOD. A new dance. By S. M. Early. Music by Charles Bohner. Whaley, Royce & Co., Toronto. 40 cents.

This tells its own story. The music is in schottische time, and can be used for that dance.

LOVE AND ROSES. Song in F. Words and music by Lillian Forrest. Whaley, Royce & Co., Toronto. 25 cents.

Rather amateurish and lacking in character.

NORDICA WALTZES. For pianos. By Homer Tournee. Whaley, Royce & Co., Toronto. 60 cents.

A spirited suite, by the composer of the song "Memory," which he has introduced in the third waltz.

TITANIA WALTZ. For piano. By Azote. Orpheus Music Publishing Co., London. Whaley, Royce & Co., Toronto. 75 cents.

A really good waltz, which has already met with considerable success in England.

Its melodies are pleasing, and the time is well marked all through. The handsome lithographed cover is not its least attractive feature. Band parts are published.

THE JESTERS. For piano. By Mervyn Maple. Orpheus Music Publishing Co., London. Whaley, Royce & Co., Toronto. 60 cents.

A quaint and melodious number in G. The fingering is carefully marked throughout, and it is just the thing that will suit young players.

NEW STATIONERY.

Some of the lines attracting attention this month with the Copp, Clark Co. are worthy of special mention. Sunday School class books and household expense books are new and opportune. A new line of limp leather pass-books, in post quarto, large post

octavo, small post, and cap, are of a much finer finish, appearance, and material than is usual in books of this character. Even the colorings of the leathers are carefully chosen and help materially in the sale of the books.

A novelty in memos. is a leather-covered pocket memo., tied up in a package with two extra fillers. These are sold to the trade at \$3.00, and for thirty-five cents they can sell a most useful and self-recommending article.

A good note paper at \$1 a ream is their King Philip. It is a cream wove, ruled, of fine quality and excellent finish, and this price can be shaved in quantities.

A shipment of their vellum paper, "Original Milton Mills," is to hand. It is a very popular brand. Another large shipment of crepe tissue is to hand, and all orders can be promptly filled.
