Important to Farmers

We would repeat again what we have so frequently stated in appeals to our Western Farmers,—that the only satisfactory way by which they can realize the largest net return for their grain according to the market at time of sale, is by shipping it by the carload to Fort William and Port Arthur, and having it looked after and sold in the Winnipeg market by a reliable and experienced commission firm, acting solely as the Farmer's agents. If besides this the grain is loaded direct into car instead of through an elevator it saves expense and cuts out every middleman but the one commission agent, between the Farmer and the buyer who pays the highest price in store Fort William or Port Arthur, who is usually the exporter, though not always.

At this time of year grain prices usually become firmer, because every day as it passes brings us nearer the opening of lake navigation, and decreases the length of time grain need lie in the terminal elevators under the expense of storage, and there is always the anticipation and prospect of increased activity in buying, which the opening of navigation brings. Also between now and summer there sometimes develops serious impairment in the prospect for the growing wheat crops in different countries, which advances prices sharply. Farmers therefore can make no mistake in getting as much of their left-over grain as possible shipped forward before the busy seedtime comes on, in order to have it in a position where it can easily secure the advantage of any sharp advance in prices that may occur.

Farmers should keep themselves informed about market prospects and possibilities by writing to and consulting us, and should bill their cars to Order Thompson Sons and Co., Fort William or Port Arthur (according to railway shipped on) no title Thompson Sons and Co., Winnipeg. We make liberal advances on car lots shipped to us, and carry same at a moderate commercial rate of interest, as long as seems desirable to do so.

Write or wire, we are promptly and always at your service, and our sole charge is the regular commission of 1c per bushel on the grain we actually handle.
