A Boy Who Won Out

E. F. Eaton, Colchester Co., N. S.

When a man with lots of spunk and determination tackles a proposition he is pretty certain to win out. There will be something doing any way. When a young man of this kind starts out to win a farm for himself his success is almost a foregone conclusion. Such a man is Mr. W. T. Craigs, of York Co., N. B.

When just a bit of a boy, Mr. Craigs hired out with Mr. P. P. Robinson, of Fredericton, on his 1,000-acre farm. For 15 years he worked as a hired man, starting on \$5 a month. He did not have much education to start with but he had trained himself by reading and studying and would now pass as a fairly well educated man. And he was honest. Mr. Robinson has told me that he has trusted Mr. Craigs with hundreds of dollars and he was never deficient a cent.

Recently Mr. Robinson decided to retire from farming and when he came to lease his farm, Mr. Craigs came forward and offered to take it. He has now been working the farm

need any legal proceedings because apparently he will pay it without.

LIABILITY FOR INSURANCE.—Last year I gave the insurance of my buildings to A. This year, as the time was about up, he prepared the policy similar to last year and sent it to me without my advising him to do so. In the meantime I decided to let B, a neighbor, have the insurance for this year, and sent him A's policy to copy the details of contents of buildings, etc. B mislaid or lost the policy, so I could not return it to A. I would have returned it before had I known it was necessary, but B thought it was not. Now A has written several letters concerning it saying it is earning premium and trying to influence me to settle for it. He sent a statement for me to sign, relieving the company of all responsibility, and stating that I had lost the policy. B, who feels in a measure responsible, signed the paper and returned it to A. What can A do about it? Can he hold me responsible for the amount of premium when he was not authorized by me to send the policy?—H. B., Oxford Co., Ont.

It would require a much more complete statement of the circumstances under which the policy was sent to you, before we could advise you definitely as to your liability

on lease for some years and is getting on nicely and before long will have a farm of his own.

Mr. Craigs' success is a fine example of what any young man with lots of grit can accomplish by hard work. Starting out as an uneducated boy with \$5 a month, he is now a well informed man and can be numbered as one of our most progressive farmers. Surely this should be a stimulus to others of our boys who are up against the proposition of winning a home for themselves.

to pay for the policy, and at best your position is rather a doubtful one, depending entirely upon the facts of the case. Your best course would be to sign the release freeing the Insurance Company from all responsibility under the policy, and then make no payment upon the premium unless you are forced to do so.

Prof. C. A. Zavitz, secretary of the Ontario Agricultural and Experimental Station, announced that experiments and materials for union experiments are now ready. Fuller information can be obtained on application to Prof. C. A. Zavitz of the Ontario Agricultural College, Guelph, Ont.

A QUESTION OF FORGERY.—Schoolhouse was insured. First instalment was \$2. A week after annual school meeting a new secretary was appointed and discovered the notice card and receipted cards had been tampered with, changed from \$2 to \$1 and entered in account book as \$3. The former secretary has offered \$1 to the present secretary, but it was not accepted. Let me know the legal way of collecting this—A. Subscriber.

From the facts disclosed it might turn out to be forgery, and, if so, the person who is guilty of the forgery would be liable to a criminal indictment, but he would not be liable for the extra amount paid by the Board. On the other hand you say that the board has been offered the extra \$1 by the secretary. If so, you do not

"The man who makes two blades of grass to grow, where only one grew before, is a benefactor to his country."

Every progressive farmer is a benefactor to his country.

Intensive farming must naturally follow increased value of farm lands, so that one acre may be made to produce what two acres did before.

Even greater increases than these may be obtained by the judicious use of fertilizers, containing a large percentage of Potash.
