

The Importance of the Roof

A roof should be so good that once laid you can forget all about it. You can do this with a Paroid Roof. Once you and your farm-help have laid Paroid according to the simple instructions, your roof is weather-proof and fire-resisting.

NEPONSET Paroid ROOFING

Paroid is water-proof, because it is saturated through and through with asphalt. It has not dried out, curled up, split or cracked in 18 years' strenuous trials. It positively resists fire. Insist on the genuine—Paroid Roofing.

Look for the Paroid roll, and you will find one of the 2,000 Neponset dealers throughout Canada. Paroid is made in 3 colors—Grey, Red and Green. Write for useful book, "Repairing and Building"—sent upon request—FREE.

Try Neponset Wall Board in place of lumber, or laths and plaster—you'll like it.

Settle the Silo Question

—and settle it for good. Do away with repairs, with tightening of lugs and adjusting of hoops. Know that your silo won't blow over. Be sure of perfect silage at all times. Build the worryless, efficient

Permanency and Prosperity for the Hollow Life Farm and Silo They will "Last for Generations"

Natco Imperishable Silo "The Silo that Lasts for Generations"

Its hollow, vitrified, clay tile are impervious to air and moisture—they preserve the silage sweet and juicy. The dead air spaces in the wall resist frost—making it the silo for severe climates. The continuous, reinforcing bands laid in the mortar hold it in a grasp of steel. It is a silo of efficiency, and a silo you'll be proud of. Send for our silo catalogue describing it fully.

Also get our splendid new book, "Natco On The Farm," describing other farm buildings made of Natco Hollow Tile and just as efficient. Both books free. We have many farm building plans to submit, and will help you solve your building problems, free. What are you going to build? Let's hear from you. Write today.

National Fire Proofing Company

Natco Silo Wall Note perforated shell, providing firm anchorage for mortar joints.

Alpha Gas Engine

This Engine will pay for itself quickest

BECAUSE of its low fuel cost and exceptional freedom from expensive repairs, the Alpha will pay for itself on your farm in the shortest time. You will get greater and quicker returns for the money invested.

You may be able to buy an engine for less money than you can an Alpha, but that should not be your chief consideration in selecting an engine. You should always keep in mind the service you will get from the engine. No other engine will give you as much for as little money as the Alpha.

The Alpha is a simple engine with plenty of power, perfectly controlled by a most sensitive governor, that keeps it running steadily and smoothly under light, heavy or varying loads. The fuel consumption is accurately gauged to the load so that there is no waste.

This engine has no complicated, delicate parts to require constant attention—not even batteries. It starts and operates on a simple low speed magneto. You can use either kerosene or gasoline for fuel, and the minimum amount of either will be required.

There is a great deal of work on your farm that can be done better and cheaper by using an engine. You can save enough to pay for the engine in a very short time. The quickest way to save the money that will pay for your engine is to buy an Alpha now, and put it to work.

Ask for a copy of the Alpha Engine catalogue. It contains a lot of valuable information about gas engines. Alpha Engines are made in eleven sizes—2 to 28 H. P.—each furnished in stationary, semi-portable, or portable style with hopper or tank-cooled cylinder.

DE LAVAL DAIRY SUPPLY CO., Ltd.
