

## Carhartt's Overalls

WHEN you are offered overalls claimed to be as good as Carhartt's for 50c. or a dollar, or even two dollars less than my Carhartt's, remember, that the manufacturer has made a so-called saving somewhere equal to the difference in price; for no manufacturer can sell overalls at less than I ask for mine and remain solvent, if he gives the same quality that I do.

The point I make is, that the fair price you pay for Carhartt Overalls is enough to insure first-class material and workmanship throughout without forcing me to resort to "skimping" or substitution.

events immediately leading to the step were: On June 16 the reply of the Allied nations to the German counter-proposals was given to Count von Brockdorff-Rantzau, and taken by him to Weimar. Subsequently the German Cabinet (the Scheidmann Government) resigned, and President Ebert called upon Herr Noske to form a new Ministry, the way to accepting the Allies' terms being then clear since the resigned Government contained the remnant of aristocratic power, opposed to accepting the terms, whereas Noske represents the Majority Socialists, the majority in the National Assembly and the faction in favor of signing the Treaty. Noske is a moderate, and it was greatly due to his efforts that the "Red" rising in Germany was so satisfactorily quieted. The change in Government involves the disappearance from public affairs of von Brockdorff-Rantzau. His portfolio as Minister of Foreign Affairs goes to Dr. Hermann Mueller, Leader of the Majority Socialists; Herr Bauer becomes Chancellor; Mathias Erzberger accepts the portfolio of Finance, while Herr Noske remains Minister of Defense. The Germans ask modification of the treaty on two points, that the causes declaring her to be responsible for the war and calling for the trial of the former Emperor be eliminated. The Council of Four, however, decided that no further alterations will be made, and notified the Government that unless the terms were accepted *in toto* at once the armies of the Allies would begin to advance.

The Italian Government came to its downfall in the Chamber of Deputies on June 19, owing to the objection of the Socialists to the Imperialistic trend of Orlando's policy, and particularly in regard to the Adriatic Coast settlement, the Socialists not wishing to antagonize the Jugo-Slavs by annexation of the entire coast including Fiume. Orlando's demand that the Chamber meet in secret session to hear explanations regarding his policy was refused by a vote of 259 to 70.

## "The Winnipeg Revolutionary Strike."

The "Winnipeg Citizen", under date of June 9, gives a brief review of the Winnipeg strike, and a record of the agitators who framed the plans. The following is quoted from the issue in question:

"The revolution in Winnipeg was the outcome of a Bolshevik movement started at Calgary last March and directed by the I. W. W. organization in the United States. That convention elected a "Red Five" executive for Canada. One of these is Victor Midgley, of Vancouver, a notorious agitator whose expulsion from Vancouver was demanded by returned soldiers last August when he and others led a one-day general strike in that city in memorial to a military slacker and defaulter who was shot while resisting arrest.

"The second is W. A. Pritchard, of Vancouver, who participated in the same unpatriotic escapade. The third is Joseph Knight, of Edmonton, one of the most notorious of Western agitators of the mining districts, and a man who demanded the release from internment of men who were actively working in Canada for the German Government during the war.

"The fourth is Joseph Mayler, a Bolshevik by his own frank admission, who is out to overturn the present system of government. And the fifth is R. J. Johns, one of the worst Red agitators in Canada, a Winnipeg man who in 1917 at a public meeting of the Trades and Labor Council urged a general strike against conscription and national registration.

"Johns is one of the prime organizers

# The Grain-Saving Stacker

"I found the following saving with the Grain-Saving Stacker: Wheat, 10 bu. to every 1000 bu. threshed; oats, 25 bu. to the 1000; barley, 15 bu. to the 1000." Report of F. L. Kennard, Agronomist, University of Minnesota.

The Grain-Saving Stacker is the ordinary gearless wind stacker with the most important improvement since wind stacking came into use. The device in the hopper saves the grain which otherwise goes to the stack and is wasted. It has saved many thousands of bushels—an enormous gain, at prevailing prices. Under even average conditions it will
