

Home Applied Tire Mileage

YOU can add a thousand or more miles to the life of tires with inside breaks by the timely use of a Goodyear Reliner.

This Reliner is a complete new tire lining made by Goodyear to reinforce tires weakened by long, hard driving, road shocks or accidents.

You can apply the Goodyear Reliner right in your own garage without expert help. Shaped to fit the casing, it can be cemented in and the tire ready for running in half an hour or so.

If you prefer, your repairman will apply it for you for a small service charge.

Watch your tires carefully for fabric breaks inside.

If any appear, see a Goodyear Service Station or your tire repairman about Goodyear Reliners at once.

The Worth is in the Wear

I NVESTING your money in a binder that will go to the scrap heap in a couple of years is poor business. Be sure to buy a machine that will last long enough to produce a profit as well as pay for itself. The good machine repays your outlay by long service.

Hundreds of Massey-Harris Binders which have been in use from fifteen to twenty years are still doing good work. Could anything prove more fully their durability? The durable machine is the profitable machine.

Massey-Harris Binders are renowned for long service

Milking 25 Cows In 60 Minutes

PRETTY good milking you will admit! Yet it is by no means unusual for one man with a Macartney double unit to milk a herd of this size in less than an hour.

What this means in dollars and cents is easily illustrated. The average person milks about 8 cows in an hour, by hand. Figuring wages and board at 25 cents an hour, handmilking one cow costs about 3 cents or 75 cents for the entire herd. Twice a day for 365 days means a wage expense of \$547.50.

At 25 cents an hour the labor cost per cow with the Macartney Milker works out at 1 cent, or 25 cents per day. Twice a day the year 'round this would mean a milking cost of \$182.50, or a yearly saving of \$365.00 through the use of the Macartney Machine Milker.

Simple figures but very expressive. And remember that Macartney means profit in other ways. It means more milk per cow, longer lactation periods, less hired help and more time for other important work in the fields.

The Macartney Machine Milker is a real money making investment. You are losing money without it. You gain in every way when you adopt it.

Free Particulars

Further information concerning the Macartney Machine Milker will be mailed you on receipt of the attached coupon filled in as indicated. This information will not obligate you in any way. Even if you are not contemplating an immediate purchase our literature will prove helpful and interesting.
